GLOBOSITIES.

See Lord & Co.'s new ad.

B. Kleiy of Olex has just been granted a pension by the government.

Sheriff Wilcox and family returned home Tuesday from their Pine creek visit.

S. B. Barker had his new barn and woodshed painted this week by W. A. Darling.

Don't forget the auction sale of the Sing property on Saturday of this week. See notice.

A little daughter was born last Monday to Mr. and Mrs. T. A. Brassfield in Ferry Canyon.

W. C. Webb of Mayville and a Miss Clark, who had been keeping house for him, were married this week.

Last week Gillman, French & Co. shipped six car loads of fine beef cattle to Fort Townsend and Troutdale.

J. W. Blake has just had a neat woodshed built at his residence, and one is being built this week at the court house.

Mrs. T. C. Mobley and little child, of Olex, visited her relatives here several days this week—Mr. and Mrs. T. G. Johnson.

William Kenny, who resides on Hay creek, near the John Day river, will soon leave for a visit to his old home in Ireland.

Manley Keizer stepped on a barrow tooth yesterday and badly injured his foot, but Dr. Hogan has him in running order again.

D. H. Smith, of Fossil, Gilliam county, who is largely interested in the cattle business, is registered at the Perkins—Oregonian.

Dick Kintzley, son of Geo. B. Kintzley of Springfield, left for Arlington, Gilliam county, Thursday with a pack horse.—Eugene Guard.

H. B. Hendricks is having a well "built" at his residence. Every bush of powder brings the bottom of it a little closer to China.

Mrs. C. J. Quinn of Mayville expects to start soon for a visit to her old home at Hamilton, Ontario, in Canada, to be absent a month or two.

The cost of transportation for bringing Thompson and Williamson from Gilliam county to the penitentiary last week was \$137.65.—Salom Statesman.

Al Henshaw and Charley Fix each had a fine brick blue built in their business houses this week—something that ought to be in every house in town.

Oliver Ward drew the capital prize—a \$6 stove—at the drawing of Defiance baking powder, at Stephenson's store last week. Buy a can of it and try your luck.

Ed Portwood and family have moved into the Halstead residence in West Condon. Henry Cuendet and wife will soon occupy the house just vacated by them—the Taylor house.

Mr. Joseph Whyte was liberated from the county jail Friday, W. J. Russell having gone on his \$500 bond to keep the peace. Mr. Whyte feels that he is a very much-persecuted man.

The hideous looking stockade around the county jail, which was a useless expense of several hundred dollars to the county, has at last been torn away and a board fence will soon take its place.

John Knox last week took his mother, Mrs. S. E. Sing, to Portland, where she will remain for several days under medical treatment for a complication of diseases that she has been troubled with.

The new railroad from Biggs to Wasco was finished last week and Judge Bradshaw and Dist. Atty. Jayne were passengers on the first train to Wasco Sunday night, on their way to hold court at Moro.

There is a great scarcity of threshing machines in the vicinity of Tekoa, Wash., and farmers are offering bonuses besides the regular price in order to get threshers. Henry Masterman offered a cash bonus of \$50 besides the regular rates, to get a threshing machine to thresh his grain, and could not get it.

Mrs. Caroline Branton, a sister of Roy Shelly, who died at Condon recently, arrived here this week with her five children and expects to spend the winter at Condon, for school advantages. They occupy Mrs. Taylor's dwelling house, just west of town. Families are coming in from all over the country to send their children to our excellent school.

We learn that at the Mayville races last week John Putnam's little "Miss McKinley" scooped in all the persimmons. This little mare seems to thoroughly understand that the best way of all to win a race is the good old way of taking the lead from the start and keeping it all the way through. That system has never been known to fail in a foot-race, either.

Miss Lizzie DeMoss is not recovering from her gunshot wounds as rapidly as she and everyone expected, and all of the troops are still here yet. They have no idea now when she will be able to be removed to her home in Sherman county, as we understand the wounded leg is badly swollen and feasted, and blood poisoning may set in any time.

Several young couples of this county will desert the ranks of single cussedness about next Sunday. Licenses to wed were granted this week to John Crane and Miss Jennie Graham of Mayville, and to—were told to not tell—but the first letter of his name is Edgar W. Moore of Condon and Miss Maud Golden of Mayville. Congratulations in advance.

