Working Women

are invited to write to Mrs. Pinkham for free advice about their health.

Mrs. Pinkham is a woman.

If you have painful periods, backaches or any of the more serious ills of women, write to Mrs. Pinkham; she has helped multitudes. Your letter will be sacredly confidential.

Lydia E. Pinkham's Vegetable Compound is known wherever the English language is spoken.

Nothing else can possibly be so sure to help suffering women. No other medicine has helped so many.

Remember this when something else is suggested.

Mrs. Pinkham's address is Lynn, Mass.

Her helping hand is always outstretched to suffering women.

Ham Salad.—Chop fine one cup of ham; soak one cup of bread crumbs in one-half cup of sweet milk; add one teaspoonful each of dry custard and celery seed and a little pepper. Turn all into a sauce pan and heat thoroughly. Serve hot on a small platter, garnished with slices of hard-boiled eggs.

Try Allen's Foot Ease.

We have 30,000 testimonials. Try it today. Sold by all druggists and shoe dealers for 25c. Trial package FREE. Address Allen S. Olmstead, LeRoy, N. Y.

A Nebraska man who saw a twister start writes about it to a magazine. It is harmless at the start but very powerful when some farmer tries to stop it by having his house in its path.

HOITT'S SCHOOL.

Menlo Park, San Mateo County, Cal., with its new buildings, newly furnished and complete laboratories, beautiful surroundings and home influences, is one of the best equipped schools for the training of boys and young men on the coast. It is in charge of Dr. Ira G. Hoitt and is accredited at the universities. Send for catalog. Tenth year begins August 6, 1900.

The Georgia man who chained up his daughter because she married in opposition to his wishes merely demonstrated that she was wise in marrying anyone who would take her away from him.

Experiments have for some time been made in England with smokeless coal. This peculiar fuel may be burned either in an ordinary grate or in a basin in the middle of the room without developing any perceptible odor or smoke at any time. The fire looks like the finest coal fire, and the flame is white and blue.

Like the Deadly Under-Current

which grasps one without warning, the mucous membrane which lines the entire body suddenly becomes weakened in some spot and disease is established. It may be of the lungs, the head, throat, stomach, bowels, or any other organ. Wherever it is, and whatever it seems, it all springs from the same cause—

CATARRH

or inflammation of this delicate pink membrane.

The system is weakened in winter. The delicate lining is more susceptible to irritation or inflammation, and thus we have pneumonia, grip, colds, coughs, fevers, etc., all catarrhal conditions which may easily be checked by one catarrh cure—Pe-ru-na.

That's the only way out of it. You may dose forever—you will not be well until you try the true cure and that is Pe-ru-na. You may think your trouble is some other disease and not catarrh. Call it what you will, one thing is sure, your system is affected and must be treated, and Pe-ru-na is the only remedy which reaches the right place and *does* cure.

MINES AND MINING

Consul McCook Says Alaska Is Destined to be a Wonderful Mining Camp.

"Alaska is destined to be a wonderful mining country," says United States Consul McCook, at Dawson, in a letter to the state department. The Tanana district, he says, is creating a stir and is dividing honors with the Kyokuk country. In the Tanana region the miners claim they can get 10 to 30 cents' worth of pay dirt to the pan, and this in summer digging, with only two or three feet to bedrock, is equivalent to $1 a pan where one has to go 25 feet to bedrock.

"The great necessity now in Alaska," says Consul McCook, "is good roads, good camps and the prospecting of comparatively unknown sections."

Great dissatisfaction was expressed at Dawson City this spring after the wash up, he says, by miners who worked for men who had leased mining claims from the owners. The lay men sign contracts to work so many feet of the claim during the season, to receive 50 per cent of the gold coming out of the claims, and the lessee agreeing that all men working the property will be employed under a written contract by which they promise not to hold the claim in any way liable for their wages. It has turned out in hundreds of cases that the cost of working the claims has taken more than 50 per cent of the output, the lessees' share. Thus the men employed on the claims have been deprived of their wages. Lay men on rich claims, says Consul McCook, can do very well, but the majority of the claims cannot be worked on this basis at the current rate of wages.

