A Natural Error.
Mr. Gotham (angrily)—What do you mean, sir, by saying in your paper that while at Albany I spent my time among the saloons?

Editor—My dear sir, that was a printer's mistake. What I wrote was that you spent your time among the saloons, meaning, of course, the members of the state legislature.

Mr. Gotham—Huh! That was a strange mistake for a printer to make.
Editor—Well, you see, sir, the printer used to live in Albany, and—
I suppose it comes sort of natural to him to get such words as saloons and saloons mixed up.—N. Y. Weekly.

NO WOMAN IS EXEMPT.

Regularity is a matter of importance in every woman's life. Much pain is, however, endured in the belief that it is necessary and not alarming, when in truth it is all wrong and indicates derangement that may cause serious trouble.

Excessive monthly pain itself will unsettle the nerves and make women old before their time.

The foundation of woman's health is a perfectly normal and regular performance of nature's function. The statement we print from Miss GRACE SKESS, of Eldred, Pa., is echoed in every city, town and hamlet in this country. Read what she says:

"DEAR MRS. PINKHAM—I feel like a new person since following your advice, and think it is my duty to let the public know the good your remedies have done me. My troubles were painful menstruation and leucorrhoea. I was nervous and had spells of being confused. Before using your remedies I never had any faith in patent medicines. I now wish to say that I never had anything to do me so much good for painful menstruation as Lydia E. Pinkham's Vegetable Compound, also would say that your Sanative Wash has cured me of leucorrhoea. I hope these few words may help suffering women."

The present Mrs. Pinkham's experience in treating female ills is unparalleled, for years she worked side by side with Mrs. Lydia E. Pinkham, and for some time past has had sole charge of the correspondence department of her great business, treating by letter as many as a hundred thousand ailing women during a single year.

All suffering women are invited to write freely to Mrs. Pinkham, at Lynn, Mass., for advice about their health.

Items of General Interest Gleaned From the Thriving Pacific States.

To Freeze Out Americans.
The government measure recently enacted into law, and aimed at the Americans in the Atlin district, provides for the amendment of the placer mining act, providing that no one who is not a British subject shall take out a free miner's license, and that no company shall have the same license unless incorporated or registered under the laws of the province. The act is not retrospective. Licenses take out previously may be renewed, but under a renewed license no one is entitled to take up new claims. Section 5, which is the most far-reaching, provides that no free miner after the passage of this act shall hold any claim under the British Columbia placer mining act or an interest therein as trustee or otherwise for any person who is not a British subject, or for any corporation not authorized to take out a free miner's certificate. A miner's license taken out by any person not authorized to do so by this section shall be null and void. This section shall not affect free miners' licenses issued before the coming into force of this section, and such licenses may be renewed from time to time. The only necessities for a person to become naturalized are that the applicant is a person of good character and has resided in the Dominion for three years.

The pretty girl set her lips together for an instant.

Survivors of a Ship's Crew Taken by Cannibals on the Island of New Guinea.
Vancouver, B. C., Jan. 30.—After escaping death by drowning, 11 of the crew of the ship Manbar were captured and eaten by cannibals of New Guinea.

The Manbar was bound for Sydney, Australia, when it was caught in the terrible gale of December. Near Cape Nelson it began to sink. The crew, 18 all told, left the vessel in two boats, and soon became separated. One boat, containing 12 men, was finally thrown ashore 10 miles from the cape.

The sailors were seized by natives from the interior and hurried off to the village of the chief. One man, James Greene, escaped. The sailors were stripped and bound and killed, one each day. A wild orgy was participated in by at least 100 savages, who had gathered for the feast.

In several cases the sailors were tortured by the old women and children of the tribe. The eyes of one were gouged out. The doomed men stoically watched the elaborate preparations for their death. A huge pot filled with boiling water was used for the feast, which on the first day was prolonged away into the night. In most cases the men were beheaded, their heads being stuck on poles and paraded before the men who were to suffer the same fate.

Greene was rescued by a steamer after tramping without food a day and a night to reach the coast. The scenes of horror he had witnessed turned his hair snow white.

More Speeches on Expansion.
Washington, Jan. 30.—At the opening of the senate Spooner and Rawlins gave notice of speeches on the resolution opposing annexation, Spooner, Wednesday, and Rawlins, Thursday next. Mason asked unanimous consent for a vote on his resolution, declaring it to be the policy of the United States not to attempt to govern the people of any other nation, next Friday, at 1 o'clock, and Hoar for a vote on his resolution declaring the Philippines ought to be free and independent, but Carter objected to both.

In the House.
Washington, Jan. 30.—When the house met this morning there remained but little more than an hour of time for general debate on the army reorganization bill. Henderson (Rep. Ia.) was the first speaker. He opposed a standing army of 100,000 men, but was willing to support a proposition for a force numbering from 50,000 to 60,000.

Court-Martial Over.
Washington, Jan. 30.—The case of Commissary-General Charles P. Egan, charged with conduct tending to the prejudice of good order and military discipline, is now in the hands of the court martial appointed to try him. Today the taking of testimony was closed, and arguments of counsel submitted. The trial lasted three days and consumed less than eight hours of actual sitting. A session behind closed doors of an hour or so sufficed for the court to reach a conclusion and embody its report. What the verdict will be is altogether a matter of speculation, and officially at least will not be made public by the trial board, military regulations requiring that its findings shall go through prescribed channels, and be kept secret until action be had and promulgated by the proper reviewing authorities.

