

THE HEALTH OF YOUNG WOMEN

Two of Them Helped by Mrs. Pinkham

DEAR MRS. PINKHAM—I am sixteen years old and am troubled with my monthly sickness. It is very irregular, occurring only once in two or three months, and also very painful. I also suffer with cramps and once in a while pain strikes me in the heart and I have drowsy headaches. If there is anything you can do for me, I will gladly follow your advice.

MISS MARY GOMES, Aptos, Cal., July 21, 1904.

DEAR MRS. PINKHAM—After receiving your letter I began the use of your remedies, taking both Lydia E. Pinkham's Vegetable Compound and Blood Purifier. I am now regular every month and suffer no pain. Your medicine is the best that any sufferer can take.—MISS MARY GOMES, Aptos, Cal., July 6, 1905.

Nervous and Dizzy DEAR MRS. PINKHAM—I wish to express my thanks to you for the great benefit I have received from the use of Lydia E. Pinkham's Vegetable Compound. I suffered constantly from terrible headache, had chills, was nervous and dizzy. I had tried different kinds of medicine but they all failed entirely. After taking three bottles of Vegetable Compound and three of Blood Purifier I am all right. I cannot thank you enough for what your remedies have done for me.—MISS MATILDA JENSEN, Box 18, Ogdenburg, Wis., June 10, 1899.

Elevation Desirable Lady (with high hat)—I beg your pardon, but I forgot my opera glass. Would you kindly lend me yours just a moment?

Try Allen's Foot-Ease, A powder to be shaken into the shoes. At this season your feet feel swollen, nervous and hot, and get tired easily. Beware of Ointments for Catarrh That Contain Mercury. As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used. Depend on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by Druggists, price 75c per bottle. Hall's Family Pills are the best.

The problem of Indian education seems to be solved by the Indians themselves. In the territory the Chickasaws have five colleges and the Creeks have 10. The Choctaws have no colleges, but have 160 common schools in which the higher branches are taught. The expenses of educating the Indians are borne by the federal government.

The oldest story in the world probably is the one told by the boys when they return from hunting; that they killed a duck, but that they couldn't find it.

If a man has a little ability, people abuse him because he does not "do" more.

No boy thinks he has had enough candy until he has started a tooth to aching.

PACIFIC COAST MINING NEWS

Vancouver Iron and Big Oregon Company are the Current Talk This Week.

VANCOUVER IRON PROPERTY. BIG OREGON COMPANY.

Pennsylvania Men Said to Be Buying for Development. Seattle, July 16.—The Post-Intelligencer states that managers of the McKeesport iron works, in Pennsylvania, have been visiting the Pacific coast, and have secured sites for new iron works at Port Angeles, after an unsuccessful attempt to locate in Victoria, B. C. The belief is expressed that the iron deposits of Vancouver island have attracted the attention of these iron men and that raw iron will be taken from Barclay sound, and elsewhere in the island, down to Port Angeles for working. It is known that the McKeesport iron men have secured options on three properties in the Barclay sound country, namely the Anderson, Braden, Irving and others, and a third the property of Thompson, Braden, Logan and Kains. An option has been secured on these claims until the end of the year, and before the beginning of next month between 400 and 500 men will be taken up to Barclay sound to exploit its mineral wealth.

Development proves that these properties are at all equal their promise, it will mean much for Vancouver island and for Victoria. The properties in question run about 72 per cent in pig iron, a very high per cent, and one which evoked enthusiastic expressions from the visiting magnates. From these the raw material for the Port Angeles foundries will be drawn. The Galeana, one of the promising claims on the Gordon river, passed recently under bond to a number of Eastern capitalists. Active work will commence on this mine on August 1 and will be continued until the end of the year. A large sum is involved in this transaction should it go through.

WILL WORK THE CLAIM. Owners Want a Showing Made in the Hard Cash. Greenwood, B. C., July 16.—The owners have bonded the Hard Cash mineral claim for \$30,000 to John Rodgers. The bond is a working one, and so much work must be made before the first payment is made. The Hard Cash is a fractional claim, containing 28 acres, adjoining the Golden Crown, Winnipeg and the J. and R. The latter claim is owned by John Rodgers, and he recently uncovered a ledge on the property near the Hard Cash line. He, therefore, secured the Hard Cash that both claims might be worked to gether.

PACIFIC COAST WHEAT SHIPMENTS. Thirty-five Million Bushels Sent From Portland, San Francisco, Seattle and Tacoma. Portland, July 16.—The Oregonian publishes tables showing the wheat shipments from the four leading coast cities for the season of 1899-1900, as follows: From Portland—94 cargoes, 14,239,064 bushels. From San Francisco—127 cargoes, 13,534,635 bushels. From Seattle and Tacoma—35 cargoes, 7,799,092 bushels.

ROSSLAND ORE SHIPMENTS. Six Months of This Year Equal to All of Last. Rossland, B. C., July 16.—Ore shipments from this district for the first half of 1900 were nearly equal to those of the whole year 1897, when the figures were 72,840 tons. The total for the past six months is 71,235 tons.

