

CAN'T HELP TELLING.

No village so small.
No city so large.
From the Atlantic to the Pacific,
names known for all that is truthful,
all that is reliable, are attached to the
most thankful letters.
They come to Mrs. Pinkham, at
Lynn, Mass., and tell the one story of

physical salvation gained through the
aid of Lydia E. Pinkham's Vegetable
Compound.

The horrors born of displacement or
ulceration of the womb:
Backache, bearing-down, dizziness,
fear of coming calamity, distrust of
best friends.

All, all—sorrows and sufferings of
the past. The famed "Vegetable Com-
pound" bearing the illustrious name
Pinkham, has brought them out of the
valley of suffering to that of happiness
and usefulness.

In one advertisement alone we re-
cently published thirty testimonials
from women in one small town who
had regained health through its use.

IT SAVES YOU MONEY

As Well as Restoring Your Strength
and Giving You Health to
Enjoy Life.

The regulator on
Dr. Sanden's Elec-
tric Belt makes it
the most conveni-
ent belt in the
world to use.

When you have squandered your
money feeding the quacks who live upon
such as you, it is hard to make you believe
that an advertised remedy is good. Some men
have a prejudice against anything advertised.
But surely the cures shown to have been per-
formed by Dr. Sanden's Electric Belt must com-
mend it to every sufferer. They prove that it
cures after all else fails. It would be better to
try this very simple and highly recommended
remedy before spending time and money with
drugs, because a fair trial of it will make it un-
necessary to use any other remedy. Dr. Sanden's
Electric Belt costs no more than one
month's doctor bill, \$5, \$10 or \$15, according to
the power, and hundreds in this city say it is
worth ten times as much. Call and see it, or
send for the book, "Three Classes of Men." It
is sent closely sealed by mail, free.

PAPER MILL DESTROYED.

Manchester, Conn., Aug. 16.—The
Peter Adams paper mill, in Buckland,
was burned this morning. Loss, \$35,-
000.

VANQUISHED BY THE CUBANS

Fully Two Hundred of Weyler's Men Fell.

INSURGENT LOSS WAS SMALL

Desperate but Ineffectual Attempts
Were Made to Capture and Kill
the Captain-General.

New York, Aug. 16.—A special to
the Herald from Havana via Key West
says: Further details have been re-
ceived of the battle near Aguacate,
which is near the Matanzas line. The
fighting, it was first reported, was in
Matanzas province, but it was just on
this side. There is no doubt of the re-
sult of the battle, however, and a con-
servative estimate places the number of
Spanish killed at 200, while the rebel
loss was comparatively trifling.

Preparations for General Weyler's ar-
rival at the palace were made on Mon-
day, but he has only just returned from
the field. He left Matanzas on Sunday
and reached Aguacate the next day.
It was there that a rumor came that he
was wounded in the big fight near
there, but the statement has proved to
be false.

The excitement in Havana is intense.
The uncertainty regarding the new
ministry in Spain is partly to blame,
and on top of this there comes news of
a big insurgent victory between Agna-
cate and Madruga, and also of a pitched
battle in the vicinity of Sagua la
Grande.

The advance guard of General Gomez
has crossed into Matanzas. Whether
he is close cannot be ascertained, but it
is reported that he declined the fight
at Sagua la Grande.

The largest battle that has taken
place in several months was the one
fought at Aguacate. It is known that
the battle was the result of an attempt
to capture General Weyler and kill
him. The captain-general had made
preparations to return on horseback
from Matanzas to Havana. Along the
road he had posted three columns of
Spanish soldiers. General Castillo
learned of his plans and gathered a
force of fully 1,500 rebels. This force
he hurled against the Spanish lines
near Aguacate where General Weyler
was supposed to be. General Castillo
commanded the insurgents in person,
and the Spanish were under General
Milla. The insurgents dispersed, but
later accounts are that both Colonel
Aldea and General Molino were
wounded.

The battle began about 4 o'clock in
the afternoon and continued till night.
The Spanish were ranked along the
open road and the rebels approached
them from the rear, coming from the
hills. A body of cavalry was stationed
about a quarter of a mile down the road
to cut off Weyler if he should be there
and attempt to seek safety.

The details of the actual fighting are
meager, but many reliable persons who
passed near the place, which is beside
the railroad station, say that from the
carriage windows they could see many
dead soldiers along the road. The
rebels used rapid-firing guns. When
darkness came the Spaniards retired,
to return the next morning with heavy
reinforcements, but the insurgents only
opened fire for about half an hour and
then disappeared. They divided into
small bands and subsequent pursuit
was futile.