E. C. Senkel, gold commissioner of Yukon territory, has information that Canada is to introduce radical reforms in the Klondike. The royalty system is to be done away with altogether and a government assay office is to be established at Dawson and a compulsory fee of 3 per cent charged for assaying gold and exchanging for drafts. The 3 per cent must be paid on all gold taken from the country, whether the government assay office be patronized or not.

Lucky Queen Hill.

A rich strike has just been made by Corliss & Rush, on Lucky Queen hill, about 10 miles from Grant's Pass, Or. It is on the Double Eagle claim, which was purchased last year for a very low figure. The strike is in the nature of a very rich seam, one to two inches thick, with a body of quartz on either side. The gold is all through the seam, which is easily pounded up, and runs $10 to $15 to the pan.

Reviewing the Gem Mine.

The Gem mine, near Sparta, Eastern Oregon, now owned by Portland capitalists who purchased the property several months ago, has shown exceedingly rich ore, acording to Manager N. J. Jenkins. A depth of 460 feet has been attained and levels are being run 450, 350 and 300 feet in depth. An uprise from the 450 to the 350-foot level is being driven for air. A contract has been let to sink a prospect shaft 300 feet south of all previous workings. As work progresses, large ore bodies are being exposed, and there is ore enough in sight for a 10-stamp mill for years to come. The old Gem was worked 30 years ago by Captain Ainsworth and Captain E. M. White, but was abandoned by them. The wealth of the mine was little known, as recent developments show. The property now bids fair to be a great producer.

Electric Line for Republic.

A petition is before the council of Republic, Wash., to grant the Republic Gold Mining Company a franchise for the laying of track and the running of steam, electric or horse cars through that city, the erecting of poles and the transmission of electricty for lighting purposes for the municipality and for power. Should the franchise be granted, the tramway system will be built first. The route for the tramway has been surveyed. From this line, which will be about three miles long, branch lines will run through the cross streets.

Northwest Notes.

Denny pheasants are becoming plentiful in Rouge River valley.

Klamath Indians have sold 65 horses to a government buyer at prices from $25 to $40 per head.

A panther that had been killing goats was shot last Sunday by William Templeton, of Crown Point, Or.

Fire is destroying much valuable timber in the mountains west of Enterprise, Or. The fire started about a week ago.

A Chinese vegetable peddler at Spokane cut off his queue to convince skeptical persons that he was not a Boxer, but a Christian.

An exceptionally large fruit crop is assured this season in the Rogue River valley. One farm will yield from 50 to 60 car loads of apples.

Walla Walla's outlook for a fruit fair is good. Its soliciting committee got $1,000 from business men in three hours, and promises of much more.

Charlie Linn, a boy at Salt creek, in Polk county, Or., has caught 163 digger squirrels with a steel trap since last March. He gets 1 cent each for their scalps.

Salmon have commenced to make their appearance in the Wallowa river below town, and soon Chief Joseph's gang of Indians will be here catching and drying them for winter use.

The creamery at Chehalis, Wash., turned out 10,000 pounds of butter and 500 pounds of cheese during June. The Bee-Nugget estimates that with the Toledo, Browning, Centralia and smaller creameries in operation Lewis county's diary product will reach $75,000 to $80,000 per year.

John Bennett, a logger, was fatally injured in North River valley recently, by being hit in the back of the head with a grab iron, which was pulled out of a log and struck with great force. He died the day after the accident.

The Sunset Te'ephone Company's failure to reach a settlement of the strike of its employes, with consequent poor service to patrons, has led many business houses at Seattle to order their phones removed and to employ bicycle messengers. Resolutions adopted indicate that the business men are not pleased with the company's course, but side with the girls who are out.

FEW CHANGES IN TRADE.

Numerous Favorable Features in Business Situation.

