Doc Brown swears that Missouri dogs are no good. Just because he run over one of his new hounds with a wagonload of hay, the other day, the pesky critter didn't do a thing but give up the ghost right there and then. Some of our dog experts think, however, that perhaps the hound's constitution had been undermined by homesickness and the sudden change from a corn pone to a wheat-bread diet. Too much should not be expected even from a Missouri hound.

Prof. V. F. Cooper, blind phenologist, is in town last week, returning in Stelwer's hall evenings and examining the craniums of the world's great people, and, from the description he gave of their craniums, one would think they all had Henry Clay heads, and possibly they have, omitting the Henry.