Has that water works project fallen through already? If we remember right, at a meeting of our citizens only a month or so ago it was decided to make some provision for protection against fire. There is something like \$1000 or more lying idle in the city treasury here that could not be put to better use than in that manner. It is a poor plan to wait until half or all of the town is burned out before putting in water works.

A dispatch from Oregon City to the Oregonian says: "Walter Wyland, who escaped from the county jail a year ago last New Year's eve, turned up in this county some days ago, after having had considerable experience in Eastern Oregon. An officer arrested him at Marquam, and accepted a bond in the sum of \$500 for his presence here at the Nov. term of court. Wyland was tried here once for stealing a horse, and the jury disagreed."

Charley Rinehart, who was hurt a few weeks ago at Silver City by being thrown from a wagon, caused by the horses he was driving backing him over a grade when the wagon fell on him, returned last Saturday to his home in this city where he is confined to the house. Three broken ribs and a lame back is the result of the accident. The Knights of Pythias boys are ministering to his want.—Mountain Home (Idaho) Republican.

Miss Carrie Danneman will leave Monday for Corvallis to attend the State Agricultural College until next June. She will pay particular attention to music and thinks she will devote at least three hours a day to that branch. Miss Maud McConnell of Mayville will attend the same college, and both these young ladies will make their home this winter with the family of Mrs. M. J. Hoover of Fossil, who now resides at Corvallis, and whose daughters will also attend school.

Mr. C. C. O'Neil, the prosperous and well-known sheepman of Antelope, recognizing the Globe's position as the best advertising medium in Gilliam county, orders his buck ad. in its juicy columns. Read it. The Globe is read by every man, woman and child in Gilliam county who can read the English language. It is read in every state in the Union—from Maine to California and from the northern boundaries of the republic to the sun-kissed shores of the Gulf of Mexico. It is THE paper to advertise in.

Charley Fix has purchased the Gene Smith harness shop building from the Geo. Lawrence Co. of Portland and is having it fitted up for a restaurant, to be occupied soon by Jordan Bros. of Portland, who are old hands at the business. Charley has also bought the small dwelling house, just back of it, from Mrs. Sophia McKinney, of Goldendale. Mr. Fix is showing by his actions that he has abundant faith in the town by investing his money in property here, and is setting a good example for others. If the business men refuse to invest money in their town property, certainly no outsiders can be expected to do so.

Good Times Here at Last.

Everybody rejoices at the return of prosperity again, which had become a stranger to these parts for several years. No one is more elated over it than is the Oregonian, which has just solicited reliable information from every county in this state on the subject and the cheering news comes from every nook and corner that Oregon is more prosperous just now than it has been for a number of years. Some one from Arlington furnished the Oregonian with the following information, which appeared in the issue of Oct. 21:

"As compared with the past four years, the business of this year shows a marked increase in all lines. Not only has the number of business houses been increased but the volume of business of each individual firm shows a gain of not less than 50 per cent. For the month of September the business, as compared with September, 1896, has more than doubled. One firm reports sales for the year 1897 up to September aggregating \$75,000, the greatest amount of sales for any one month in years. In July, the sales amounted to \$14,000. Other business houses report a steady increase in trade.

It is expected that this will prove the best year since 1891 for all branches of trade. Much more freight is received at the station every month than has been hauled at this point in a number of years. The next few months will show still greater business improvement. Up to the present time no more than 35,000 bushels of wheat have been sold at this point, and over 1,000,000 bushels of the valuable product is always in the sack, which must find a market here.

Some idea may be formed from these figures of the vast volume of business which must be transacted during the fall and winter. Every tradesman is adding to his stock, with the intention of supplying buyers with all goods required in his line."

A man never becomes thoroughly depraved and beyond the hope of redemption, until he begins to make excuses for attending a circus.—Ex.

Olex Explosions.

There are plenty of good work horses for sale cheap, at Olex.

Mr L. H. Prettyman expects to start soon for Pullman to spend the winter.

School will commence at Olex next Monday, the 11th, instead of the first Monday in Oct., as previously stated.

Harry Clay received an order from Washington last week for a thousand head of sheep, which he will fill at once.

