Bert Wells has been down with the gripple for the past several days.

Boas—Friday, Jan. 20, 1899, to the wife of C. T. Pinkham, a daughter.

Mr. and Mrs. S. A. Pattison returned Tuesday from a visit to Portland.

Winnie Keizer is sick at Dunn Bros., sheep camp with symptoms of typhoid fever.

Mr. and Mrs. John Maddock and their daughter Louella are sick with la gripple this week.

Quite a number of scholars are absent from school at present on account of sickness.

Miss Lulu Keizer, who is teaching school at W. N. Brown's place, visited Condon Sunday.

Mrs. Alex Duthie visited Mrs. John Dyarst, and other friends in town, on Saturday and Sunday.

John Jackson was confined to his bed with a severe cold the fore part of the week but is now better.

Jim Klier's barn and about seven tons of hay therein were consumed by fire early Saturday morning.

W. L. Ladagen has been laid up with an attack of the gripple this week. He is stopping at Binetti's hotel.

C. W. White and Jean Lebons left Saturday morning for Portland on a combined business and pleasure trip.

The Fossil people are now debating the question as to where they're at—in Wheeler county or in Gilliam county.

The nickel-in-the-slot machine man returned last week from Mitchell, and is again doing business at the Arlington Saloon.

Mrs. Armstrong, of Portland, arrived here last week and went on to Lost Valley to visit a while with relatives and friends.

Miss Sadie Parman left last Thursday for Walla Walla to attend her sister, Mrs. G. W. Mayer, who is very ill with pneumonia.

Wm. DeWitt, of Pendleton, traveling correspondent for the East Oregonian, was in town this week. He went from here to Fossil.

Louis Barker returned Sunday from an extended visit to his old home in Maine. He reports having had a most enjoyable time.

Miss Maude McConnell and Miss Minnie Frickey have returned from Corvallis, where they have been attending school this winter.

France leads in the use of horseless carriages, but this country makes them. A French order for 1500 has just been placed in this country.

W. W. Steiner and W. W. Hoover, of Fossil, stopped in town last Thursday night while on their way to Salem to see about the "Coyote Bill."

The doctors of the East are discussing the question whether the grip is contagious or epidemic. But this does not interest the man who has it.

Lloyd Parman had the misfortune to sprain his ankle pretty badly last week while indulging in reckless jumping with some other boys at school.

Jean Lebons being absent, and his bar tender, Charley Wilson, being sick, Barr Bros. have been managing the affairs at the Arlington Saloon the past week.

Geo. Hardie, of Trail Fork, spent a few days in town last week. He reports sheep in his section doing first-rate, and that green grass is plentiful now that the snow has all disappeared.

A force of 800 blue jackets has been sent to Manila to take charge of the three vessels added to the American navy by the wonderful skill of Admiral Dewey as a marksman and angler.

Some of the traveling men coming through from Fossil inform us that our friend Jim Stewart, of the Journal, contemplates changing the name of his paper to the "Wheeler County Record."

Chas. Royle, of Gooseberry, was in town Saturday and attended the Masonic lodge in the evening. He informed us that his cattle are wintering very well, and that stock of all kinds in his section are in pretty fair condition.

A. H. Holcomb, who has been buying horses in this section, stopped in town Monday night. He purchased about 15 head of horses in this vicinity, and has quite a number at Olex, all of which he will take to the Sound country.

"Don't you think, Harry," said the Sunday school teacher, "you could induce one or two boys to come to Sunday school?" "I could bring one," he replied. "De udder fellers in our alley kin lick me."—Life.

E. W. Moore purchased a ten-pound sack of salt at Dunn Bros., store the other day to balance with his boy. We are afraid Edgar will have to put a few weights in the youngster's stockings in order to make him tip the beam.

August Anderson was in from his Ferry Canyon ranch Saturday. He informed us that he would commence laying piping for the city water works as soon as the material arrived, which will probably not be more than a couple of weeks.

The Map Corrected.

We are glad to see that the Oregonian has corrected the map it printed on the 23d inst. of the proposed county of Wheeler, which it does in the issue received last evening. The paper states that the boundaries of the first map were taken from a petition which had been circulated in portions of Grant and Crook but adds that when Mr. Donnelly's bill was introduced very different lines were named. Both the old map and a corrected one, showing the lines as set forth in Donnelly's bill, are published, and the latter shows clearly just how much the proposed measure would affect this county. The paper adds that this complication may defeat the whole project.

The Gripple and Sulphur.

In my daily papers of December 22d I find that there are supposed to be something like 100,000 cases of gripple in New York City, and that it is also prevailing largely in Washington, Philadelphia and other cities, and is now threatening Boston. It is a fact that when it was prevailing as an epidemic largely in our city a few years ago, I ascertained, by inquiry of my officers at "Byam's Match Factory," that of the forty-three persons employed there not one had been troubled by it.

