County court, which convened on Tuesday of last week, adjourned on Wednesday evening of this week, the judge and commissioners having been busy all this week reviewing and checking up the county business of the last year; or, in other words, expending the books of the county officers. At the regular annual meeting of the Cong. church held at Condon Jan. 8th the following officers were elected: Al Henshaw, trustee, reelected; H. N. Frazer, deacon; H. B. Hendricks, clerk, reelected; Mrs. N. J. Hendricks, treasurer, reelected. The election of a Sunday school Supt. was deferred until a new pastor arrives, which will likely be soon, as Rev. The exact date will be given in our next issue.

Nowhere else in my travels, North or South, says John Muir, the California naturalist, have I seen so many berries as in Alaska. The woods and meadows and open places along the shores are full of them—blackberries of many species, salmonberries, raspberries, blackberries, currants and gooseberries, with fragrant strawberries and sarvice berries on the drier grounds, and cranberries in the bogs, sufficient for every worm, bird and human being in the territory, and thousands of tons to spare. The Indians at certain seasons, roving in merry bands, gather large quantities, beat them into paste, and then press the paste into square cakes and dry them for winter use, to be eaten as a kind of bread with their oily salmon. Berries alone, with the lavish bloom that belongs to them, are enough to show how fine and rich this northern wilderness must be.

LONE ROCK RUMBLINGS. Mr P. L. Ham is on the sick list this week with the "grippe," or something of the sort. Business in our burg is pretty dull since the holidays are over. Our merchants say trade is too thin to justify a market report this week.

The dogs of Arlington evidently have forgotten the raid that the marshal made on them last winter, from the way they keep up a racket every night. Some of these pleasant days they will find themselves in a peak of trouble, or worse, if their owners do not keep them at home nights.

A great many outsiders are taking advantage of the good school here this winter. The teachers have the pupils greatly interested in their studies and there is no kicking by parents, as is usually the case where there is a large school running. There are just five months more of school.

The writer will most assuredly let the Yakima admirer know our hat number, and might add right here that we hope the disease is catching, and that every town and city in the U. S. will respond in a similar manner. We think it best to send in our number as soon as possible, for the longer we wait the larger the hat will have to be, as such commitments are apt to give us the "swelled head." It is our aim to give such news as we think is of interest to the public, and it affords us pleasure to know that our effort in that direction is appreciated. Like the publisher, the life of a reporter is not always strewn with roses, for if he overlooks an item that he never heard of, some fellow is sure to feel like reducing the size of the reporter's head a number or two.

A would-be bad man, J. H. Conrad, a brakeman tourist, who came to town recently and was employed in the kitchen of the Grand hotel, had a row with the Chinese cook Friday night and got fired. He at once filled up on fighting whiskey and started out to lick somebody. He went to the bowling alley and became so noisy that Mr. Aldrich was obliged to throw him out. Later on he returned and found the Chinaman there with whom he had the row and at once made for him with murderous intent. He jerked out an ugly looking pistol, which in some manner "went off" too soon, (or just soon enough) the bullet striking himself in the left leg above the knee and came out below the knee. It knocked all the fight out of him and he was taken to the hotel, where Dr. Ruedy dressed the wound, which will make Conrad a cripple for life.

John Morman, the well-known sheepman of this section, was found dead in his bed at The Dalles last Tuesday at 6 o'clock in a room over a saloon. Morman had been drinking heavily for several days, and was up all of the night before, going to bed Tuesday morning about 5 o'clock. As he did not put in an appearance during the day, one of his friends went to his room and found him lying in bed partially dressed, having been dead, to all appearance, several hours. The verdict of a coroner's jury was that he died of heart failure, produced by the excessive use of intoxicants. Morman possessed some property, having quite a band of sheep. Some years ago he ran a saloon in Arlington and still owned some property here. He had been on a spree in The Dalles since New Year's day, and was on his way to Portland to visit his step-daughter, Miss Sadie Quiner, formerly of this place.

Some wonderful crop stories are being told in Washington just now. Adam Stoneberger, from 160 acres of land, harvested 9600 bushels of wheat, or an average of 60 bushels to the acre. This wheat was the red-chaff variety, spring sown on summer fallow land. It sold for 75 cents per bushel, and paid the grower \$45 per acre for his crop. Throughout the whole Palouse country crops have been exceptionally large, and farmers were never more prosperous. One man last spring offered his entire possessions to his creditors if they would release him, but at their request he put in another season. He has cleared his farm, made numerous improvements, and has \$1600 in the bank out of this year's crops. Yields of 40 to 60 bushels to the acre were common, and many farmers who have been struggling against adversity for years find themselves in comfort.

To School Directors. Editor of Globe: Will you please call attention in your paper to the importance of all School Districts and Incorporated towns making their local tax levy and reporting the same to this office not later than February 1st; and that they can have the aggregate value of the property in their respective School Districts or towns, if they desire it—upon which to base their levy, by making application to this office. Their meeting should be called, levy voted, and report made, not later than Feb. 1st. Very truly, H. N. Frazer, County Clerk.

OLEX EXPLOSIONS.

Mr Haner visited his son over Sunday at Condon.

We made a mistake in date of dance at Olex last week, it will be on 14th inst, instead of 15th. West Bros will furnish the music, and a good time is assured.

Mr Albert Miller wrote quite an interesting article for the Oregonian last week, in regard to taking horses to the Klondike instead of reindeer. Our cayuses are much harder than reindeer, and much cheaper.

John Morman, who died at The Dalles last week, was a good, whole-souled honest man and was his worst enemy to himself. He resided in Gilliam county for the last 18 years. Boys this is a sad ending, and shows what whiskey will do for a man. Better quit it forever.

The Olex Unity Literary Society is booming. Every Thursday evening it meets, and has about thirty members. Mr E. L. Cables rendered some good music at the last meeting, playing the organ and harmonica at same time. Jess O Lewis is billed for an oration and you all must come and hear it; also Dr M. S. Fleming, who will speak and sing in different languages. Zeb Hoskins will appear in the near future.

Isn't This a Corker?

The following open letter was picked up on the road between Condon and Arlington last week and handed us for publication. As the writer thereof lost the letter before having a chance to mail it, he ought to feel thankful to us for publishing the same. Here it is, verbatim, all but the full names: Condon, Jan. 5th.

There is no danger of anybody being troubled with dyspepsia, sour stomach, nightmares or ill temper who uses Fossil Flour. Nothing ruins the health so quickly and surely as bad bread, and nothing creates so much harmony and cheerfulness in a family as good, light bread and biscuits, "the kind your mother baked." The only way to accomplish this is to use Fossil flour—the best and cheapest in the world.
