ALLIES TAKE PEKIN

Chinese Made an Obstinate Resistance.

ENTRANCE WAS BY EAST GATE

The Legations Are Safe—Japanese Lost One Hundred Men in the Assault—Chinese Loss Was Heavy.

Washington, August 20.—The navy department tonight received the following cablegram from Admiral Remy:

"Taku, August 20.—Bureau Navigation, Washington: Pekin was captured on August 15. Foreign legations are safe. Details follow shortly."

"REMEY." The acting secretary of state later made public the following telegram from the United States consul at Che Foo:

"Che Foo, August 20.—Secretary of State, Washington: Japanese admiral reports allies attacked Pekin, east, 15th. Obstinate resistance. Evening, Japanese entered capital with other forces. Immediately surrounded legations. Inmates safe. Japanese loss over 100; Chinese, 300."

"FOWLER." Previous information which had been received here showed that the allies took possession of Tung Chow the 12th inst. From that city to Pekin the distance is not very great, not more than a dozen miles. It seems evident, therefore, that the armies halted for a time at Tung Chow, probably for the purpose of giving the men a rest and preparing for the attack upon the capital city in force after waiting until the rear of the advancing hoets should arrive at the front. Possibly also the delay was the result of negotiations begun by the Chinese officials looking to the delivery of the ministers with a Chinese or other escort. If negotiations were attempted they must have failed, as the army continued on its march and attacked the capital three days after reaching Tung Chow.

The officials here were aware of the fact that the stronghold of the Boxers was in the Chinese city and for the allies to attempt to force their way through into the Tartar city, in which the legation compounds are located, might mean a great loss of life and possibly a defeat. It was also known that the imperial troops who have sided with the Boxers were, many of them, in or near the Chinese city, and that much of the artillery and rifle which has been poured into the legations had been from the walls operating the two cities.

These facts were evidently communicated to General Chaffee and the other commanding officers of the allies. Realizing these obstacles it appears that the allies decided to attack the city by the east gate. There are four gates to the city on the east, two leading to the Chinese city and two to the Tartar city. Just which one of these was selected as the attacking point Consul Fowler's dispatch does not disclose.

Contrary to the press reports of today Consul Fowler's dispatch shows that the attack on the city met with strong resistance. The Japanese force engaged with the advance, according to the understanding of the officials here, numbered 10,000 men, so the loss suffered by them was over 1 per cent. Allowance is made for losses in the forces of the other armies, but it is presumed that it was in proportion to that of the Japanese.

Summer Resort Burned. Mackinac Island, Mich., August 20.—Pine cottage, one of the large boarding houses of the island, was burned to the ground early today. The flames, fanned by a strong wind, threatened for a time to destroy many buildings. The loss is estimated at \$25,000, no insurance. William Tilton, a member of the fire department, was seriously injured.

Belgian Glass Workers Locked Out. Washington, August 20.—United States Consul Roosevelt, at Brussels, has informed the state department of a lockout at the Belgian glass works. The union of glass workers, numbering 3,000, says the consuls, recently notified the manufacturers if their demands were not granted they would abandon work and the manufacturers replied by announcing the shutting down of all works August 1.

Czar Will Visit Paris. Paris, August 20.—It is officially announced, according to the Petit Bleu, that the czar will visit Paris, arriving at Cherbourg, September 14, reaching Paris the next day and remaining here five or six days. It is added that his majesty, who will come alone, will reside at the Russian embassy, while in this city.

Veterinary Surgeon Drowned. London, August 20.—Sir Henry Simpson, veterinary surgeon to the queen and ex-president of the Royal College of Veterinary Surgeons, was drowned at Datchet, Buckinghamshire, where he owned the South Sea estate. He was born in 1842 and was at one time mayor of Windsor.

London, August 20.—The Roman government, according to a dispatch from Vienna, has addressed a sharp note, amounting almost to an ultimatum, to Bulgaria, demanding the arrest of Sarafow, president of the revolutionary committee at Sofia, and the suppression of the organization.

Berlin, August 20.—With the permission of Emperor William, the work of opening the tombs of the German emperors, buried in the Cathedral of Spries, has commenced.

IS UP TO CONGRESS.

Necessity for the Improvement of the Columbia River.

