SEA GOLD DREDGING

Secretary Root's Reply to the Senate's Resolution.

MERELY PERMITS GRANTED

No Law to Prevent Prospecting Under Water if Navigation is Not Obstructed.

Washington, March 26.—Secretary Root today transferred to the senate his reply to the resolution requesting information on the war department's practice of granting permits for gold dredging off the Alaskan coast.

He states that no concessions or grants to excavate the gold-bearing bed of the sea or in the vicinity of Cape Nome or in other Alaskan waters have been made by the secretary of war or any other official of the war department, but that permits have been given under the navigation act of March 3, 1899, to excavate or dredge for gold at points where there can be no hindrance to navigation.

He states that prospectors must secure such permits to avoid liability to heavy fines under the act. The secretary adds:

"As this statute was designed solely for the protection of navigation, it has been the practice of the war department to grant permits to persons desiring to excavate for any purpose when the work is not such as to obstruct navigation, and is otherwise lawful. Permits thus granted are not exclusive; they do not preclude any number of similar permits applicable to the same territory; they are not grants or concessions, and they confer no rights whatever, except immunity from prosecution under the statute.

"As there seems to be no legal reason why all citizens of the United States should not have the same opportunity to prospect for gold and acquire mining rights under the mining laws upon land under water as they have upon land not under water, the department determined, as a general policy in the exercise of the discretion vested in the chief of engineers and secretary of war by this statute, to relieve all citizens applying from the obstacle imposed by this statute as long as their proposed operations do not, in fact, interfere with navigation. All applications made under this statute have accordingly, so far as it has been possible to dispose of them, received favorable attention. No application of this description has been denied. Upon two, permits have been granted. Upon a third, papers had been prepared and were awaiting the secretary of war's signature at the time of the passage of your resolution. Three others were approved by the chief of engineers, and were in the hands of the judge-advocate for the preparation of the necessary papers. Eleven others are still in the office of the chief of engineers in process of examination upon the question whether they interfere with navigation. Four more, just received, are in the office of the secretary of war, and will today be sent to the chief of engineers. Unless otherwise directed by congress, the secretary of war will deem it his duty in the exercise of the discretion vested in him by law, to grant permits in all of these cases and upon all other similar applications by citizens of the United States; provided that the proposed work does not affect navigation."

A Negro's Six Victims.

Raleigh, N. C., March 24.—A negro, Tom Jones, commonly known in the country as "Preacher Jones," this morning murdered Ella Jones and her oldest daughter, Ida, with an ax, and then set fire to the beds in which lay the bodies of his victims and four sleeping children, ranging in years from a babe one month old to the largest boy, who was not more than 5. The four children were burned to death. The crime was committed at Garner's, a little town five miles east of here. The murderer, according to the story of little 7-year-old Laura Jones, who escaped with her younger sister, deliberately struck the mother four times and then made two cuts into the body of the oldest child. He then fired the house.

When the people heard the story of the murder, they went to Jones' house to arrest him. They found that his clothes still bore stains of fresh blood, and that his hands were covered with blood.

Ice Gorge Floods a Town.

Monroe, Mich., March 26.—Owing to an ice gorge a large portion of the Third ward of this city is under ten feet of water, and the current of the Raisin river is running down Front street on the south and Elm avenue on the north. Great damage has already been done. The city authorities have decided to dynamite the ice gorge.

Factory Elevator Fell.

New York, March 24.—One of the elevators in the seven-story factory building at 347 Center street broke its cable today and fell seven stories, injuring three of its occupants internally. The injured are: John Pododa, 17 years old, the elevator boy; Bernard Katsung and Anton Schroeder, of Brooklyn.

Adopted by the Senate.

Washington, March 26.—The senate today adopted the conference report on the Puerto Rican tariff bill by a vote of 35 to 15, practically a strictly party expression. No Democrat voted for the report, but Stewart, Silver, of Nevada, voted with the Republicans. The time of discussion was consumed mostly by Tillman, who made a fierce attack on the measure, and accused the Republican senators and the Republican party of indiscretion, hypocrisy and "dirty work."

EXPLOSION OF COLLODION.

Wrecked Two Buildings in Philadelphia—One Life Lost.

Philadelphia, March 24.—One person was killed and four injured by a terrible explosion of colloid in the photographic supply establishment of Thomas M. McCollin & Co., on South Eleventh street, today. The dead man is Herman Weiss, aged 19. The more seriously injured are: George W. Nicholas, August Hauser, Daniel Reed, a fireman, and John A. Granton.

