

\$2000
 in prizes to make twice as many people
 ask their grocers for *Schilling's Best* baking
 powder and tea.

Schilling's Best baking powder and tea are
 because they are money-back.

What is the missing word?—not SAFE, although *Schilling's Best* baking
 powder and tea are safe.

Get *Schilling's Best* baking powder or tea at your grocers; take out the
 ticket (brown ticket in every package of baking powder; yellow ticket in the
 tea); send a ticket with each word to address below before December 31st.

Until October 15th two words allowed for every ticket; after that only one
 word for every ticket.

If only one person finds the word, that person gets \$2000.00; if several find
 it, \$2000.00 will be equally divided among them.

Every one sending a brown or yellow ticket will receive a set of cardboard
 creeping babies at the end of the contest. Those sending three or more in one
 envelope will receive an 1898 pocket calendar—no advertising on it. These
 creeping babies and pocket calendars will be different from the ones offered in
 the last contest.

Better cut these rules out.

That in addressing Mrs. Pinkham there
 is communicating with a woman—a woman
 whose experience in treating living physi-
 cians, male or female.
 A woman can talk freely to a woman
 when it is revolting to relate her private
 troubles to a man—besides, a man does not
 understand—simply because he is a man.
 Many women suffer in silence and drift
 along from bad to worse, knowing full well
 that they should have immediate assist-
 ance, but a natural modesty impels them
 to shrink from exposing themselves to the
 questions and probable examinations of
 even their family physician. It is unne-
 cessary. Without money or price you can
 consult a woman, whose knowledge from
 actual experience is greater than any local
 physician living.

RUSSELL SAGE TO THE RESCUE

Forms a Syndicate to Bid for
 the Union Pacific.

WAS INVITED BY M'KINLEY

Government Claims Will Be Satisfied
 in Full—Seventy-Five Millions Al-
 ready Subscribed for It.

New York, Oct. 25.—Russell Sage
 created a sensation in Wall street late
 yesterday by announcing that he had
 been invited by President McKinley to
 form a syndicate to bid on the Union
 Pacific railroad on the basis of satisfy-
 ing the full government claim in the
 Union Pacific. Mr. Sage invited sub-
 scriptions to a plan to be hereafter
 brought out by him. The payment of
 the government claim in full is un-
 derstood to be the first condition in this
 plan. Mr. Sage's representative an-
 nounced last night that he had received
 subscriptions for over \$75,000,000
 within two hours of his announcement.
 It was said that he would continue to
 receive subscriptions until his plan was
 subscribed at least three times over.
 As to the bond transactions, Mr. Sage
 thinks there is unlimited capital avail-
 able for settlement of the Pacific road
 debt without loss to the government.
 Among the subscriptions reported to
 Mr. Sage's Union Pacific scheme were
 the following:
 Mr. Astor's subscription is said to
 have been received by cable. Some of
 the names are said to represent other
 interests besides the subscribers. It is
 said a large insurance company will
 subscribe \$10,000,000.
 Mr. Sage goes to Washington today
 to confer with the president and the
 attorney-general, at their request.

LAUNCH BOILER EXPLODED.
 Accidents to One of the Boats of the
 Texas.

Boston, Oct. 25.—The boiler of one
 of the steam launches of the battleship
 Texas blew up while it was alongside
 the battleship, and a number of men,
 including two officers and a surgeon,
 were injured, none fatally.

The explosion occurred just as the
 launch reached the side of the ship,
 having towed down two ship's boats
 full of men who were engaged in the
 naval parade. On the launch at the
 time were 35 men, including Lieuten-
 ant-Commander Delhanty, Lieutenant
 Bristol, Ensign Wadhams and Dr. W.
 R. Dubose, the ship's surgeon. The
 smokestack, the top of the boiler and
 part of the canopy over the boiler were
 blown into the air, and what was left
 of the launch caught fire from the
 flame that followed the bursting of the
 boiler, but the fire had little to burn.

In the pit with the boiler John Phil-
 lips, an oiler, and John Fisher, a coal
 passer, were thrown violently against
 the wooden partition. Fisher was
 badly injured internally. Phillips es-
 caped with severe bruises. The cox-
 swain, Thomas Sullivan, was thrown
 against the side of the launch, but
 was only bruised, and the sailor with
 him was completely blackened by soot,
 but unharmed. Dr. Dubose had two front
 teeth knocked out.

WEEKLY MARKET LETTER.

(Office of Downing, Hopkins & Co., Chicago
 Board of Trade Brokers, 715-714 Chamber of Com-
 merce Building, Portland, Oregon.)

The past week has been a very quiet
 one in the grain trade, with narrow
 fluctuations. Europe took 6,800,000
 bushels of our wheat, and from other
 countries about 3,000,000 bushels.

