men before the pay-car passed the

TROUBLE IS IMMINENT

"President" Lopez Replies to
President McKinley.

AMERICANS CLOSELY ON GUARD

Lopez Says the Revolutionary Govern-
ment Antedates the Paris Treaty
by Two Years.Manila, Jan. 24.—President Lopez
of the Visayan federation, has replied
to President McKinley's proclamation
of the 9th. He claims that the revolu-
tionary government antedates the Paris
treaty by over two years. He says he
has never been officially notified of the
existence of the treaty, and that there-
fore he declines to recognize American
authority, and refuses to allow Ameri-
cans to disembark in force, without ex-
press orders from the government at
Malolos. General Miller, the com-
mander of the American expedition,
replied that the Americans cannot rec-
ognize President Lopez's authority, be-
cause the Filipino republic is not rec-
ognized by the powers. He also ex-
pressed regret at the determination of
the Filipinos to resist just claims.

Miller's Troops Landed.

New York, Jan. 24.—A special to
the World from Washington says:
General Miller's expedition has landed
on Guimaras island, three miles from
Ilo Ilo, without opposition. General
Otis cables from Manila. Landing was
necessary because of the crowded con-
dition of the troops on the transports.Experience has proved that soldiers
lose spirits and fighting qualities when
confined long on board ship, so the war
department asked General Otis to as-
certain if it was possible for General
Miller to land his expedition near Ilo
Ilo. He cabled that it was, and was
then instructed to order a landing.It was deemed inadvisable to advise
this expedition to return to Manila
without having landed, because it was
feared the natives of Luzon would think
the Filipinos at Ilo Ilo repulsed the
Americans.

sail. James A. McEnery, special treas-
ury agent of the district of Texas, and
Bedford Sharp, of San Antonio, assist-

diamonds and rubies. Inside "Pascual
Cervera" is engraved. The watch was
secured by Betts, according to his
story, from a Spanish pilot—the man
who guided Cervera's ship out of San-

vera gave him this watch. Being in
straitened circumstances and wanting
to go home, he sold it to Betts for \$53.

fuse connected with a package contain-
ing six sticks of dynamite.

to build and perpetually own and
control said canal, the president is
authorized to negotiate for a control of

perpetually control some other canal
connecting the Atlantic and Pacific
oceans, and the president is required to
negotiate for the abrogation or modifi-
cation of any and all treaty obligations,
if such exist, as shall in any way in-
terfere with the construction, owner-
ship and perpetual control of any such
canal; provided that no payments

granted to said company."

them with but \$4,000 cash on hand.Commissioner Ogilvie called a meet-

relieving the situation, and a memorial

ment gold bills shall be substituted

Washington, Jan. 24.—The secretary
of the interior has affirmed the decision
of the commissioner-general of the land
office in the famous case of Archbishop
Ireland, involving title to 33,178 acres
of land in Minnesota. He holds that
under the first contract made with the
St. Paul, Minnesota & Manitoba Rail-
road Company, July 17, 1890, Ireland
was not the purchaser, but that under
the second contract, adopted March 30,
1893, he was the purchaser. Accord-

THAT BEEF WAS BAD

Testimony of Major Daly,
the Chief Surgeon.

MEAT PRESERVED BY CHEMICALS

General Miles Charges Strengthened
Before the War Investigation
Committee.Washington, Jan. 23.—Major W. H.
Daly, chief surgeon with General
Miles, and whose field service stretched
from Tampa to Porto Rico, whose re-
port condemning beef furnished the
expeditionary forces created a sensation
some weeks ago, made his long-
awaited appearance as a witness before
the war investigation committee today.Daly's report was the strongest in
language of those submitted by Miles
in substantiation of his attack on the
beef supplies. On being sworn the
witness identified the report submitted
as his own. He was willing, he said,
to stand by his report. It was wholly
voluntary, and was not called out by
any request or in obedience to any cir-
cular or letter. At Tampa he had no-
ticed a quarter of beef hanging free in
the sun on shipboard, and he became
interested in the experiment of having
fresh slaughtered beef placed under
such moist climatic conditions to see
how long it could stand it."I observed," he said, "that flies,
especially bull flies, did not affect it;
did not alight on it, or if they did they
got away from it very quickly."He had cut off a piece of that beef at
Tampa and cooked it, but it neither
smelled or tasted naturally. He no-
ticed indications of chemical preserva-
tion in the meat that brought back recol-
lections of chemical stuff he had used to
preserve elk in hunting expeditions in
the Rocky mountains some years be-
fore. All that day and next he had
an unpleasant taste.In that previous hunting expedition
he had analyzed the chemical preserva-
tive and found it to contain borax and
salicylic acids. These were to be used
externally on elk, but he had rubbed it
into the raw flesh and also injected it.
Questioned as to these ingredients
he said borax was not safe to be used
in connection with food, nor for ordi-
nary medicinal purposes, while salicylic
acid was most nauseous, loath-
some and disgusting, and almost al-
ways destructive of digestion.