The building was almost entirely wrecked, and the adjoining structure, occupied by V. Clad & Sons, manufacturers of hotel ranges and kitchen supplies, was also badly damaged by the force of the explosion. There were over 100 persons in the Clad building when the explosion occurred on the sixth floor of the McCollin building. The force of the explosion blew out the north wall of the building, and the heavy mass crashed through the roof of the Clad building, which was only four stories in height.

Weiss and Hauser, who were working on the upper floor of the Clad building, were crushed under the falling debris. Nicholas and Granton were burned by the explosion, and were taken from the McCollin building by firemen. While firemen were working in the McCollin building, the third floor gave way, and in this crash fireman Daniel Reed had his leg broken.

The property loss is about \$75,000. Fire, which followed the explosion, did considerable additional damage.

The roof of the Jefferson hospital, the rear of which adjoined the burned structure, caught fire, but the flames were quickly extinguished, and did but little damage. A number of patients were quickly removed from the hospital as a measure of precaution during the progress of the fire.

A REVOLTING CRIME.

Young Woman Burned to Death by Fire in South Carolina.

Wadesboro, S. C., March 24.—Particulars were received today of a revolting crime committed in Chesterfield county a few days ago. Cassie Boone, a young woman, was enticed from her home by four white men, carried to the woods near by and assaulted with knives. The woman was gashed with knives in the fleshy part of her body, the cuts being from four to 12 inches in length. Then coal oil was poured over her and she was set on fire and released in the woods, to run screaming until she fell dying. When found a small brand around the forehead was the only shred of clothing left on her body.

Cassie Boone was 20 years old, the daughter of George Boone, a farmer. She was one-quarter Indian. The girl's reputation, it is said, was not good. Last Sunday evening she left her home with Sam Woodward to visit Vinea Meltou. She left there later in the evening with Tom Steen and James Jackson, presumably to return to her father's house. Nothing more was heard of her till she was seen Monday night running through the woods.

Ross Jackson, John Jackson, Abbe Kirkly and Jim Yerner, reported that they heard the screaming, and, collecting a crowd, went into the woods and found the girl. Some one threw an overcoat over the charred and dying woman, and then summoned help. When a doctor arrived she was dead.

TREATY RATIFIED.

Relating to the Disposition of Estates of Those Who Die Aboard.

Washington, March 24.—The senate today in executive session ratified the treaty between the United States and Great Britain relative to the estates of citizens of one country who die in the other, which has been under consideration for the past few days. There was no debate today, but several additions were accepted. Article 2 was amended so as to provide for the extension of the provisions of the agreement to dependencies of the United States, "only upon direction of the lawmaking power of the United States," thus relieving the treaty of the criticism that it conferred too great power upon the president. Article 5 was amended so as to make it apply only to the right of disposing of property. As drafted, the treaty conferred upon the subjects of Great Britain and upon those of the United States in Great Britain "the same right in acquiring possessions or disposing of property" as is possessed by the citizens of the country itself; the words "acquiring" and "possessing" were stricken out. As amended, the treaty was ratified by an almost unanimous vote.

Held Up a Train.

St. Joseph, Mo., March 24.—A "tone" robber, wearing a false face, with a huge black moustache painted on the mask, held up the southbound Kansas City, St. Joseph & Council Bluffs train, four miles south of Hamburg, Ia., at 1:30 o'clock this morning. The train was in charge of Conductor Billy McGee. Flagman Moore was first accosted by the robber at the rear end of the train. Using Moore as a shield, the robber went through the sleeper and chair car, getting \$200 in cash and a gold watch. He pulled the bell cord and when the train slowed down jumped off and escaped in the darkness. The robbery was reported to the Burlington general office here from Langdon, the first station south of Hamburg.

Bounty on Robbers' Bodies.

Kansas City, March 24.—R. J. McFarland, chief of the Kansas City police department, has hung up a bounty for the bodies of all highway robbers killed in the city while in the act of committing robberies or directly thereafter. The price the chief offers to give for the body of each highwayman, the money to be paid out of his salary, is \$35. The reward is open to members of the force as well as any citizen.

MANY FROM EUROPE

Marked Increase of Immigration in Past Year.

ONE-FOURTH ARE ITALIANS

Conditions and Facts Shown by Report of New York Superintendent of Labor Statistics.

Albany, N. Y., March 27.—The annual report of John Mackin, state superintendent of labor statistics, says: "Immigration returns for the quarter ended December 31, 1899, show an increase of 23,012 more than in the last three months of 1898. In the latter quarter the arrivals numbered 51,880; in the same three months of 1899, 74,892. The largest proportionate gain of those races recording at least 2,000 arrivals was made by the Slovaks. The Polish race was second, the Croatians and Slavonians third.