The Nickel Plate has been opened to the 600-foot level, is fully developed by drifts, etc., to the 200-foot level, and partially developed to the 400-foot level. Arrangements have been made to ship 250 tons of ore per day from the Nickel Plate.

RICH MOUNTAIN TUNNEL. Twenty-three Times Gold Has Been Struck at Palmer. Loomis, Wash., July 16.—In the Palmer mountain tunnel the last 30 feet driven has gone through a formation highly mineralized, giving assays each day running from \$3.74 to \$37 in gold. The last shot at the face broke into a well defined ledge, showing much blue quartz full of mineral which may prove one of the most important in the history of the tunnel. This ledge is in a different formation from that of the other 23 and the good veins preceding the cuttings of the footwall make the crossing and testing of this 23d vein a matter of special interest.

ENORMOUS ANACONDA PLANT New Machinery Weighs Nearly Two Million Pounds. Anacosta, Mont., July 16.—New machinery weighing 1,650,000 pounds is being installed in the concentrating plant of the Anacosta Mining Company here. The company is using 24 Huntington mills five feet in diameter, of the latest pattern; 24 sets of crushing rolls, 40 inches in diameter by 16-inch face, with forged steel shells; eight Blake crushers, 24x12 inches, and 16 Blake crushers 15x5 inches.

GOOD MONTANA MINE. Copper and Gold Produced at the Copper Cliff. Missoula, July 16.—Visitors in the city from the Copper Cliff mine report the shaft down 200 feet and the ore running high grade. The owners expect to drift at this depth and find better ore. There is on the dump about \$25,000 worth of ore, running in both gold and copper.

IDAHO MINING COMPANIES. Wallace Reports Two Recently Incorporated, Moderately Stocked. Wallace, Idaho, July 16.—The Novelty Mining & Milling Company, Limited, has filed articles of incorporation. Its principal place of business is Wallace, and its capital stock of \$20,000 is divided into 200,000 shares.

The Capital Mining & Milling Company has filed articles of incorporation. Wallace is the principal place of business, and the capital stock of \$100,000 is divided into 1,000,000 shares.

THE DULL SEASON.

Railway Earnings Are Good, However, and Business Failures Few.

Bradstreet's says: Business is unusually dull at this season, and this year no exception to the general rule is remarked. A review of the past six months, however, gives little comfort to pessimists. Bank clearings, it is true, are smaller by about 11 per cent than they were in the first half of 1899, but railway earnings are about 10 per cent larger, and business failures, as reported to Bradstreet's, are the fewest reported for 18 years back, with liabilities of falling trades the same, with one exception, and that last year, since 1892. Winter wheat has about all been harvested in the Southwest and the yield there has been very large. Copious rains in the Northwest, too, have apparently worked some improvement, judging from the more cheerful tone of advices received from thence this week.

Wool is dull and manufacturers are supplying only actual wants. In manufacturing lines dullness and weakness are most marked in products of iron and steel. The settlement of labor troubles is effected in the better demand for building materials at affected centers, while rains in the Northwest have allowed white pine manufacturers to open their works, and give employment to many thousands of men.

Sugar has been marked up again this week, coffee is higher, while tea holds the full advance scored on the outbreak of the Chinese troubles. Wheat, including flour, shipments for the aggregate, 3,018,832 bushels, against 3,184,144 bushels last week.

Business failures in the United States for the week number 196, as compared with 185 last week. Business failures in Canada number 25 as compared with 18 last week.

A BUSINESS VESTRYMAN.

Figured Out How Much the Parish Lost by Ministerial Exchanges.

A clergyman who failed to recognize the fact that his "settlement" included business as well as spirituality, was reminded of his lapse, by a parishioner who did not think a two-thousand-dollar man could afford to allow a fifteen-cent Harper's Drawer to do his work. "Harper's Drawer" tells how the clergyman was made to see the business side of his calling.

Some years ago, in one of my parishes, I had a vestryman who was an excellent man and my warm personal friend. In the neighborhood lived a clerical brother, an excellent and popular man, with whom I often exchanged pulpits. His salary was fifteen hundred dollars and a rectory, while mine was two thousand dollars, with a similar provision for my shelter.

One very hot summer, not being in good health, I exchanged several times with him, so as to save preparing sermons. One day I went into the large store of my vestryman to have a chat with him, which he opened as follows: "You have lately exchanged a good deal with Mr. —."

"Yes, sir," I replied. "He is a fine preacher, and every one in the parish admires him."

"I know that," said he. "I like him very much; but what is his salary?" "Fifteen hundred dollars and a rectory."

"But what are we paying you?" I told him.

"Well," he put in, "have you considered how much this parish loses by these exchanges?" I told him I had not made that calculation.

"Nine dollars and sixty cents is the loss per Sunday," was the statement of this careful guardian of the financial interests of his parish.

RECOVERED HER TEETH.

