

Walter Hurt, the bright and brainy editor of the Gating Gun, a truth telling paper published at Cleveland, Ohio, is under indictment on a charge of sending obscene matter through the United States mails.

Governor Geer issued a proclamation on the 9th, inst declaring the 10th a legal holiday in honor of the returning volunteers.

FREER TRANSPORTATION.

Notwithstanding the high freight rates charged by railroad companies, the upper county, the great wheat growing section of the Inland Empire, has thrived in years past.

The fact that the producers of the upper country have had too much of their income absorbed in getting their products to market has retarded the growth and development of the Inland Empire and has also cramped business in the places from which it drew its supplies and did its shipping.

But the adverse influence, or to say the least, lack of interest on the part of Portland toward the producers of the Inland Empire has prevented the river being opened to free navigation.

The effect of this will be the development of much agricultural land that is not now utilized. It will bring into cultivation thousands of acres that at present are but a barren waste, and counties that are tributary to the Columbia will increase rapidly in population.

Our forefathers at Boston, rather than submit to a tax of three pence a pound on tea, disguised themselves and destroyed a whole cargo.

200 times as great, and equally as unjust as King George's tax on tea, would be treated as outlaws and shot down like rebels.—Coming Nation.

Every thoughtful man, says the Terre Haute Express, whose observation of men and things is valuable; every man who has been obliged to rely upon himself for advancement, whose aspiration has been high enough and his will, strong enough to advance himself; every man who recognizes the ladder by which he climbed, and is not ashamed to acknowledge he was once at the bottom round, has a good word for the home newspaper, the country newspaper, which is the barometer of business and the artery through which it is increased and kept alive.

Filipinos' Friend.

A report from London says that Admiral Dewey was interviewed the other day at Naples in the course of which he said:

"I have the question of the Philippines more at heart than has any other American, because I know the Filipinos intimately and they know that I am their friend. The recent insurrection is the fruit of the anarchy which has long reigned in the islands, but the insurgents will have to submit themselves to the law after being accustomed to no law at all. I believe and affirm, nevertheless, that the Philippine question should be very shortly solved."

"The Filipinos are capable of governing themselves; they have all qualifications for it. It is a question of time but the only way to settle the insurrection and assure prosperity to the archipelago is to concede self-government to the inhabitants. This would be the solution of many questions and would satisfy all especially the Filipinos, who believe themselves worthy of it and are so."

"I have never been in favor of violence toward the Filipinos. The islands are at this moment blockaded by a fleet and war reigns in the interior. This abnormal state of things should cease. I should like to see autonomy first conceded and then annexation might be talked about. This is my opinion."

I should like to see violence at once put a stop to. According to my view, the concession of self-government ought to be the most just and logical solution."
