WOOLEN GOODS ACTIVE.

Bradstreet's review says:

Exceptions to the quiet and even duliness shown by the many lines of trade and speculation are found in the active demand for, woolen goods for next fall's delivery, and in the active call for dry goods on spring account. In the latter direction, prices show special strength, and the bulk of the business placed in woolens has been at an advance of 25 to 40 per cent. In other lines, notable steadiness is shown in prices. Weather conditions throughout the country part of the week have in prices. Weather conditions through-out the country part of the week have been against trade in seasonable goods, and there is very general complaint of large stocks of winter goods in the hands of this branch of trade. Another effect of the usually mild weather is that shown in the Northwestern lum-ber business. The lack of snow will hably insure a reduction on the cut of last year, and this, combined with smaller stocks, points to at least a maintenance of present lumber quota-

tuted an exception to the general quiet.
They opened their order books this week, and an unusually heavy volume of business is reported to have been reof business is reported to have been re-corded. Cotton goods are reported in good demand in nearly all markets, and the confidence as to spring business in dry goods and clothing is a notable feature, in sharp contrast, in fact, with the reports received from retailers as to the present season's business in winter-wear moods. Scarolity of water is comwear goods. Scarcity of water is com-plained of as limiting the output of New England cotton mills, which are reported as backward in deliveries.

BOWEL BAY-WINDO

When a man gets one, he becomes a slave to his bowels. Every person ought to have control over the different parts of the body, and it is the easiest thing in the world to educate the bowels, make them do their duty naturally and regularly, and keep them from becoming a source of misery and a deformity as well.

Educate your bowels!

Don't neglect the slightest sign of irregularity but see that you have at least one natural easy movement a day. Pills, salts and black draughts are dangerous because they strain and weaken the bowels. What you want is a mild but sure laxative, that tones and strengthens the bowels and stimulates their movements. Such a laxative is CASCARETS, and when you try them, you will find that it is the easiest thing in the world to make and keep your bowels clean and regular, strong and healthy.