Chase of a Woman After a Pug that Had Taken Her Molars. Philadelphians on Diamond street were very much interested in the other day in watching the chase of a young woman stylishly dressed after a pug dog. The wind was high and during a gust that came around a corner the young woman sneezed, gently at first, and then with some degree of violence. A cry of alarm escaped her lips as something resembling a string of pearls fell from her mouth to the pavement. For an instant the object glittered on the sidewalk, when the frisky dog

DOG RUNS OFF WITH FALSE TEETH.

bounded to the spot, picked up the glittering thing and bounded off again. Bussing the girl, in her perplexity, cast a wistful glance at the dog in the distance. Quickly she placed her trembling hand over her mouth and kept it there, while she started in pursuit of the dog. The chase was exciting. Pedestrians rushed to watch. After many turns, ruses, dodges and halts the pretty maiden caught the dog at Tenth street. The animal fell prostrate at her commands.

"Drop it, Fido; drop it!" she cried. The dog obeyed, opened its mouth and dropped upon the pavement with great reluctance the proud maiden's set of false teeth.—Exchange.

Rough on the Job Master. "A few days since," relates a solicitor, "as I was sitting with my friend D—, in his office, a man came in and said: "Mr. W—, the livery stable keeper, tricked me shamefully yesterday, and I want to be even with him."

"State your case," said D—. "I asked him how much he'd charge me for a horse to go to Richmond. He said half a sovereign. I took the horse, and when I came back he said he wanted another half sovereign for coming back, and made me pay it."

"D— gave his client some legal advice, which he immediately acted upon, as follows. He went to the livery stable keeper, and said: "How much will you charge for a horse to go to Windsor?" "The man replied: "A sovereign."

"Client accordingly went to Windsor, came back by rail, and went to the livery stable keeper, saying: "Here is your money, paying him a sovereign."

"Where is my horse?" said W—. "He's at Windsor," answered the client. "I hired him only to go to Windsor!"

Conundrum. A good conundrum is like an inanimate object, because it cannot die. A correspondent of the New York Sun recalls one propounded by the poet John Godfrey Saxe, and mentioned to the writer by one of his daughters. Although of reputable age, it is apparently new in print, and so is repeated here: Can you tell me why a hypocrite's eyes can better discern than you can, or I, upon how many toes a pussy cat goes?

A hypocrite's seat can best counterfeited, and so, I suppose, can best counterfeit her toes.

Probably. Haughty Lady (who has purchased a stamp)—Must I put it on myself? Postoffice Assistant (very politely)—Not necessarily, ma'am; it will probably accomplish more if you put it on the letter.—Tit-Bits.

When a woman tells a hired girl story to her company, they wonder how often her husband has been compelled to hear it.

If a father calls his 12-year-old child at 9 o'clock at night, and asks that it go to bed, some people call it a "roast."

A New Romantic Novellet.

The Century Company announces the discovery of a new romantic novelist in a young New Yorker, Miss Bertha Runkle, whose maiden effort is to be The Century's leading piece of fiction for the next eight months, beginning in the August number. It is described as a dramatic romance of love and adventure, and is entitled "The Helmet of Navarre." The scene is Paris during the siege by Henry of Navarre, and the action occupies but four days of the week preceding the Sunday when Henry entered the city. The story is full of vigorous action, and the plot is said to be one of fascinating interest.

The Trust Problem. To a thoughtful mind is one of serious import, for it creeps upon society before you are aware of its existence, in this respect much resembling the various disorders which attack the stomach, such as constipation, indigestion and dyspepsia. Hostetter's Stomach Bitters is the one reliable remedy for all such ailments.

Religious Conservatism. Man today begins life in a garden of innocence and purity, wherein are the divine possibilities, but where there is also the subtle spirit awaiting the chance to beguile. In every walk, as he grows to maturity, are impressions made on the plastic soul, and ever present is the intelligence, working often for good, but which may in self-sufficiency beguile to evil paths. It is here religion seeks, reminding men of God.—Rev. J. K. Smyth.

One result of the installation of the corn kitchen at the Paris fair has been a widespread agitation in that country in favor of the appointment of a commission by the government for the purpose of visiting the United States and ascertaining the best means of introducing corn in France.

If a man living in this part of the country should tire of fried eggs, we don't know what on earth he would eat for breakfast.

If you want to make trouble for an enemy, tell his wife that a daughter in the family has musical talents which must not be buried.

HEADACHE

"Both my wife and myself have been using CASCARETS and they are the best medicine we have ever had in the house. Last week my wife was frantic with headache for two days, she tried some of your CASCARETS, and they relieved the pain in her head almost immediately. We both recommend Cascares."—G. W. Parkhurst on John B. I. I could get along with a confession of faith containing but the little that Jesus said when He was trying to make a Christian of Nicodemus: "God so loved the world that He gave His only begotten Son, that whosoever believeth in Him should not perish, but have eternal life." That gives to us the doctrine of God's unlimited love, human guilt, the divinity of Christ, salvation through Christ, faith in Christ, immortality; every word Saxon, three-quarters of the words monosyllables, profound enough for any elder, simple enough for any four-year-old.—Dr. C.
