FRIDAY, OCTOBER 22, 1897.

NOTICE.

The yearly subscription to the GLOBE is \$1.50, if paid in advance. If not paid in advance \$2 will be charged. A pencil mark around this notice indicates that your subscription has expired. Please renew promptly.

GLOBOSITIES.

The time for hearing the appeal in the Durrant case has been postponed until Nov. 15th.

T. L. Varnett, of Lexington, agent for the Chicago Portrait Co., canvassed this section this week.

Henry Cuendet and wife have just moved into the old barber shop building on Main street.

Mrs. J. H. Putnam and children are expected home to Fossil today from a month's visit at Salem.

A fine violin was left at this office, for sale cheap, or will trade for wood. Apply at the GLOBE office soon.

John Scrivner and his father-in-law, John Chance, were over to town Monday proving up on a timber culture.

Chas. A. Dana, the great editor of the New York Sun, died last Monday, of liver complaint. He was 78 years of age.

J. W. Blake and family, H. N. Frazer and family and Billy Barr all returned home the first of the week from their Portland visit.

W. A. Burick of San Jose, Cal., last week sold to Pat Skelly a half-section of the Downing land just north of town. Consideration \$600.

Henry Cuendet has finished H. B. Hendrick's well, at a depth of 22 feet, and there will be about six feet of water—all that is needed.

The testimony in the land contest case of Geo. T. Sly vs. Mrs. Martha A. Wade, both of Clem, was taken yesterday before H. B. Hendricks.

Always read the advertisements in the GLOBE; they will afford the most interesting study and put you in the way of getting some excellent bargains.

Little Rollo Frazer now sports a neat little bicycle, with regular pneumatic tires, and wouldn't trade it for all the full-grown bicycles in the world.

A fine little daughter was born to Mr. and Mrs. W. L. Barker on Matney Flat on Oct. 10th. Mr. Barker and family will soon move to them for school advantages.

Brother E. M. Shutt of Antelope rode to Condon last Thursday on a bicycle, covering the distance, 55 miles, in 8 hours, which is pretty good speed over such rough mountain roads.

Born, on Oct. 19th, to the wife of Robt. Poag, of Matney Flat, twins—a bouncing 10-lb boy and 9-lb girl. Mother and twins doing well, and Rob will also pull through, unless he suffers a relapse.

H. G. Jordan and wife, of Shuttler Flat, and his brother, T. J. Jordan, of Portland, arrived here this week and expect to soon open a restaurant in the harness shop building, recently purchased by Chas. Fix.

Ed Compton, the well-known buck man of Lone Rock, delivered 134 calves at Condon the first of this week. He has 210 head yet to deliver at Lost Valley, which will complete his work in that line this season.

Frank Shurtz of Arlington, the wide-awake machinery man, was out over this portion of the country this week as agent for Mutual Life Ins. Co. of New York. His insurance partner, C. P. Marshall of Portland, is with him.

Manley Downing recently returned from a visit to old friends at Corvallis, where he attended the State Agricultural College two years ago. Some of the boys say that Manley is "fixin'" to commit matrimony this fall.

An enormous eagle, measuring about 7 feet across the "shoulders," makes its home about two miles east of Condon and one mile west of Cooke Bros.' ranch. It is quite tame and frequently seen by persons passing that way.

Geo. W. Moore and family have moved back to their Olex ranch from Creswell, Lane county, where they had been for the last year. Mr. Moore says Gilliam county is away ahead of anything he saw in the Willamette valley.

Miss Elsie Sturgill is the name of the young lady who became the wife of Jay P. Lucas on Oct. 13th at her home in Baker City. Jay thinks he will visit his felends in Gilliam county this fall. He and his wife now reside at North Yakima.

Ed Cornett, who recently moved his family from the wet, unhealthy climate of the Willamette valley, to the dry and more healthful climate of this section, has fled on a homestead, 4 miles southeast of Condon, and will make it his permanent home.

H. C. Strickland has lost 3 hogs, aged 1 1/2 years, 2 barrows and 1 sow; color black with white faces and feet, with swallow fork in one ear; sow has crop off of one ear. He will pay expenses of keeping them. They strayed away from his 10-mile place on Oct. 15.

We witnessed a lively horse race at Heppner last Saturday between Frank Crawford's "Too Big" of Lone Rock and "Big Enough," owned by Heppner sports. Frank rode his own horse and won by ten feet, also the \$100 bet; distance 400 yards. Several hundred dollars changed hands on the result.

D. C. Harmon, of Polk county, who traded for the Mrs. Riggs ranch, 3 miles north of Condon, arrived here this week with his wife and three children to take charge of the property. He was trying to rent a house in Condon yesterday, to remain this winter for school advantages, but could not get a building, as there is not a vacant building to be had in town just now.

Bay Henson is over from Malheur county on a business trip. He expects to ship a trainload of cattle to Omaha in December. Before returning to Oregon he will visit his partner at Titusville, Pa., where the Ottman family, formerly of Condon, now reside. He says Miss Louella Maddock is getting along nicely with her school at Westfall, and that she is quite a favorite over there.

Mr. Wm. Cornett of Matney, who has been a regular subscriber of the GLOBE from its infancy, renewed his subscription Tuesday. He owns one of the best farms in the county, and says that the finest potatoes he ever saw were those raised this season in his half-acre patch, without irrigation. Nearly all of them weigh from 3 to 4 pounds each and so many in a hill that it looks more like a potato "hole" than a "hill."

Mrs. J. H. Downing came up from Lawrence, Cal., recently to visit her son Mont, at Bourne, Baker county, whose health has not been good for some time, the result of lung troubles. Also to be present at the wedding of her daughter, Miss Birdie, teacher of the Bourne school, who was married, or is to be married soon, to a young man who recently came out from Kentucky. Her many friends here and elsewhere tender hearty congratulations and good wishes.