"In point of numbers the Southern Italians still retain the lead in immigration, the arrivals of that race being nearly one-fourth of the total. There were 18,149, or 24.2 per cent, of that class who landed during the quarter which ended last December. Next in the numerical order come the Hebrews, with 10,976; Poles, 6,401; Slovaks, 6,226; Germans, 6,118; Scandinavians, 4,436; Northern Italians, 4,140; and Irish, 3,745.

"Of the 72,892 immigrants arriving during the quarter, four-fifths were destined to the states composing the North Atlantic division, of which group the state of New York received the largest number. Those who went to the West division numbered 2,386.

NOT MUCH PROGRESS.

British Operations Checked in South Africa.

London, March 27.—Except for the "unfortunate occurrence," as Lord Roberts calls it, which resulted in the killing of Lieutenant Colonel Crabbe, Lieutenant Colonel Codrington and Captain Trotter, the campaign presents no new features. The mishap to the guards' officers is a testimony to their bravery, but not their discretion. They met a party of five Boers whom they tried to capture. The Boers took refuge on a kopje, where three of their comrades were hidden, and within five minutes every member of the British party was hit.

Apparently little progress is being made toward the relief of Mafeking. A private telegram from a lieutenant at Kimberley, dated Wednesday, March 21, announces that he was at the point of starting for Mafeking, presumably with the relief column.

General Sir Forestier-Walker and Prince Alexander, of Teck, have left Cape Town for Bloemfontein.

It is reported from Ladysmith that Van Reenan's pass brigades with guns.

Taxation in Cuba.

Havana, March 27.—Governor General Wood has recently had interviews with persons of influence, who have strenuously urged the taxation of valuable property rather than each bag of sugar as it is manufactured. Those who hold this view contend that under the present system impediments are thrown in the way of production. They point out that many valuable states have been laying idle and unproductive for years, some even having complete sugar plants. The owners, who are rich men, are living in Paris, Madrid and other European cities, quite untaxed for their property in Cuba.

General Wood feels that if these properties are taxed, their owners will be forced either to sell them or to make them productive.

The meeting called today of those favoring universal suffrage resulted in a failure. The only persons present were about 50 negroes and several small boys.

Arrival of Shipwrecked Seamen.

New York, March 27.—Among the passengers who arrived today on the steamer Olinda from Cuban ports were 30 stranded colonists from La Gloria and 25 shipwrecked seamen. Twenty of the latter are from the Norwegian steamer Frannex, which was swept ashore on Hog Sty reef, in the Bahamas, March 2, and became a total loss, already reported. The crew landed on the reef with provisions, and they were picked up by the steamer Admiral Schley, and landed at Fortune Island.

The other five shipwrecked seamen were from the American schooner Hattie Godfrey, which was lost on Ronanco reef.

Utah Mormons Go to Mexico.

Chihuahua, Mex., March 27.—The several Mormon colonies in this state have been increased in population by the arrival of over 5,000 Mormon immigrants from Utah during the last two months. The colonies were established under concessions granted by the Mexican government.

Tramp Killed a Brakeman.

Brook Haven, Miss., March 27.—John Perkins, a freight brakeman, was shot and killed near here this afternoon by Moses Angeline, a tramp, who was stealing a ride. It is feared a mob will be organized to lynch him.

Clinton Liberal Institute Burned.

Fort Plain, N. Y., March 27.—Fire today entirely destroyed the Clinton Liberal Institute building, entailing a loss of \$95,000. The institute was a college preparatory school and military academy, owned and conducted by the Universalists of the state, and occupied a large five-story building. The building was not occupied, the Easter vacation being on. The armory was saved. Most of the faculty and students lost their personal effects.

Murdered by Moonshiners.

Raleigh, N. C., March 24.—Governor Russell is officially informed that last night four masked men went to the home of George Rittel, a negro, near Carthage, and attempted to hang him, but he broke away. He was caught, however, horribly mutilated and hanged and shot. His murderers are believed to be moonshiners.

He who lights the candle at both ends, may expect soon to burn his fingers.

BAD NEWS FROM MANILA.

Rebels Capture Quantities of Guns and Ammunition.

San Francisco, March 26.—The steamer Hong Kong Maru brings from Hong Kong news of a surprising state of affairs existing in the Philippines. The correspondent of a Hong Kong paper sent the following uncensored letter to his journal:

"Manila, Feb. 13.—It is a strange state of affairs that exist in the Philippines today. Improvement is visible in nearly every quarter. Civil governments are rapidly being established in every town of importance, and garrisons and patrols are in process of extension wherever Americans hold territory, and yet it is an undeniable fact that since January 1 the insurgents have captured a number of rifles and quantities of ammunition from the Americans, almost equaling the sum total of American captures from the insurgents.

"Besides this, the casualty rate for the last two weeks will come very close to being heavier than at any
