An Oddity in Railroading. "The craze for fast time on railways is taking a new feature," observed a prominent railroad official to a Star writer recently. "It is the shortening of lines and reconstruction of surveys in order to make a given line as straight as possible between two points. It is, in fact, a scheme to make time by saving distance. A railway without a curve or a cutting is, of course, a splendid thing from an engineering standpoint, but it is a very tedious affair to the passenger. To thoroughly realize how extremely monotonous a long journey on a railway without a curve or cutting is, one must travel on the road from Buenos Ayres to the Andes. That railroad beats all known records for having 200 miles of tracks almost on a line, such as mathematiclans describe as the shortest distance between any two points. No one who has not seen this remarkable stretch of road, straight in front and behind as far as the eye can reach, even when aided by a field glass, can grasp what it means or what an amount of wearisome onotony it involves and entails."-

Improved Train Equipment. The O. R. & N. and Oregon Short Line have added a buffet, smoking and library car to their Portland-Chicago through train, and a dining car service has been inauguarated. The train is equipped with the latest chair cars, sches and luxurious first-class and ordinary sleepers. Direct connec-tion made at Granger with Union Pacific, and at Ogden with Rio Grande line, from all points in Oregon, Wash-ington and Idaho to all Eastern cities. The Stage Robbery. It transpired that Van C. Alexander, the man who gave up \$170 of the money stolen from the United States mails on the stage near Westfall, Or., on September 22, is admittedly the main per-son responsible for the hold-up. The indications during the examination in indications during the examination in United States Commissioner Hailey's court here on Saturday, pointing to holidays, bank clearings, swelled partly Alexander as the one planning the robbery, with the two boys as his accom plices, are confirmed by the develop-ments. It is announced here that this phase of the case will be called to the attention of Judge Bellinger, of the federal court at Portland, before whom the two boys are to be tried.

Big Steam Heating Plant. Upwards of \$600,000 is to be spent the Boston capitalists who have purased the plant of the Seattle Steam Heat & Power Company, and six of the street railway lines of Seattle, in the erection of a new and modern power plant and in the rebuilding and the distributing system. This part of the plant will be almost wholly recon-structed, new mains being laid in conformity with the latest ideas of steam ngineering. This is but the beginning of large improvements which will be made. Plans are now being drawn for the new building and plant, which will be finished by January 1, and for the rebuilding of several of the street car lines recently purchased.

Motioned Sustained. Judge Burnett, of Salem, has sus tained a motion for non-suit against the plaintiff in the case of L. H. Mc-Mahon vs. The Canadian Pacific Railway Company. The action was begun to recover about \$550, alleged to be due the plaintiff on account of advertising in the Woodburn Independent and the Salem Independent. The defense claimed that the agent who made a contract for the advertising had no authority to do so, and that the newspa-per company was to take pay in trans-

Distributive Trade Is Still of an En-Bradstreets says: Distributive trade, while smaller at some markets, is still of encouraging volume, industry is acof encouraging volume, industry is ac-tive, railway earnings heavy, prices still tend upward and bank clearings increase, while failures lessen. Fall festivals and other celebrations at sev-eral cities have had an appreciable effect upon retail trade, and proved a stimulating factor in wholesale lines. Industrial activity is widespread, and by heavy October disbursements and partly by general business expanding,

tend to enlarge as the season advances. Business failures are apparently at a minimum, and liabilities are certainly less costly than for many years past. Prices as a whole manifest aggressive strength. Farm products are especial-ly prominent in this direction, the South's greatest staple, cotton, owing to short crop, advancing, and, owing to active speculation leading in extent of gain with an advance of nearly % a cent for the week, of nearly 2 cents as compared with a year ago and of quite 2 % cents as compared with the low water price touched in the season of 1898-9. Followed Her Doctor's Advice

Mrs. G. W. Palmer, of Jonesville, Vt. said: "Two years ago I was afflicted with stomach and bowel trouble. My case pussed the doctors. I substated only on the lightest kind of diet. My stomach would not retain solid food. The pain in my stomach and bowels was so intense that I cannot describe it. I cobtinued to grow werse. I lost 48 pounds, my nerves were completely shattered, and I was very weak. Dr. C. W. Jacobs, of Richmond, advised me to take Dr. Williams Pink Fills for Pale Peopla. I began to use the pills, and the first effect was the restoration of my appetite, and the quieting of my shattered nervous system. I began to regain my lost strength, and in one month after commencing to take the pills I was able to de my bousswork. I have gained 30 pounds and to day am in good health."

A War-Time Mistoke. In a Missouri court recently a rather novel case came up for decision. Dur-ing the civil war a certain Northern soldier went into the service, leaving a young wife at home. In due time the news reached him that his bride had died and when the war ended he did not return to his old home, but settled out West. He married again, and with his second wife accumulated a large amount of property in Bratt county. Not long ago he learned that his first wife had not died, but, supposing him to have been killed, had married another man. This man died, leaving her a widow. When the Pratt county man learned these facts he brought suit for divorce, and the woman in the East heard of it and went out and fought the case, asserting a claim to part of the Pratt county man's property. However, after the lawyers had made a great fight before him, the judge granted the divorce and left the Pratt county man free to marry the woman who has been living with him for many years as his wife.—N. Y. Tribune.