A dispatch to the London Times
 from Buenos Ayres says that there have
 been good rains in the south and a
 slight rainfall in the north, so that the
 harvest is now secure. It is estimated
 that 1,000,000 tons of wheat will be
 exported.

Broomhall, a commercial authority
 of Liverpool, cabled that a special
 agent investigated crop conditions in
 Russia and pronounced the spring
 wheat crop in the important southeast
 district to yield not over 50 per cent
 of last year.

The receipts of spring at Minneapo-
 lis by the flouring mills have been very
 large, running as high as 1,100 cars
 in one day. The American visible supply
 increased 1,130,000 bushels, and now
 totals 23,930,000 bushels. A year ago
 today the visible increased 2,411,000
 bushels and totalled 54,858,000
 bushels.

Regarding the fall wheat. Much re-
 lief in the drought regions has been ex-
 perience by quite extended rains,
 which in many places were fairly lib-
 eral, and in others less important. The
 effect has been to revive cheerfulness
 and confidence where the seriousness of
 drought conditions was having a dis-
 couraging influence. These rains have
 not accomplished all that is needful,
 but they will be soon followed by more
 moisture there will be much done to
 overcome the drawbacks which have
 been attending autumn seeding opera-
 tions.

It is yet too early to offer an explicit
 opinion as to the probable relative area
 of autumn sown wheat, but it now
 seems practically conclusive that there
 will be shown considerable gain over
 last year. It is in evidence that Oc-
 tober sowings of wheat if followed with
 ordinary favorable conditions may be
 expected to result well, and in fact the
 wheat sown as late as the middle of
 November has possibilities favoring a
 good yield.

The rains have had the effect to
 weaken the market sentiment to some
 extent, and wheat values have receded.
 Other influences have also had more
 or less bearing in the same direction.
 The large foreign demand which served
 in an important degree to stimulate the
 advancing tendency of values some
 weeks ago has been modified, as might
 have been expected as a natural result
 to follow that abnormal activity.

GONE GLIMMERING.

One ripe summer, fresh and fair, has
 gone glimmering. What with rain and
 breeze and fair sun, the harvest has left us
 grain enough to feed the world, and hard
 times are broken by a kindly hand. But
 autumn changes come, and we cannot be
 too self-content not to guard against what
 autumn brings. It is the changeful tem-
 perature of midday warmth and night and
 morning chill, from the dampness of dews
 or vapors cast adrift on eastern winds.
 With the breath of such comes back to
 very many old time physical troubles of
 pains and aches, rheumatism, neuralgia,
 soreness and stiffness. This is a crop not
 spoken of in a farmer's almanac, but it
 must be cared for, else it will lay waste and
 grow misery. St. Jacobs Oil is a reaper
 and binder; it reaps the field of pain and
 binds up and cures. There is no bodily
 pain it won't relieve, and to the whole
 group of rheumatic pains, it is a certain
 and specific cure. Let not the hostilities
 that have been reaped be marred by misery
 and pain. St. Jacobs Oil is the helper to
 enjoy the better times.

The trap rocks of New Jersey and the
 dolerites of Staten Island are the
 strongest stones in the United States,
 their crushing resistance being
 twenty-four pounds to the cubic inch.

Among the portraits recently acquir-
 ed by the trustees of the National Por-
 trait Gallery, in London, is that of Sir
 Francis Ronalds, (1788-1873), the in-
 ventor of the first working electric tele-
 graph.

The largest fruit farm in the world is
 said to be in Olden, Mo. It consists
 of 2,500 acres, on which are more than
 100,000 peach trees, 60,000 apple trees,
 2,000 pear trees, and 40 acres of black-
 berries.

Chickens are much better if killed
 and dressed the day before using.
 Keep in ice or in a cool place.

Stop! Women,

And consider that in addressing Mrs.
 Pinkham you are confiding your private
 ills to a woman—a woman whose expe-
 rience in treating woman's diseases is
 greater than that of any living phy-
 sician, male or female.

You can talk freely to a woman when
 it is revolting to relate your private
 troubles to a man; besides, a man does
 not understand, simply because he is a
 man.

MRS. PINKHAM'S STANDING
INVITATION.

Women suffering from any form of
 female weakness are invited to promptly
 communicate with Mrs. Pinkham, at
 Lynn, Mass. All letters are re-
 ceived, opened, read, and answered by
 women only. A woman can freely
 talk of her private ills to a woman.
 Thus has been established the eternal
 confidence between Mrs. Pinkham and
 the women of America which has never
 been broken. Out of the vast volume
 of experience which she has to draw
 from, it is more than possible that she
 has gained the very knowledge that
 will help your case. She asks nothing
 in return except your good will, and
 her advice has relieved thousands.
 Surely any woman, rich or poor, is very
 foolish if she does not take advantage
 of this generous offer of assistance.
