War News.

The latest report from South Africa is that the Boers have again driven the British back, the latest reverse being at Rensburg. It is thought that place will have to be abandoned. The Boers announce that they will hold Cecil Rhodes as a hostage, when captured, and will demand \$10,000,000 for his release. This amount is demanded as indemnity for the Jameson raid.

Boer leaders are said to be discussing conditions of peace which, if carried out, would be a bitter pill for the British. They claim that the war is the beginning of the end of British power in Africa and that in the end both republics will have full freedom and that England will have to give up those parts of Cape Colony, Natal and Bechuanaland where the inhabitants have cast their lot with the republics.

One of the most provident men yet heard of, was the fellow who was locked up the other day by the marshal for having a bigger jug than he could conveniently carry. When the marshal unlocked the cooler to put his lodger in, he found a full flask of bug juice laying on the bunk where it could easily have been dropped through the barred window. The lodger claimed the flask as his own and the supposition is that after getting full he expected to land in the cooler and so made due preparation for his captivity. If such fore thought were directed in proper channels that man should be in good shape for the proverbial "rainy day".

All voters should remember that there is a new law on the statute books of Oregon, requiring voters to register on or before the 15th day of May prior to election. If you don't register you can't vote—at least without lots of trouble—so when in town be sure and call at the clerk's office and attend to this important matter.

The weather is still fine and warm. Gooseberries and other early shrubs have begun to grow. Peaches and other fruits have not been killed yet but they are far advanced and a hard freeze would probably kill all.

There has been a force of men at work on the old East building for the last week repairing and putting it in first-class shape. The upper story is used by the Masonic lodge while the lower floor will be used for some business undertaking.

Sand rats, or squirrels as some call them, have come out by the thousands and seem to be perfectly delighted with the green vegetation spread out before them. They should not be so bad on grain this spring as usual since there is an abundance of feed for them without it.

The correspondent from Olex, who remarked that they would use the fine road Arlington was talking of building to and across Schuttler flat for a turnpike to try the speed of their fine horses on forgot to mention that it would be of great benefit to Olex merchants in getting their goods out from Arlington, it being the only road over which they can reach the river and R. R. on an easy grade. Nevertheless Arlington wishes that their expectations in regard to the R. R. coming to Olex will soon materialize as nothing that tends to improve the county can hurt this growing city.

The greatest danger from colds and la grippe is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. It will cure a cold or an attack of la grippe in less time than any other treatment. It is pleasant and safe to take. For sale by The Hudson Pharmacy, C. W. Crossfield, Mgr.

The claim of other cough medicines to be as good as Chamberlain's are effectually set at rest in the following testimonial of Mr. C. D. Glass, an employe of Bartlett & Dennis Co., Gardiner, Me. He says: "I had kept adding to a cold and cough in the winter of 1897, trying every cough medicine I heard of without permanent help, until one day I was in the drug store of Mr. Houlehan and he advised me to try Chamberlain's Cough Remedy and offered to pay back my money if I was not cured. My lungs and bronchial tubes were very sore at this time, but I was completely cured by this remedy, and have since always turned to it when I get a cold, and soon find relief. I also recommend it to my friends and am glad to say it is the best of all cough medicines. For sale by Hudson Pharmacy, C. W. Crossfield, Mgr.

A Convincing Answer

"I hobbled into Mr. Blackmon's drug store one evening," says Wesley Nelson, of Hamilton, Ga., "and he asked me to try Chamberlain's Pain Balm for rheumatism with which I had suffered for a long time. I told him I had no faith in any medicine as they all failed. He said: 'Well if Chamberlain's Pain Balm does not help you, you need not pay for it.' I took a bottle of it home and used it according to the directions and in one week I was cured, and have not since been troubled with rheumatism." Sold by The Hudson Pharmacy, C. W. Crossfield, Mgr.
