Ark-Like Weather.

"Talking about rainy weather," said the Westerner, "I remember once out in Indianapolis meeting a farmer who took the most cheerful view of dampness of anybody I ever saw. I asked him if he had had much rain down on the Wabash that spring. 'Well, it has been a little damp,' he answered. 'The day before I left home I had to hang up 24 of my ducks. They had got so water-soaked that they couldn't swim any longer. I planted my corn in two feet of water, and I don't expect over 80 bushels to the acre. Why, wheat is looking pretty well but the sturgeon and catfish have damaged it considerably.'"

"There was about 15 minutes of sunshine one day, and I thought I would plant my potatoes, so I loaded them on a scow and anchored the scow in three feet of water, when it began to rain again. I wanted to go down on the bottom lands next the Wabash to see if the grass was growing for my hay crop, but my wife said that as we didn't have any diving-bell she'd rather I wouldn't."

"I should feel kind of discouraged with all the rain, but I've spent my odd hours of leisure time—and the even ones, too, on account of staying in out of the wet—building up an ark. If it will only rain another week or two until I get her all ready to sail, I'm going to take my family out to Missouri by water for a trip to visit our folks that moved off out there because they didn't know enough to stay in a place where they were comfortable."—St. Louis Globe-Democrat.

TUMOR EXPELLED.

Unqualified Success of Lydia E. Pinkham's Vegetable Compound.

Mrs. ELIZABETH WHEELER, Magnolia, Iowa, in the following letter describes her recovery from a very critical condition:

"DEAR MRS. PINKHAM:—I have been taking your Vegetable Compound, and am now ready to sound its praises. It has done wonders for me in relieving me of a tumor. 'My health has been poor for three years. Change of life was working upon me. I was very much bloated and was a burden to myself. Was troubled with another tumor, also palpitation of the heart and that bearing-down feeling, and could not be on my feet much. 'I was growing worse all the time, until I took your medicine. 'After taking three boxes of Lydia E. Pinkham's Vegetable Compound Loggins, the tumor passed from me. 'My health has been better ever since, can now walk quite a distance and am troubled no more with palpitation of the heart or bloating. I recommend your medicine to all sufferers from female troubles. 'It is hardly reasonable to suppose that any one can doubt the efficiency of Mrs. Pinkham's methods and medicine in the face of the tremendous volume of testimony.

The Grand Ronde Lumber Company, of La Grande, has just closed large contracts with different southern California fruit associations for very large quantities of orange and other fruit boxes.

The receiver of the Bank of Everett, which failed early in the panic, has made his final report to the court, and an order has been made directing the remaining assets to be sold at auction.

The Pacific sheet metal works at New Whatcom started up again last week with half a crew, after having been shut down for about a month. This means the employment of about 50 or 60 persons, and is welcome news to a large number of people.

The discovery has been made that some miscreant has defaced the two 54-ton guns that are waiting to be placed in position at Marrowstone point, in Puget sound, by cutting names on the steel barrels with soap and acid. Suspicion rests on discharged workmen.

The Imperial Paste Company has been organized at Great Falls, Mont., for the purpose of manufacturing macaroni to supply the trade of that and adjoining states. The output of the factory is 500 pounds daily. They have orders ahead for three months' production.

The receiver of the defunct Spokane Savings bank has been authorized by the court to pay a dividend of 7 per cent on the outstanding claims against the institution. This will make a total of 52 per cent paid by the bank. The total indebtedness of the bank amounts to \$100,409.54.

The Golden Giant dredger, now being rapidly pushed to completion at Lannon's pier, below the mouth of Burnt river, will be ready to operate on December 1. Its capacity is 2,000 cubic yards per day, and it is to be operated on 160 acres which are reported good for 50 cents per cubic yard.

The Republic Mining Company of Eastern Washington has just declared another dividend amounting to \$30,000, which is at the rate of 8 cents per share. This is the second monthly dividend paid by the company of like amount, and there is every assurance that the dividends will continue at this rate every month, although the mill is not running at its full capacity.

Never before was grass so scarce on the Gilliam county range as now. Even in pastures where the old bunchgrass is abundant, the grass is so devoid of nutriment from long-continued drought that stock are losing flesh on it. Several sheepmen have commenced feeding hay already, and wise sheepmen and cattlemen are reducing their flocks just now, while the price is good.

