

WEEKLY MARKET LETTER.

Trade Conditions in the Leading Cities of the World.

Last week was a very important one in the Chicago wheat market. May wheat advanced 6 cents per bushel and January 13 cents. Statistics were all in favor of high prices, but the main feature is the Letter corner. He claims to be able to put May wheat to \$1.25. The exports from both coasts to Europe were very large—5,110,624 bushels, and the visible supply showed a very good decrease. The foreign news situation is as bewildering as it usually is on wheat. Speculators have their eyes on Argentine, not because it contributes so much, but because it sells so furiously the 25,000,000 bushels it has to contribute. The Englishmen at Liverpool learned something during the week to make them nervous about the South American supplies, yet direct Rosario cables reported nothing more serious than a cessation of deliveries because of rains, and the Argentine shipments for the week were 328,000 bushels, a big start so soon after harvesting. The flour people talked dolorously of the demand and of the demoralizing effect of the corn adulteration going on; and then, to make this as puzzling as every other feature, Minneapolis reported 200,000 barrels of flour sold in two days. The winter wheat condition so far is high, and recent heavy snows have minimized the danger for the present. Exports keep large, and new purchases for foreign account small. The movement from first hands is away over any expectation, but the supplies of contract wheat everywhere are in such few hands as to be unavailable and in most markets at startling premiums. January wheat at New York for a few minutes was 12 cents cash at Chicago and 12 cents over the May price at New York. All of which should be new proof that no one can tell very much with any certainty about a subject which involves the supplies and needs of the whole world.

MILLS WILL BE BUILT

To Cut Lumber for Boats Along the Lakes in Alaska.

The last obstacle has been removed in the matter of the establishment of the saw mills of the Canadian Mill Company at the lakes on the lines of routes from Wrangell, Skagway and Dyea, to Dawson and the Klondike. The scheme is one of the most interesting yet launched in connection with the increase of trade to the north, and contemplates saw mills at different points along the chain of lakes that lie in the direct path of all routes leading across the mountains from tidewater to Dawson. The principal business of the saw mills will be to cut lumber for the boats to be used by prospectors and miners going down to the gold fields. When running to full capacity the mills will be able to turn out 80 completed boats daily.

The first use that the saw mills will be put to, however, will be cutting lumber to build two-stern-wheel steamers, which are to ply on the lakes. Each will be 75 feet long, 18 feet beam and will draw 18 inches of water. After the completion of the steamers the mills will be started cutting boat lumber and the daily capacity will be 40,000 feet. The mills will have electric light plants and run during the dark hours of the short days or on a night shift if necessary. The boats will be delivered at the head of Lake Bennett, and the steamers can take long strings of loaded boats and tow them a distance of 72 miles. This will be much to the advantage of those owning the boats, as the peculiar topographical conditions are such that head winds prevail during the greater part of the season when lake navigation is open. Each steamer will have a capacity of 125 passengers. The tow of the small boats will do away with the necessity of sails. Navigation opens on the lakes about April 15, and the mills are expected to cut for the steamers early in March. A general freight business by barges will be conducted on the lakes, the barges as well as the boats to be towed by the steamers.

Sale of Klondike Claims.

One of the biggest deals on record in Klondike mining properties was consummated in Seattle last week. Six claims, located on Bonanza, Sulphur, Dominion, All-Gold creeks and French gulch changed hands. The total amount involved in the transaction was between \$150,000 and \$200,000. No definite terms have been made public, both parties to the deal withholding this information.

The purchasers are E. J. McCune, of Salt Lake, Utah, and Eugene J. Short, of Spokane. They are acting for themselves and for Spokane and New York parties. Mr. McCune is a brother of A. W. McCune, the millionaire Montana and British Columbia mining man, owner of the Payne silver mine, in British Columbia. He is also associated in a number of mining properties with Marcus Daly and W. L. Hoge, well known in mining circles in Butte and Anaconda.

Chris Neebur and Carl Hunt are the sellers. Neebur is an Iowa boy, and Hunt mined for several years in the Kootenay and Oregon before going to Alaska. Neebur was four years in the Yukon country, and Hunt spent three years there. Both were in the Klondike early in the spring of 1897, before the stampede from the states. They secured a number of valuable claims on the principal gold-bearing streams in the camp. After taking out a large quantity of gold from No. 9, above discovery on Bonanza, they sold a half interest in the claim for \$20,000.

Nuggets of Klondike News.

