Statistics received by the O. R. & N. Co. show that the farmers of Oregon are sowing the largest crop of wheat ever planted in the state. This fall has been a good one for plowing east of the Blue mountains and the high prices obtained for this season's crop have been an incentive to largely increase the acreage.

Two of the four persons who were examined here last week for teachers' certificates were successful—W. R. Neal and F. T. Sweeney, each receiving 2d-grade. Supt. Daggett informs us that the questions this time were unusually hard, which no doubt the various applicants throughout the state have discovered.

R H Robinson turned on his first ray of electric light last Sunday evening, to the delight of all business men and others interested in the welfare of our town. When the Arlington people say we must have a thing you may depend that it will be had—and they patronize it too.

The Oregonian seems to doubt the possibility of an Eastern Oregon boy killing a lynx with rocks and a jack-knife. Those Webfooters don't know what kind of boys we raise up here. Why, some of them can even work when they have to. Probably they will doubt that, also.

Dall Reed received 16 tons of hay from Grand Ronde last week. Most of the hay used here at present comes from that country. Capt Nelson has his small gasoline boat out, overhauling and getting it ready for the winter work, crossing the river when the ice begins to run, as the long ferry boat does not work well in heavy ice.