The contract to cut 5,000,000 feet of lumber and 175,000 ties has been secured by McPherson Bros. & Stout, of Brooklyn, B. C. This contract is with the Columbia & Western railway, which will use the lumber on its Robinson-Pentecost branch. This firm contemplates removing their mill to Gladstone, where a fine body of timber exists.

John Holmes, of Wellington, New Zealand, was recently in Vancouver, B. C., as a commissioner from the government of the island on a mission to find new fields for the hemp trade of New Zealand, which last year produced 22,000 tons. Mr. Holmes says this country offers a fine opening for trade in shirts, shoes, cottons, household furniture, canned salmon and agricultural implements.

Five mourning tribes assembled at the Puyallup reservation Sunday to pay the last honors to the royal infant, Red Leech, who died last week, and who was the 8-months-old son of George Leech, chief of the Puyallup tribe, and his death is mourned as the removal of a possible leader of the people, there being but one living heir now left. Leech's uncle was the leader of the war against the whites in the early days, for which he lost his life.

In compliance with the request of the Philadelphia board of trade, which was addressed to the several chambers of commerce in Pacific coast cities, the Los Angeles chamber of commerce last week passed resolutions urging congress to take prompt action to restore to the United States the ocean-carrying trade in vessels sailing under the American flag, and also urging the press of the coast to lend its powerful aid to the success of this great national undertaking, and to co-operate with local commercial organizations.

Reliable authorities place the value of the Washington fruit crop at about \$4,000,000. The prune crop was gathered and evaporated in good condition, and about 75 per cent will grade 40s to 50s, which is considered excellent for size. The apple crop west of the Cascades has colored up well, and is almost entirely free from scab and other blemishes. Where the culture was thorough in the eastern part of the state, the per cent of apples affected by the codlin moth is small. Eastern fruit merchants are applying to the Pacific Northwest apple-growers for fruit this season.

The Pennsylvania tube works of Pittsburgh, Pa., have an order from the Standard Oil Company for 40 miles of eight-inch pipe.

Experiments made in Paris show that an electric wagon costs 47 per cent less to run than a horse wagon and 22 per cent less to run than a petroleum motor.

Coventry is the center of the British cycle industry. Compared with this time last year the firms there are said to be employing about 4,000 fewer persons, while thousands of employees are now working only 30 hours weekly.

The Northern Pacific railway shops at South Tacoma have practically suspended the building of the 300 flat-cars. Two hundred of the cars were finished, and then it became impossible to get enough material to complete the others.

Houston is the only interior cotton market in the world that ever received 35,000 bales of cotton in one day. Sixty per cent of the Texas crop will pass through Houston this season and the total gross receipts at this point are expected to exceed 2,000,000 bales.

American manufacturers wishing to send goods into Turkey in Asia are warned by the consuls that their consular letters must be written in Turkish or French, preferably Turkish. To write or print them in English is simply a waste of time and money.

It is estimated that the combined tomato pack of Salem and Cumberland counties, New Jersey, this year will not be less than 13,000,000 cans. The average output of canned tomatoes in the United States from 1893 to 1897 was about 5,250,000 cases, or 126,000,000 cans.

The largest tin plate establishment in the world is to be moved from Wales to the United States. Formerly this country imported annually from tin plate, \$20,000,000 to \$30,000,000 worth of tin plate. As the result of a modern protective duty the importation last year was less than \$4,500,000.

NO FORMAL PROTEST MADE.

Our Relations With Nicaragua Concerning the Canal.

Washington, Nov. 5.—It is said at the state department that our government has not protested against the action of the Nicaragua government in granting a concession for the building of the Nicaragua canal to Eyre & Cragin, after the expiration of the Maritime company's concession next October. What the department has done is not of recent date, and consists solely of making of representations to the Nicaragua authorities to the effect that the United States deemed it only fair and proper that the status quo should be maintained in matters relating to the Nicaragua canal until the board, headed by Admiral Walker, has had a chance to report and congress an opportunity to consider that report. This is diplomatically something very different from a protest. The reason that this action is taken is that the making of a new concession by the Nicaragua government, even though it will take effect only upon the expiration of the present concession to the Maritime Canal Company, might operate to prevent the latter from obtaining an extension of its concession, to which it might be justly entitled.

In the event that congress should legislate upon the basis of the construction of the work under the auspices of the Maritime company, this, of course, would seriously jeopardize the interests of the United States.

GALLERY COLLAPSED.

Serious Accident in the Eugene Opera House—People Panicked—Struck.