Bradstreet's says: Important changes in trade and speculation are notably lacking this week, but counter currents of demand in various sections and industries lend a rather more than usually irregular appearance to the general situation. Among the notable features calling for notice are the practical assurance of an immense corn crop by the recent copious rains in the further West, the continued cheerful reports from the sections which have gathered and are now marketing a large winter wheat crop, advices of continued improvement in tone to the Northwest, with reports of renewals of earlier cancelled orders for fall goods, fairly satisfactory gains in gross railway earnings, less weakness in prices of the country's leading cereal products, based apparently on renewed buying for export, and rather more inquiry for raw wool by manufacturers.

Unfavorable elements in trade probably find their chief and greatest exposition in the iron and steel business. That industry, if possible, seems more depressed than at any time for three years past, and expectations that price declines will be checked by the arrival of finished matter at a cost basis have been disappointed, because this week steel bars have been sold in some instances at 1 cent per pound, which is unquestionably below the basis of the cost of raw materials and manufacture.

Export business would undoubtedly expand if ship room were available. Among other metals tin is locally lower, on freer arrivals, after touching the highest price in 20 years.

Wheat, including flour shipments, for the week, aggregate 2,363,743 bushels, against 3,029,381 bushels last week.

Business failures are smaller, numbering 183 in the United States, as compared with 202 last week.

Showing of Ignorance.

By the printed reports of a recent examination of applicants for positions in the census office at Washington an astonishing amount of ignorance is shown to exist among the applicants. They are especially and funnily ignorant, says the Washington Star, regarding the famous men of history—as to the time in which they lived and as to what they accomplished. Fifty-two persons entered the competition and only 14 reached a percentage above 90, while 19 failed entirely. Some of the answers would be taken for jokes did they appear anywhere else than in a department report.

There was Jefferson Davis, for instance, who was placed on record by one applicant as "a famous general of the war of 1812." Another stated that Mr. Daiva "was president of the United States and wrote the declaration of independence." The first post master general was another who worried the applicants considerably. One man suggested George Washington, another Patrick Henry, and a third Wendell Phillips. A young southerner disposed of all argument by stating that it was "a gentleman named Bissell."

William Cullen Bryant, whose boast was, "I am a bookman," had his identity mixed with that of the Nebraska orator by a young woman, who stated "William Cullen Bryant was the Democratic candidate for president, a silver advocate and a resident of Nebraska." And even Abraham Lincoln appeared to be examined in varied lights. Here are some of the answers to the inquiry concerning him:

"Lincoln was a great general and distinguished himself in the war of 1812."

"Abraham Lincoln was a personal friend of the colored race and was one of the signers of the declaration of independence."

"Abraham Lincoln was born in Illinois, where he worked from rosy dawn till dewey eve as a farmer's lad until he became president."

The District of Columbia is first in the field with its census report, giving a total population of 278,718, an increase of 20.98 per cent since 1890, a rate that would make the total population of the United States about 76,000,000.

A Wonderful Pleasure Trip.

Steamers operated by the O. R. & N. Co. between Portland and San Francisco have been patronized liberally on every trip this summer. The trip down and back can be made for $24. That small amount includes meals and berth, with everything first-class, and the best possible attendance. Steamers leave Portland every fifth day, at 8 P. M. The round trip from Portland to San Francisco and return, can be made in eight days, giving nearly four full days in San Francisco for sightseeing or business.

Belgium's census was taken on the last day of last year, and the general results as regards population have just been made public. The population of the kingdom is 6,744,532, consisting of 3,363,436 males and 3,381,096 females. Officially Antwerp is the most populous town, with 282,318 inhabitants; Brussels follows with 201,065.

Some farmers who broadcasted cow peas this season sowed oats with the peas. As the cow pea is really a bean and supports are not required, the oats are injurious, as the cow pea will thrive much better when given the land alone. If oats are wanted they should always be seeded in another field.

An Unselfish Nature.

"When I get to be a man," said the boy, who has a good memory for phrases, "I'm going to strive to cultivate an unselfish nature."

"That's right," replied his father. "How are you going about it?"

"Well, in the first place, if I have any little boys, I'll let them shoot their own fireworks, instead of telling them they must let me do it, for fear they will hurt themselves."