I have at various times told the press how many at Memphis, Tennessee, (including the agents of "The Howard Benevolent Association") escaped the terrible epidemic of yellow fever there (as they claimed) by wearing powdered sulphur in their shoes,—also the evidence of a distinguished German medical writer translated into English, that wearing sulphur in this way has proved a complete protection against cholera and other epidemic diseases,—also that those working in the sulphur mines of Italy escape the malaria which prevails all about them,—also that sulphur in the shoes has cured various cases of rheumatism,—also that sulphur taken internally or worn in the shoes has sufficient power to pass through the body, the clothing and the pocket-book, blackening the silver there.

I find in the London Lancet that no less authority than the president of the Institute of Civil Engineers of London declares that the sulphurous vapor produced by the combustion of coal in that city kills the disease germs in the atmosphere.

It seems to me a duty, at this time, to again suggest as widely as possible through my own paper and others that sulphur is very cheap, and whether it destroys or keeps out germs of disease from the body, or only acts upon the imagination it cannot do much harm to try it.

In the Scott County (Mississippi) Register of June 15th last will be found an account of how the agents of "The Howard Benevolent Association," at Memphis, escaped yellow fever by wearing sulphur in their shoes.

Half a teaspoonful of powdered sulphur in each shoe or stocking is considered to be sufficient.

As our readers know, we did our best last spring to put these facts [for the protection of our soldiers] before our army and navy officials at Washington. We do not know whether anything was done about the matter by our medical officers there, but we have received letters from army officers and men, that with sulphur in the shoes they had no fevers and also found the sulphur a complete protection against fleas. On this same December 22nd we receive a letter from Captain Julius A. Palmer, of this city, the following:

"By the way, in view of your frequent recommendations of common sulphur, it came to my notice recently that on California ranches where walnuts are prepared for the market the shells are bleached by the use of brimstone fumes, and that the men having charge of that work are never touched by the gripple, influenza or other epidemics which attack their fellow-laborers on the same estates."

Geo. T. ANGELL, Pres. of American Band of Mercy, Boston, Mass.

ARLINGTON.

Most of the farmers have started their plows to work, the ground being in fine shape to work just now.

The weather has been fine for a week or more and the grass has started to grow, and if the weather remains warm a few weeks, range stock will do fine.

Several of our people went out to Olex last Saturday to help organize an assembly of United Artisans at that place.

Our people are having a time just now trying to settle the water question. Some want to sell the city's stock in the plant, while others want the city to buy the remaining stock and the city to own the water plant.

INTEREST TO STOCKMEN

A bill will be introduced at this session of the legislature providing that county courts of the several counties of this state shall levy a tax of one-fourth mill on all personal and real property that may be returned on the assessment rolls of their respective counties to be used and placed in a fund in possession of the state treasurer, to be used in conjunction and in connection with the aforesaid tax on sheep, cattle and hogs as a scalp bounty for the state of Oregon. If this bill becomes a law it shall be the duty of the county court, upon the receipt of any scalp or scalps, accompanied by an affidavit as hereinafter mentioned, to pay the following bounty for the same: Three dollars apiece for each coyote, lynx or wildcat scalp; \$6 for each and every mountain lion or cougar scalp; \$6 for each and every gray or timber wolf scalp, and in payment of the same the county court shall draw a warrant on the state treasurer for the amount, and the same to be attested by the clerk of the county wherein such bounty is claimed.

A BOY'S APPEAL

The following is a copy of an Idaho school boy's complaint to a board of directors: "My sister, who is a school teacher, whips me every day. Ma and pa told her to whip me oftener than she did any other pupils so they would think she was not partial. I write to let you know this was too thin. She is an old maid and gets mad because she can't get married, and whenever she gets to feeling that way she larrups me. I hate to say such things about my sister, but it's so, and I write to inquire if you cannot stop her licking me or get her a husband. Any old thing will do so it's a man."

The custom of the times makes it necessary for men who wish to succeed in business to advertise, truthfully remarks an exchange. People who have become so used to advertising that they must read a great deal about anything before they consider it worth their attention. An article can not be mentioned once and get a buyer. It must be placed often before the public before it finds a market. The quality of the thing advertised is often judged by the amount of advertising given it. A theatre or an opera is well attended only when it is well advertised. Sometimes the advertisements are false and the public are humbugged, but it is 100 per cent safer to trust heavy advertising than very little or none at all. The merchant who constantly advertises in an energetic way with faith in his advertising is the merchant who succeeds. The man who advertises heavily may not succeed, but the man who advertises none at all, in nine cases out ten, fails or does a very poor business.

A Lodge of Maccochees was organized at Mayville Monday evening, with 25 members.