Eugene, Or., Nov. 5.—Tonight at about 10 o'clock, during a performance at the opera-house, while the building was packed, a section of one of the upper floors, on which there were about 30 people, fell, without warning. The lower floor was also crowded. The section of floor that fell was about 12 feet long and 8 feet wide. It was built out from the wall. The wall supports gave way, and the floor swung back, precipitating the people to the floor below. Those underneath were caught under the timbers, but miraculously few of them were injured. One man had his collar bone broken, and a boy about 15 years of age was severely injured in the back. A dozen or more received minor injuries. A regular panic followed the collapse, but the house was emptied without further accidents, though another floor creaked and came near going down during the rush.

BUFFALO READY FOR HER TRIP.

Will Go to Manila Via the Suez Canal Route.

New York, Nov. 5.—Everything is now in readiness for the departure of the cruiser Buffalo for Manila. The coaling of the ship was completed last night. The Buffalo is to go by way of the Mediterranean and the Suez canal. There will be several hundred men for Admiral Dewey's fleet on the Buffalo when she sails. They are intended to fill the vacancies due to illness and other causes, on the vessels in the Asiatic station.

A large amount of stores will also be sent on the Buffalo. She is expected to make the trip in about 60 days, traveling at a speed of 10 knots an hour. An effort will be made to get her into Manila harbor by Christmas.

Twenty-four officers sail on the Buffalo. Commander J. N. Hemphill is in command; Lieutenant W. B. Diehl is executive officer, and Lieutenant George W. Logan, navigator.

To Stop Growth of Crime.

Spokane, Nov. 5.—A special meeting of the mayor, commissioners and chief of police was held today, to take action regarding the growth of crime. The city has become infested with burglars and highwaymen and hold-ups and robberies have become of nightly occurrence. As a result of the meeting the mayor issued a proclamation offering a reward of \$500 for the arrest and conviction of any of the men who have been engaged in the recent hold-ups. It was also decided to swear in as special policemen any reputable citizens who may desire to carry arms for their own protection.

To Prevent Privateering.

Washington, Nov. 5.—A memorial prepared by Charles Henry Butler and others has been presented to the president, asking that this government call an international convention to consider the question of making private property free from capture on the high seas in time of war. The memorial pays a tribute to the administration on a humane and speedily successful prosecution of the recent war, and points out that this government is in the best position of any power at present to take the initiative in such a humane movement, without laying itself open to the imputation of selfishness.

News From Ketchikan.

San Francisco, Nov. 5.—A letter from Frank Nunan, a prospector, dated September 18, was received in this city from Ketchikan sound today. He states that the sternwheel steamer John Riley was around six miles above Squirrel river, and it was said that her back was broken. The steamer Arctic went to the Riley's assistance with provisions for her crew. On the Nootka, Slawack and Kubak rivers only the color of four gold was discovered. Prospects on the Buckland river are fair.

Chicago, Nov. 5.—The British government has closed a contract here for the immediate delivery of 125,000 gallons of distilled spirits at Montreal.

An intimation was also given that about 40,000 more gallons would in all likelihood be ordered within about 10 days. This order of 125,000 gallons amounts to nearly 30,000 barrels, and will require over 600 cars for its transportation into Canada. The use of the distilled spirits thus ordered will be in the manufacture of smokeless powder.

Washington, Nov. 5.—In regard to Spain's protest against sending the battle-ship Oregon and Iowa to Manila, Secretary of State Hay has notified M. Thiebaud, the French chargé d'affaires, who is representing Spain in the absence of M. Cambon, that the destination of these ships is Honolulu, and as that is now an American port this government has the right to send the ships there.

The Oregon and Iowa are now in Brazilian waters, and while officially it is stated they are bound for Honolulu, it is unofficially admitted that they are en route to Manila.

A Vigorous Battle.

From the New Era, Greensburg, Ind.

The following is a straightforward statement of facts by a veteran of the late war. No comrade will need further proof than their friend's own words, as here given.

Squire John Castor, of Newport, Ind., is the narrator, and an honest, respected citizen he is, too. He said: "I have been troubled with rheumatism in all my joints, ever since I went to the war. It was brought on by my exposure there. It came on me gradually, and kept getting worse until I was unable to do any work. I tried several physicians, but they did me no good. They said my trouble was rheumatism resulting in disease of the heart, and that there was no cure for it. Nevertheless I had lived and fought the disease for thirty years, and did not intend to die, simply because they said I must, so I hunted up some remedies, as here given."

