

THE GONDOM GLOBE.

THURSDAY, AUGUST 25, 1898.

THE OFFICIAL PAPER OF GILLIAM COUNTY, OREGON.

THE SCHOOL TEACHER.

Education is the bulwark of civilization. Toth, more than to any other cause, is due the rapid strides which our nation, and the world, has taken during the past half century in the direction of improved conditions for the human race.

The public school is the foundation of the entire educational structure of America, and on the shoulders of the public school teachers rests a responsibility greater than that borne by president or prelate, senator or soldier.

While the work of the teacher in our public schools requires worlds of patience, good judgment and tact, it also requires a special training, and a continual delving after new knowledge, together with the best methods of imparting that knowledge to others.

All honor to the American school teacher, and especially to those of Gilliam county who have been gathered in Condon for the past week, intent on gathering new information to be imparted to the "young ideas" that they are "teaching how to shoot."

Mr. Christian, the Silver Lake merchant who undertook to corner the freighting business between his town and The Dalles by the use of a big traction engine and a train of heavy wagons, has met with failure.

With a plentiful supply of pure water for fire protection, domestic use, street sprinkling and irrigation of lawns and shade trees, Condon can be made one of the prettiest towns in Oregon.

Admiral Dewey has been doubly honored. To him has been accorded the privilege of delivering both the salutatory and the valedictory in the late entertainment which Uncle Sam has put on the boards for the benefit of the Dons.

Condon is getting out of a rut. Let's all help the march of progress with a big strong pull altogether.

It's a good thing; push it along.—The water works.