For several years, during the hard times, we have been carrying a large number of subscribers, in order to accommodate them until the financial panic was over. Now that good times are here again and everybody has money, from the sale of sheep, wool, cattle and wheat, it is certainly the duty of all who are indebted to the paper to settle up once in full. The accommodation in such matters should not be so one-sided, and surely we have been as lenient as any reasonable man would expect. Don't you think so?

The people of Heppner and Morrow county want another newspaper, and have offered sufficient inducement and promised patronage to E. M. Shutt, of the Antelope Herald, to cause him to conclude to establish a new paper at Heppner next month—the Heppner Times. For the last three years the Gazette has been the only paper in Morrow county. He and his brother, S. P. Shutt, of the GLOBE, visited Heppner Saturday and while there he rented an office building and also a dwelling house. Heppner, for its size, is undoubtedly one of the best towns on the Pacific coast, or any other coast.

Arlington Items.

What is selling at 67 cts. now. Farr & Thomas killed an 1850-lb steer last Monday—the largest one killed here for some time.

The road out of Arlington is being repaired by the chuck holes being filled with sagebrush.

Freight trains are having their full share of trouble lately, there being a wreck or two a week.

W. O. Ziegler, formerly of Arlington, is now conducting a hotel in Eugene and doing well, we are glad to learn.

Geese are getting plentiful once more and all the old guns in town are being cleaned, the first time for a year.

We need rain very badly just now to start the grass growing, also to improve the roads, which are in a frightful condition.

Trains are very heavily loaded with wheat, and there are so many of them on the road that it is difficult to avoid wrecks.

The warehouses are taxed to their utmost capacity just now, handling the wheat that is coming in from both sides of the river.

Our town was full of K P representatives the first of the week, returning from Grand Lodge on their way home. They report having had a way-up time in the metropolis.

One of Rev Barnhart's children is sick with something like diphtheria. They have just returned from a trip East, where the disease was contracted, if such it may turn out to be.

W H Colwell and Dall Reed each had 15 tons of hay shipped down from Union county the first of the week. Most of the spare hay near here has been used up; so they had to send off for theirs.

More wagons are being sold here this fall than for several years, showing that lots of wheat at good prices restores confidence with the farmer, at least. When the farmer is prosperous, everybody else is.

R H Robinson has his engine in place and all of his wire strung, and as soon as his dynamo comes from the East he will turn on electricity and light up our town, to the great satisfaction of its residents.

George Chamberlain's little boy, who had his leg broken some three weeks ago, had to be operated upon last Monday, as the bones would not knit together. Dr Geisendorfer performed the operation, which was a difficult one.

The grain haulers and others are much delighted with the new county well, which was recently "built" on the flat near the Junction house. The well is only 30 feet deep and good water and plenty of it. There is also public water here in town, where all teamsters can feed and water their stock.

The manager of the Arlington and Heppner Telephone Cos. was in town the first of the week looking out the most practical route from here to Heppner. The poles will be set by the last of the month. Fossil and Condon will have to fall in line soon or they will be a back number and have to take their place among the mossbacks.

Mr. Joseph Whyte sends word in from his ranch on Thirty-mile that some one has shot and killed his team of work horses. If this is true it proves that we have some people in this country who would not hesitate to commit murder or any crime.

The Salem Independent does our worthy representative an injustice in the following, as Mr. David has the reputation of being one of the hardest workers in the legislature. That paper says: "The Hon J E David, of Gilliam county, has undertaken to argue his case with Secretary Kincaid. Mr. David will be remembered as the elderly gentleman who sat in the front row of seats to the Speaker's left, and who snoozed away a large part of his time for which he now demands pay. It is well that he awoke in time to draw his salary. Mr. David is a great man—in his own estimation."

The present managers of the Butte Creek saw mill (Messrs. Hendricks & Steiwer, with T. L. Stewart foreman at the mill) are endeavoring to get out 500,000 feet of lumber this fall for the coming spring trade. They now have most all kinds of seasoned lumber for the fall trade. Their prices and quality of lumber, and good roads, are bringing them an immense trade. The mill is running at its full capacity, averaging about 15,000 feet daily.

NON-ALCOHOLIC.

No man who lives on meat was ever known to kick his wife, or ask for a divorce. A vegetable diet woman is as cold and clammy as a turnip. If you want your girl to have rosy cheeks and vitality in her motion, feed her on beef steak with occasional doses of Dr. Haxson's Tonic Bitters. Sold everywhere.

There is no danger of anybody being troubled with dyspepsia, sour stomach, nightmares or ill temper who uses Fossil flour. Nothing ruins the health so quickly and surely as bad bread, and nothing creates so much harmony and cheerfulness in a family as good, light bread and biscuits, "the kind your mother baked." The only way to accomplish this is to use Fossil flour—the best and cheapest in the world.

The "Wilson Heaters" are the finest thing in the world to "spark" by; they require so little wood. Sold by Lord & Co.

FOR SALE.—I have for sale several well-improved ranches, situated in Gilliam county, Or. Parties wishing to purchase a good ranch on reasonable terms, are respectfully invited to call at the National Bank in Arlington and see me before purchasing elsewhere. F. T. Hurlburt, Arlington, Or.

The joke about the hubs of the Studebaker wagons being made of soft wood (maple) is too good to keep. The fact of the matter is, they are made of hickory, put through a patent process, which is a positive guarantee against their cracking or checking.

The Wasco Warehouse Co. has wool sacks, fleeces twine and sack twine for sale at Arlington.