Information has also been received of
the big fight near Sagua la Grande. It
is said the town was attacked and that
a portion of it was burned, but this has
not been verified. Correspondence
from the field, however, proves that
there has been a battle there, Gomez
in person, it is said, directing the in-
surgent operations.

After the fight at Aguacate, General
Weyler fell back upon Guanabacoa,
just across the bay from Havana. The
rebel chiefs, Colonel Arnagaura and
General Rodriguez, were in the district
and Weyler expected a raid.
Weyler arrived at Guanabacoa with
4,000 men. Five miles from Guan-
abacoa he was attacked by a rebel force
under General Rodriguez. Rodriguez's
plan was to force General Weyler to
give battle and pursue him into the
hills, where the captain-general stood a
good chance of being either killed or
captured. The rebels fired several vol-
leys, killing 17 and wounding a large num-
ber of the Spanish, but Weyler refused
to give fight and kept on his march to
Guanabacoa, driving 300 head of cattle
that he had collected along the line.
General Rodriguez followed in Weyler's
rear to within sight of the town. After
the rebels withdrew the Spanish
troops commenced a heavy fire, the
noise of which awakened and frightened
the residents of Guanabacoa.

A train running from Mariano in
Havana province was fired upon recent-
ly. The American vice-consul, Mr.
Springer, was on the train. Bullets
struck near him, but he escaped unhurt.

Gold Discoveries.

New Orleans, Aug. 16.—A new gold
field has been discovered, but this one
is in the tropics. Reports have come
to this city lately that big finds of gold
have been made in Nicaragua, and
steamers from that section have been
bringing in gold dust in proof of it.

Two Children Drowned.

Crete, Neb., Aug. 16.—Willie and
Mary Vogel, aged 4 and 10 years re-
spectively, were drowned in the Blue
river today. They fell from a narrow
walk, and were carried over a milldam
to the rocks below.

Paper Mill Destroyed.

Manchester, Conn., Aug. 16.—The
Peter Adams paper mill, in Buckland,
was burned this morning. Loss, \$35,-
000.

MORE REGULATIONS.

Canada Will Now Reduce the Size of
Mining Claims.

Toronto, Aug. 11.—A special to the
Globe from Ottawa says the Dominion
government has received several im-
portant decisions in regard to the Yu-
kon country and the working of the
gold fields there. It has been decided
to appoint an administrator for the dis-
trict, who will have entire charge of all
the Canadian officials there and be the
chief executor for the government.
Joseph Walsh, a former commander of
the Northwest mounted police, is to be
appointed to the position. The party of
mounted police to leave Manitoba next
week for the gold country has been in-
creased from 20 to 35. They will
take with them two Maxim guns.

The mining rules have been amended
in an important particular. At present
a miner is at liberty to stake out a claim
of 500 feet, running along with the
stream and back to the bank. This has
been reduced to 100 feet, and the new
regulation will go into force immedi-
ately. A court for the administration
of civil and criminal questions in the
gold districts has also been decided
upon. Justice McGuire, of Prince
Albert, is to preside over the court.

STEAMER WILLAMETTE LEAVES

The Old Collier Sails With an Immense
Cargo.

Seattle, Wash., Aug. 11.—The
steamer Willamette, with the largest
number of passengers ever carried by a
single steamer to Alaska is now on her
way to Dyea. She carries 815 passen-
gers, 200 head of live stock and over
2,000 tons of freight.

A seething crowd of people thronged
the wharf to bid good-bye to Klondike-
bound prospectors, and every whistle in
the harbor gave lustily a parting salute.
Freight was piled in every conceivable
nook and corner. In the hold, pilothouse,
cabins, dining rooms and
staterooms were piled an indiscriminate
mass of clothing, hay, grubstakes, lum-
ber and supplies of all descriptions.

Down below were the horses, crowded
together in little cubbyholes, called
"stalls" only by courtesy. The horses
didn't like the prospect. That is to
say they made considerable objection
before they consented to be swung on
the boat by means of an engine and
large hoist.

The work of loading the big steam-
ship Willamette began at midnight.
Of the 800 people on board, 565 took
passage here, 175 at Tacoma and 85 at
San Francisco.

APPEALING FOR FOOD.

Their Families Are Starving While the
Strikers Refuse to Work.