I Want to Swear to That.

advice for myself, and finally happened on Dr. Williams' Pink Pills for Pale People. I asked some of my neighbors about the medicine, for it had been used by several persons in the community, and they recommended it very highly. I procured a box. The pills helped me right away, and I continued taking them. I commenced taking them last fall, and finished taking the sixth box a few months ago. I am not bothered with the rheumatism now—the medicine has cured me. I can most certainly recommend Dr. Williams' Pink Pills for Pale People."

These pills are not only good for rheumatism, but are valuable for any disease that arises from impoverished, or bad blood. They do not act on the bowels.

IN THE ANIMAL WORLD.

The organs of smell in a vulture and a carrion crow are so keen that they can scent their food for a distance of 40 miles.

The wings of birds are not only to aid locomotion in the air, but also on the ground and water. One bird even has claws in the "elbows" of its wings to aid in climbing.

The elephant does not smell with his trunk. His olfactory nerves are contained in a single nostril, which is in the roof of the mouth, near the front.

Humming birds are domesticated by placing in their cages a number of paper flowers of tubular form, containing a small quantity of sugar and water, which must be frequently renewed. Of this liquid the birds partake and quickly become apparently contented with their captivity.

A fossil bog oak, weighing 40 tons, which geologists assert to be 10,000 years old, has been dug up at Stockport, England, in excavating to lay a sewer. The corporation of the town wants to blow it up with dynamite, in spite of protests from scientific men throughout England.

No household is complete without a bottle of the famous Jesse Moore Whiskey. It is a pure and wholesome stimulant recommended by all physicians. Don't neglect this necessity.

Mrs. Thackara, General Sherman's daughter, who resides in Havre, France, her husband having been made the American consul at that port, writes that she has been elected a member of the board of managers of the Havre Society for the Protection of Animals. It consists of 20 pensions of 600 francs a year to aged Hebrews of either sex above 60 years of age, who have resided at least 10 years in Paris, and whose age or ill health prevents their making a living.

The demand for sardines has run so far short of the supply that the French factories are closing their doors, and the government has been asked to come to the relief of this important national industry by making a ration of 5 or 10 sardines daily part of the regular fare of the French soldier.

FREE HELP FOR MEN.

"CALTHOS"—Prof. Laborde's French Cure for Lost Manhood

5 Days Trial Treatment Sent Absolutely Free

by Sealed Mail to all Sufferers

No C.O.D. or Deposit Scheme

The only preparation known to science which really cures Lost Manhood is "CALTHOS," the marvelous French remedy discovered by Prof. Laborde. It is sold in this country by the Von Mohl Co., of Cincinnati, Ohio, a concern which occupies a high and honorable place in the world of medicine. It is one of the most responsible houses in Cincinnati, as any one who is acquainted in that city will testify.

The Von Mohl Co. invites all men suffering from Lost Manhood, Spermatorrhea, Varicocele or Weakness of any nature in the Sexual or Genital Organs, to send their names and addresses to the Von Mohl Co., Cincinnati, Ohio, and receive a five day treatment. This will prove the wonderful vitality of "CALTHOS." After using it five days the sufferers will find new vigor in their organs, new force in their muscles, new blood in their veins, new animation and rapid progress toward the longed-for feelings and sensations of younger days.

This liberal free offer is genuine. There is no catching C. O. D. or deposit scheme connected with it. The five day treatment is sent by sealed mail to all on request, wrapped in a plain package, and printed instructions accompany the medicine, so that each patient becomes his own doctor and cures himself at home.

It doesn't make any difference what caused the weakness—whether bad habits in youth, or excess, or overwork, or business troubles. "CALTHOS" will effect a cure, no matter what big name the disease may be called by.

The Von Mohl Co. treats all correspondence in perfect confidence. Under no conditions will it make public the names of the thousands who have written testimonials telling of their restoration to robust manhood after other medicines proved worthless. "CALTHOS" is regularly used in the French and German armies, and the soldiers in those countries have come to be perfect models of strength and vitality. Cures are effected in all cases from 20 to 80 years. There is no case (except where the stage of epilepsy or insanity has been reached) which it will not radically, quickly and permanently cure. Sexual weakness does not cure itself. It grows worse from week to week. Each day weakens the mental and physical strength. Send today for the five day treatment. If it helps you, more of the medicine can be purchased. If it does not help, no harm is done and no money paid. You can send your name with the free trial package, and have the medicine sent to you. Address applications for trial treatment, etc., to the VON MOHL CO., 1