A blacksmith was in Olex last week looking for a location. He thinks Olex will suit him and he will start in in the spring.

Miss Maude Smith and Effie Beckas started last week for the Willamette valley, where they will attend school this winter.

The road supervisor is in the north end looking after the roads, which are getting in very bad shape. They ought to be strewed clear through.

Albert Miller has received a letter from his sister in St Paul, saying that her husband is in poor health and they expect to come to Gilliam county soon to reside.

Mr McNamee, salesman for Murphy, Grant & Co., of San Francisco, was in Olex over Sunday and sold a large bill of goods here. Mr McNamee reports better sales all over Oregon this year than previously.

Mr Sargent and family, who have lived in Heppner for the past twenty-five years, stopped in Olex Sunday night. They are on their way to Mt Tabor, in East Portland. Mr Sargent traded his Heppner property for a beautiful home at Mt Tabor.

There is some talk of again trying to get a county road through from Olex, south to Clem. This is a much-needed road and one that would benefit the public and the residents along the route, most of whom have said they would give the right of way.

Quite a number of wagons were in Olex last week, returning to the Valley from the Nez Perce reservation. They say they did not like it there. Mr W. S. Testerman is on his way up there now. Verily, the world is full of dissatisfied people, some of whom would kick if they were to be hanged.

Lone Rock Rumlblings.

Born, to the wife of Henry Neel, last week, a daughter.

Some lambs are changing hands here at \$1.60 per head.

Nat Webb of Walla Walla came down a few days ago to look after his large sheep interests here.

We had some very heavy thunder and lightning last week, accompanied by heavy rain in some localities.

The boys put in most of their spare time now playing foot ball, and intend to give the Condon boys a chance to play ball some of those days.

W H Colwell and family moved to Arlington last Wednesday, where they will remain permanently for a year or two. R M Johnson has charge of his ranch.

Some of our sports were out bear hunting the first of the week. The dogs were all right, but the men weren't, so the only thing they "killed" was some valuable time.

W C Brown has 70 of his mules ready to ship and will start with them in a few days. He expects to take about 80 head and will go to Missouri—the land of "Pukes."

P L Ham has freight teams on the road all the time now, hauling goods for his store. His low prices and square dealing has built up an enormous business, and is increasing right along.

Everybody signed the petition for the new road out of Lone Rock in the west end of the valley. We expect to have a good road by next spring—something badly needed, as there is not a decent road leading out of this place at present.

Arlington Items.

Mrs E B Frum is in Portland visiting with her daughter, Mrs C H Bressler.

Wheat reached the 64-cent notch Monday, with not much prospect for a rise.

The poles are on the ground for the erection of our electric light system. Who says Arlington is not looking up!

C W Shurtle has returned from an extended trip through the East. He says there are other places worse than Gilliam county.

B F Tennis came down from Lone the last of the week. He has been buying wheat up there, and says there will be a blockade of the platforms on the branch unless some sell pretty soon.

Mr O D Sturgess has accepted a position as clerk in the Arlington National Bank. R H Benedict, former clerk, will represent the Pennsylvania Mutual Life Insurance Co. in this county.

Our people will be pleased to learn that Mr and Mrs W H Colwell of Lone Rock will move back to Arlington in a few days. They are very popular here and a valuable acquisition to our social world.

Miss Ricks and sister will leave this week for The Dalles, where Miss R has secured a position as day operator. Her many friends regret to see her leave.

We also understand that Mr Clinton will leave in a day or so.

There are some women who are forever talking about being "insulted." Did you ever notice the class that are subject to insult? Well, 90 per cent of the insults are offered only to those who by a stare or a wink or some peculiar move invite the insult. The moment a woman forgets she is a lady, others, too, forget it. If you conduct yourself as a lady you need never fear an insult.—Ex.

The Place Where You Get the Most Change Back.

Of course when you are buying harness and saddles you want the best. I keep in stock only the very best material, and while maintaining my reputation in this respect, I go to the other extreme in keeping prices down to the lowest point. I know that nothing builds up business like the selling of first-class goods. I sell them, and don't sell anything else. When you need anything in my line, give me a call, and like the fable of the cat, "you'll come back again."