Pittsburg, Aug. 11.—Appeals for
food and provisions were numerous at
the headquarters of the miners' officials
in this city today. It appeared as if
there was a wail from every section of
the district, and miners in person were
present to ask that the suffering ones
be looked after. Secretary Warner was
kept busy answering the appeals. He
said tonight that he had sent more than
\$1,000 worth of provisions into various
parts of the district. The appeals are
now coming in from the families, the
heads of which are at the various min-
ing camps using their influence to keep
other men from working.

A series of meetings are to be held
all over the district. It is expected to
keep up the interest in every section
and strengthen every point where there
is the least indication of weakness.
The vigils on the mines of the New
York & Cleveland Gas Coal Company
are to be kept up, and the vigor in-
creased from day to day.

Early this morning the miners of
West Elizabeth made a march on the
mines of the Elizabeth Mining Com-
pany, formerly operated by Horner &
Roberts. About 50 men were going to
work. After a consultation the men
asked that they be allowed to finish
loading a flat. They agreed to go out
as soon as it was loaded, which will
take several days. Officials of the
company made an effort to get permis-
sion from the miners' officials to con-
tinue work on a 69-cent basis. This
was not given, and it is expected that
the mine will be idle as soon as the flat
is loaded.

From New York to Alaska.

New York, Aug. 11.—The first ship
sailing from New York direct to the
Klondike gold fields is advertised to
leave about August 21. It is to be
sent by the New York & Alaska Gold
Exploring and Trading Company. The
company has not yet selected its vessel,
but it promises to dispatch a steamship
capable of carrying 200 passengers and
1,500 tons of freight. It says the ship
will make the voyage around Cape
Horn to Juneau in 50 or 60 days.

More than 50 names have been listed
for the voyage. Not more than 200
passengers will be allowed to embark.
The cost per passenger, including berth,
meals and transportation of 500 pounds
of baggage direct to Juneau is to be
\$175.

More Steamers for Alaska.

San Francisco, Aug. 11.—Two steam-
ers will sail for the north today with
their carrying capacity taxed to the ut-
most. The Umatilla will be sent to
Seattle by the Pacific Coast Steamship
Company, and the South Coast will
also be dispatched. The Umatilla will
take away about 400 passengers and
transfer them to the City of Topeka at
some Puget sound port.

Although the South Coast is not yet
loaded she is very low in the water,
and sea-faring men say that with her
load in a rough sea she will have great
difficulty in getting through.

The Gypsy's Prediction.

Malaga, Aug. 11.—Old inhabitants
of this city relate that when Canovas
del Castillo was a young assistant mas-
ter at a school here, a gypsy woman
told his fortune. She predicted that
he would become great, and would meet
with a violent death.

WEEKLY MARKET LETTER.

Downing, Hopkins & Company's Review
of Trade.

The short sellers of wheat have but
a single argument left to support their
views, viz: The admitted fact that the
wheat crop of this country will be at
least 100,000,000 bushels larger than
that of last year. The current news
during the week has been extremely
bullish and developments have materi-
ally strengthened the position of specu-
lative buyers. Probably the most im-
portant announcement was Beerbohm's
estimate placing the European shortage
compared with last year at 224,000,000
bushels. This has been emphasized
and confirmed by the active cash de-
mand and enormous sales for export.
An additional aid in enhancing values
has been furnished by the farmers
stacking their wheat at a greater ex-
tent than usual. Should the coal min-
ers' strike continue a fortnight longer
it will prove a powerful, although un-
natural, factor in enhancing values,
and in all probability result in a more
serious congestion of the market for
September delivery than has prevailed
for July contracts. The promise of an
abundant wheat crop in America, the
absence of competition in supplying
the requirements of importing coun-
tries, and the consequent increased ex-
port demand for American wheat, all
tend to benefit the American farmer.
Wheat will prove a profitable purchase
on all reactions and the general ten-
dency is toward a still higher range of
values.

The American visible stock this week shows
a decrease of 164,000 bushels, and now
totals 17,650,000 bushels against 46,-
429,000 a year ago. There is much to
be said regarding both sides of the corn
market, but after all it is said it is still
a fact that values are extremely low—due
to panic and overproduction. The
growing crop is not yet assured, and
with the enhancing values ruling for
wheat compared with producing years,
the increasing activity in general trade,
corn must participate to a greater or
less extent in the general improvements,
according as the crop promise to be
above or below that of last year. In
any event, present values promise to be
well maintained, and there is little
if any inducement for speculative short
selling. Should the growing crop meet
with any mishap much higher values
will quickly obtain.

Portland Markets.