Union Pacific Will Profit.
New York, Jan. 30.—It was stated last night that the details of the plan for the exchange of Union Pacific common stock for Oregon Short Line stock would be made public in an advertisement. The directors of the Union Pacific have settled the terms and the official announcement is expected today.

It is generally believed that the arrangement arrived at will be share for share on the \$27,460,000 of Short Line stock, with a "string" to the deal, in the shape of a small assessment on the Short Line holders. This deal should net the Union Pacific about \$1,000,000.

Report of Verdict of Galt.
Chicago, Jan. 30.—A special to the Times-Herald from Washington says: Dismissal from the military service of the United States without any recommendation for clemency, is the verdict by the court-martial upon Commissary-General Egan for his recent virulent attack upon Major General Miles. The verdict was reached within 45 minutes after the trial ended today.

Perished on a Glacier.
Seattle, Wash., Jan. 30.—News of the freezing to death of three prospectors on the Valdes glacier, near the mouth of Copper river, Alaska, was brought to this city today by passengers of the steamer Cottage City, from Skagway and Juneau, Alaska. The names of those who perished are: Henry Koln, New York city; Smith, Chicago;—Emerson, Baldwin, Wis.

Fight in the Helicarath.
Vienna, Jan. 30.—In the lower house of the Austrian reichsrath today a disturbance arising out of racial difference led to a hand-to-hand fight between deputies. The others finally succeeded in separating the combatants, but the sitting came to a close amid a scene of turbulence.

Steamer Centennial Loading.
San Francisco, Jan. 30.—The steamer Centennial, which has been chartered by the United States as a transport, arrived today from Puget sound, and will at once begin loading with supplies for the American troops in the Philippines. She will probably sail in company with the Ohio and the senator.

Washington, Jan. 30.—The situation at Manila is regarded as critical, of course, but the officials see no reason why they cannot command it for a time at least. General Otis reported yesterday, in connection with some matters connected with the shipment home of some sick Spanish soldiers, that he could hold out beyond a doubt until his reinforcements arrive, and added that as the news had reached Manila that there was every prospect that the peace treaty would be soon ratified by the United States senate, the effect on the native element had been satisfactory.

A STORY OF THE FUTURE.

When we consider the inevitable blighting of health, and the horrors of wasting disease and impaired vitality, we must accord to Dr. Darrin the distinguished honor that belongs only to the subtle benefactors of our race. By this discovery he sends the life-currents of that great agent through the debilitated frame, he elicits pain, restores the strength and builds up a glorious health, and the elasticity and joyousness of spirit that are lost when suffering from disease of the organs or derangement of the nervous centers. A few instances of cures we give as a proof positive of the superiority of electricity over other methods of cure.

Mr. Isaac Winters, Centralia, Wash.—Asthma of 18 years' standing; restored. Joseph Moore, Portland, polys in the nose, 15 years; cured.

Arm Chair of Solid Gold.
The shah of Persia owns the most valuable arm-chair in the world. It is of solid gold, inlaid with precious stones. At one time some of the stones were stolen from one of the legs of the chair, and the shah ordered the arrest of a number of his servants and held the keeper of the furniture responsible for the loss, with the intimation that if the thief were not discovered the keeper would be beheaded. The culprit being eventually found, was forthwith beheaded and his head carried on a pole by the imperial body guard through the streets of Teheran.

Guarding Against Twin Offsets.
A village clergyman tells this story: He was walking through the outskirts of his parish one evening, when he saw one of his parishioners very busy whitewashing his cottage. Pleased at these somewhat novel signs of cleanliness, he called out: "Well, Jones, I see you are making your house nice and smart." With a mysterious air, Jones, who had recently taken the cottage, descended from the ladder, and slowly walked to the hedge which separated the garden from the road. "That's not 'tactly the reason why I'm doing this 'ere job,'" he whispered, "but the last two couples as lived in this 'ere cottage 'ad twins; so I says to my missus, 'I'll take an' whitewash the place, so as there mayn't be no infection. Ye see, sir, as 'ow we got ten children already.'"—Cornhill Magazine.

Grip is a treacherous disease. You think it is cured and the slightest cold brings on a relapse.

Its victims are always left in a weakened condition—blood impure and impoverished; nerves shattered. Pneumonia, heart disease and nervous prostration are often the result.

Dr. Williams' Pink Pills for Pale People will drive every trace of the poisonous germs from the system, build up and enrich the blood and strengthen the nerves. A trial will prove this. Read the evidence.

When the grip last visited this section Herman H. Fowler, of St. Louis, Mo., a well-known contractor and builder, was one of the victims, and he has since been troubled with the after-effects of the disease.

One year ago his health began to fail, and he was obliged to discontinue work. That he lived to-day is almost a miracle. He says: "I was troubled with shortness of breath, palpitation of the heart and a general debility. My back ached and I was unable to do any work. I tried one doctor after another and numerous remedies suggested by my friends, but without apparent benefit, and began to give up hope. Then I saw Dr. Williams' Pink Pills for Pale People in a St. Louis paper, and after investigation decided to give them a trial."

"After using the first box I felt wonderfully relieved and was satisfied that the pills were putting me on the road to recovery. I bought two more boxes and continued taking them. After taking four boxes of Dr. Williams' Pink Pills for Pale People I am restored to good health. I feel like a new man, and have the will and energy of my former days returned. I am capable of transacting my business with increased animation."
