

# THE GLOBE.

FRIDAY, JULY 23, 1897.

THE OFFICIAL PAPER OF GILLIAM COUNTY, OREGON.

Here is another "sure cure" for consumption, from the Providence Journal: "Another class of men who watch sheep are those who do it for their health. Dozens of men claim to have been cured of consumption simply by putting in several months at watching sheep. The work gives what is most required in the deadly disease—plenty of fresh air, moderate exercise and employment that is not wearing on the brain, but is still enough to keep it occupied and prevent nervousness. Of course, if a man has plenty of money he can get these things without herding sheep, but there are many men who need them badly who have no money, and all who have taken advantage of this knowledge have surely been benefited. A number of men who have taken up sheepherding have become so fascinated with it that they have stuck to it long after they got over their trouble."

They had a terrible storm back East recently. A Missouri editor wrote about a cyclone, saying that it turned a well worn end up in the state of Mississippi; turned a cellar upside down in Wisconsin, moved a township line in Nebraska, blew all the staves out of a whisky barrel in Iowa and left nothing but the bungalow; changed the day of the week in Ohio; blew the hair off of a baldheaded man in Texas; blew the mortgage off a farm in Michigan; blew all the cracks out of a fence in Dakota; took all the wind out of a politician in Missouri.

A miserable impostor, says an eastern exchange, is working his game on some of the neighboring cities, selling from house to house a salve which he guarantees to cure warts. All sensible people know that the only way to remove a wart is to rub it with a raw potato, which is afterwards to be buried by a cross-eyed negro in the northeast corner of a graveyard at midnight in the dark of the moon. As the potato decays the wart will disappear. This wart salve put up in tin boxes is a delusion and a snare.—Exchange.

A remarkable law aimed at foreign immigration went into effect in Pennsylvania July 1st. It imposes a tax of three cents a day on all employed unaturalized foreigners. The tax is to be collected from the wages of this class, beginning July 1st. The bill will put about \$100,000 a year into the treasuries of the various counties of the state. One-half goes to the school fund on the basis of the number of schools, and the balance to the general expenses of the counties.

A local poet has just had a "spasm" and this is the result of it: "Into the cool lot bright and gay, the milkmaid hustles from day to day, and gathers the lactical fluid white while the morning sun is yet out of sight. Hot winds may blow, and grasshoppers hop, and the bugs and dronths may do up our crop, but as long as the stream of milk don't stop, the cow and the milkmaid will come out on top."

The Glonz gets all the leading newspapers of this state, and notes that more items are copied from this paper each week than from any country paper in the state. But it is too old in the business and not ebullient enough to stop over and gloat about it every time it sees its name in print—like our fossilized contemporary does, with the gleefulness of a little boy when he gets his first pair of new red-topped boots.

A Chicago firm advertised that they would give a "safety" to the first person selling five dozen cans of their baking powders. It is said that a Mayville girl worked two months to make the sale and is mad enough to warp her earst staves, since she received a neatly wrapped package containing a little article used to support a baby's bloomers.

A lot of miners in Ohio refused to help celebrate the 4th of July because they they did not want to indorse the declaration of independence which they consider a fraud and a lie. The great trouble with this country is that too many such cattle as these have the right to vote here.—Exchange.

A New York paper recently wrote to the governors of all the states and territories for estimates of the present population. All the reports have been carefully compiled, and show that the total population of this country is now, in round numbers, 75,000,000.

Now comes a French inventor forward and announces to the world that he has invented a horseless fire-engine. Why, France is way behind the age. There was a horseless fire-engine in this country as far back as 1812. The engine was drawn by men.

Eugene has another daily—the Register, a very bright 8-col. 4-page sheet. We welcome it to our exchange table.

Get your county warrants cashed at the Globe office. We pay the highest cash price for them. Don't forget it.

**WISCONSIN CURE FOR**

The Only First-class Blacksmith and Horseshoer in the County.  
MAIN STREET, CONDON, OREGON.

# JAMES W. SMITH

Desires to inform the people of Gilliam county that his business is running on full time at the old stand—Union Block, Arlington, Oregon; that the flashy, misleading newspaper advertisements and circular letters that are flooding the country have not affected his trade; but on the contrary, sales have been increasing. His many old friends and customers realize that no business man will give away something for nothing. What he loses on the "baits" he will more than doubly make up on the other goods he sells his customers. Look out for snares. One of our greatest statesmen 40 years ago truthfully said: "You can fool some of the people all of the time, and all of the people some of the time, but you can't fool all of the people all of the time."

James W. Smith's immense stock of goods will speak for him. Call and examine the largest stock of goods ever shown in Gilliam county. His stores are loaded from floor to ceiling, and as regards prices he will endeavor to keep in the "procession."

Many of the lines are bought direct from the East in large quantities for cash, which enables him to give his customers great inducements to favor him with their patronage.

He sells the Oliver Chilled plows and extras, including the New Departure two and three gangs, also the John Deere plows of all kinds, the Studebaker, Bain and Racine wagons, hacks and buggies, the Standard, Acme and McCormack mowers, reapers and hay rakes, the latest improved Pitts threshing machinery, the up-to-date old reliable Hodge steel-frame headers, Holt Bros. Combined Harvesters, Etc., Etc.

Camp and sheepmen's supplies a specialty. Highest prices paid for hides, pelts, etc.

When in Arlington call and get prices before closing deals elsewhere.