Wheat—Walla Walla, 78c; Val-
ley, 81c per bushel.
Flour—Best grades, \$4.15; graham,
\$3.65; superfine, \$2.25 per barrel.
Oats—Choice white, 35c@40c; choice
gray, 37c@39c per bushel.

silver-skin, 85@95c per cental.
Fresh fruit—Apples, 20@30c per
small box; do large box, 40@60c Royal
apricots, 20@35c common cherries,
15@25c; Royal Anne cherries, 25@40c
per box; currants, \$1.00@1.50 per
chest; peaches, 25@40c; pears, 20@
40c; cherry plums, 20@30c per box.
Cheese—Fancy mild, new, 8c; fair
to good, 7 1/2c per pound.

Morphine Fiends in America.

A Parisian work on the morphine
habit says it is most prevalent in Ger-
many, France and the United States,
and, strange to say, that the medical
profession furnishes the largest number
of morphinists, 40 per cent. Men of
leisure come next with 15 per cent,
then merchants, 8 per cent. Of 1,000
fiends 650 were men and of the female
victims women of means furnished 43
per cent and wives of medical men 10
per cent.

NEXT TO AN APPROVING SCIENCE.

A vigorous stomach is the greatest of mundane
blessings. Sound digestion is a guaranty of
quiet nerves, muscular elasticity, a hearty ap-
petite and regular habit of body. Though not
always a natural endowment, it may be acquir-
ed through the agency of Hostetter's Stomach
Bitters, one of the most effective invigorants
and blood fertilizers in existence. This fine
tonic also fortifies those who use it against ma-
laria, and remedies biliousness, constipation
and rheumatism.

A magnetic well of great power has
been struck at Bowersville, five miles
south of Jamestown, Ohio. The well
was drilled 140 feet deep, and at this
depth the drill came so magnetized
that particles of iron clung to it.

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the
diseased portion of the ear. There is only one
way to cure deafness, and that is by constitu-
tional remedies. Deafness is caused by an in-
flamed condition of the mucous lining of the
Eustachian tube. When this tube gets inflam-
ed you have a rumbling sound or imperfect
hearing, and when it is entirely closed deafness
is the result, and unless the inflammation can be
taken out and the tube restored to its normal
condition, hearing will be destroyed forever.
Nine cases out of ten are caused by catarrh,
which is nothing but an inflamed condition of
the mucous surfaces.
We will give One Hundred Dollars for any
case of deafness (caused by catarrh) that cannot
be cured by Hall's Catarrh Cure. Send for cir-
culars, free.
F. J. CHENEY & CO., Toledo, O.
Sold by druggists, 70c.
Hall's Family Pills are the best.

We excuse our selfishness by assum-
ing our greater need.

Pine's Cure for Consumption is our only
medicine for coughs and colds.—Mrs. J.
Belz, 439 8th Ave., Denver, Col., Nov. 8, '90.

John Pratt wore at his funeral in
Holden, Me., the other day, a fine pair
of calfskin boots made for him in 1862
and worn every Sunday since.

August 31st
is the last day of the \$1000
missing word contest.

Schilling's Best tea is
wonderfully fresh and fine.

Rules of contest published in large
advertisement above at the first and middle
of each month. A39

Nicola Tesla, the electrician, says
that he has practically perfected an ap-
paratus by which telegraph messages
may be sent without wire. He pro-
poses to give a demonstration of his
mastery of the electric currents.

Paris harbors a widow, Mme. Jules
Lebaudy, who inherited from her hus-
band \$25,000,000. As she disapproves
of the way in which he made his for-
tune, she refuses to use it contenting
herself with an income of 6,000
francs.

WHEAT Make money by suc-
cessful speculation in
Chicago. We buy and
sell wheat there on mar-
gins. Fortunes have been made on a small
beginning by trading in futures. Write for
full particulars. Best of references given. Several
years' experience on the Chicago Board of
Trade, and a thorough knowledge of the busi-
ness. Downing, Hopkins & Co., Chicago Board
of Trade Brokers. Offices in Portland, Oregon,
Spokane and Seattle, Wash.

PORTLAND UNIVERSITY LITERARY,
normal, business, musical,
art, theological and preparatory courses. State
diplomas for normal course. Twenty-eight in-
structors, 27 students. Location beautiful,
highly, in the suburbs, with all the advantages
of a great city and none of its disadvantages.
Free from saloons and immoral places. Boarding
halls connected with school. Government
grant and free. Expenses for year from \$100 to
\$200. School opens September 21, 1897. Cata-
logue sent free. Address,