The Alaska Mining Record has the following "nuggets" about Klondikers passing through Juneau:

Frank Swanson, who is now in Juneau, made the first sluice box that was ever used in the Klondike district. This was on Gold Bottom creek. He is a young man with a clear complexion and a clear record, and is not a millionaire yet, but has a fair prospect of becoming one this year. He brought out about \$20,000 in checks.

"Nigger Jim" came out with these last Yukoners, but stayed at Skagway for a few days. He is said to be the whitest man in Dawson and hence his nickname. His real name is James Daugherty or in the aristocratic past D'Aughtre. He was in with Alex McDonald on several recent deals and brings with him in checks about \$160,000.

Sam Stanley, of Juneau, has not done so badly in the interior. He comes out with about \$10,000 in gold, and has an interest in two of the finest claims on the Eldorado.

Fred Stevens sold out the Dawson opera house just before the big fire for, it is said, \$20,000, but he did not bring all this out with him.

George Miller had sold, when he left Dawson, about 500 of his 1,000 head of sheep, and cleared about \$20,000 out of the transaction.

George Apple had the biggest chance in his life to make a fortune when candles went up to \$1 each, and then became unobtainable at any price. He made moulds for the making of tallow candles—and there was plenty of tallow, but he gave his ingenuity to the benefit of the community. Still he need not fear the grocery bill for another 20 years.

It is not true that the correspondent of the Kansas City Star managed to marry "Nigger Jim," so the San Francisco Call will have to take back the charge that she is a young and beautiful woman.

The men who were invited and aided to leave Dawson are the men who said they were fleeing from starvation. None of the men who worked while there have any kick coming. They all return with well-fed expressions and healthy walleets.

BLACK AND BLUE.

Black and blue colors are not subject to fashions this season nor in any season. They hold their own and will not wash out. They are pretty solid colors, and but for the misery of wearing them, might become fashionable. Some men take pride in wearing them as tokens of their profession, as soldiers do their scars. But bruises, black or blue, or both, ought to have immediate attention, for under them may be a nerve hurt or a muscle badly wrenched. A black and blue bruise is a bad thing, not only from its tender soreness but the continued blood is prevention of regular circulation. While sore spots like these will not wash out, there is something that will rub them out in no time, and that is St. Jacob's Oil. It is peculiarly adapted to their quick cure. A pennant can be won only by hard knocks, with scars and bruises. But after the ball is over, if any remain, this one cure is the best. Bruises come from confusion in all avocations, and it is well to remember at all times just what will cure them the best.

NEW CRAZY SECT IN CONNECTICUT.

A lot of fanatics in the state recently imported an old rheumatic woman bodily into the water to "baptize" her. She nearly died in consequence. How much better it would have been to have treated the poor old woman for her infirmity with Hostetter's Stomach Bitters, which not only cures rheumatism, but prevents kidney complaint and remedies dyspepsia, constipation, liver trouble and nervous prostration. Give it a systematic trial.

GIRLS IN STORES,

offices, or factories, are peculiarly liable to female diseases, especially those who are constantly on their feet. Often they are unable to perform their duties, their suffering is so intense.

When the first symptoms present themselves, such as backache, pains in groins, headache, dizziness, faintness, swollen feet, blues, etc., they should at once write Mrs. Pinkham at Lynn, Mass., stating symptoms. She will tell them exactly what to do.

GRACE B. STANBURY, Pratt, Kansas, says:—"I suffered from intense pains in the womb and ovaries, and the backache was dreadful. I had leucorrhoea in its worst form. Thus I dragged along. At last I wrote to Mrs. Pinkham for advice. Her answer came promptly. I read carefully her letter, and concluded to try Lydia E. Pinkham's Vegetable Compound. After taking two bottles I felt much better; but after using six bottles I was cured."

AN OPEN LETTER TO MOTHERS.

We are asserting in the courts our right to the exclusive use of the word "CASTORIA" and "PITCHER'S CASTORIA," as our Trade Mark. I, Dr. Samuel Pitcher, of Hyanis, Massachusetts, was the originator of "PITCHER'S CASTORIA," the same that has borne and does now bear the fac-simile signature of CHAS. H. PLETCHER on every wrapper. This is the original "PITCHER'S CASTORIA" which has been used in the homes of the mothers of America for over thirty years. Look carefully at the wrapper and see that it is the kind you have always bought, and has the signature of CHAS. H. PLETCHER on the wrapper. No one has authority from me to use my name except The Centaur Company of which Chas. H. Pitcher is President.