Washington, August 18.—More than ever before is it now necessary to make an improvement at the mouth of the Columbia river. That improvement has always been necessary, but when it is pointed out in the report of the naval board that it is desirable to have a drydock on the Columbia, that makes the necessity for the great improvement according to the latest plans of the engineers greater than ever, and it now devolves upon congress to provide for such an improvement in the next river and harbor bill. The United States has fleets upon the oceans. It has naval vessels, it has army transports, besides the growing Pacific commerce carried in vessels owned by private corporations and individuals. These vessels must be cared for in the government docks, and it is necessary to have a repair station where they can be taken care of in case of accident. The interests in the far East have developed. Instead of being less, there will be more ships, and there will be more naval vessels on the Pacific coast than there are today. The necessities are greater. We shall always have armies in the Philippines, and they must have supplies, and transports must carry soldiers to and from those distant shores. When this matter is made plain to the men who have charge of preparing the next river and harbor bill, there ought to be no difficulty in making the Columbia river improvement one of such profound importance by reason of the proposed building of a government drydock and naval station, that they will make proper provision for the improvement of the mouth of the Columbia. This naval station and dock are absolute necessities in order to keep pace with the progress and development of the Pacific coast.

RIOTING IN NEW YORK.

Race War Carried on With a High Hand—Many Injured.

New York, August 18.—Such a furious ebullition of race hatred as found vent in the rioting that occurred here last night, the origin of which was a murder by a negro named Arthur Harris, has been not equaled in New York in many years.

As a result of the disturbance, which raged from midnight until 3 o'clock and burst out in a flame of passion and violence at intervals until daylight, there were about 50 persons injured by pistol balls, razors or knives, rocks and clubs. Of these, one negro, Lloyd Lee, may not recover, and Policeman Kennedy is also seriously injured. Lee is alleged to have made threats against the life of Kennedy because he was the particular friend and associate of Thorpe, the murdered officer. Thorpe was the third white man murderously assaulted in the vicinity by negroes, a race prejudice having been engendered. In less than an hour from the time the trouble began last night, the whole of the west side, from Twenty-eighth street to Longacre square, above Forty-second street, including Eighth and Ninth avenues, was in an uproar. Forty or more arrests were made. During the riot it is estimated that 500 police were on duty, and ambulances from every hospital on the west side were kept busy. A police estimate of the result puts the number of wounded at 50, the number of arrests.

Seven Carloads of Ammunition. New York, August 17.—A special to the Tribune from Norfolk, Va., says what is regarded as one of the most important orders received at the Norfolk navy-yard since the close of the Spanish war was one directing the sending, at once, to Ogden, Utah, of seven carloads of shells, powder and projectiles. It is reported the destination of the ammunition is San Francisco, and from there it is to be forwarded to the American warships in Chinese waters. The run across the continent must be made in seven days, which is considered record-breaking time for a freight train.

Tesla's Latest Invention. New York, August 18.—A patent has been granted to Nikola Tesla for an invention that he claims will prevent the escape of electricity from a wire. Tesla's invention, it is claimed, solves the insulation problem by insulating the wire by passing it through air kept at a low temperature, producing a coat of ice on the wire, which cannot be broken through by the strongest current.

Jumped From a Bridge. Toledo, August 18.—The Lake Shore fast mail train No. 3, due here at 1:45 A. M., was wrecked at Bay bridge, just west of Sandusky, about 1 o'clock this morning, caused by jumping the track. The engine passed over safely, but the next cars went down the embankment into the lake. Particulars are very meager. It is reported no one was killed, but a good many were injured, some seriously.

Hamburg Strikers Protest. Hamburg, August 18.—An indignation meeting was held here today by the dock laborers who went on a strike a month ago and have since been locked out, to protest against Emperor William's characterization of them as "fellows without honor and without a fatherland."

John J. Ingalls Dead. Athsion, Kan., August 18.—Ex-United States Senator John J. Ingalls died at East Las Vegas, N. M., at 2:25 o'clock this morning, surrounded by his wife and two sons, Ellsworth and Sheffield. The news came to the Ingalls home here in a telegram at 10 o'clock today. The funeral will be in Athsion.

A Wisconsin syndicate has bought 10,000 acres of timber land in Idaho.

REPORT OF CHAFFEE

Admiral Remy Also Sends Information.

SMALL AMERICAN LOSS AT PEKIN

Uncle Sam's Troops Entered the Legation Grounds on the Evening of the 14th.

Washington, August 21.—From General Chaffee today the war department received official confirmation of the fall of Pekin and the rescue of the besieged legations. The dispatch of the American commander was not long, and contained but few details, but the unqualified satisfaction with which it was received by officials of the administration indicated clearly the anxiety that had been engendered by its prolonged silence. His last communication to the government prior to the receipt of today's advice was dated August 11, at Ma Tou, almost 30 miles from Pekin. The explanation of his silence is suggested in advice received by the navy department today from Admiral Remy, who, telegraphing from Taku on the 18th, says the telegraph line between that point and Pekin is interrupted.

The cablegram from Admiral Remy contains some important information not mentioned by General Chaffee. He makes the startling statement, on Japanese authority, that the inner city of Pekin was being bombarded by the allied forces. Admiral Remy says also that the dowager empress is detained in the inner city by Prince Yungedo. Advice received last night from the foreign office at Tokio, Japan, by the Japanese legation in this city confirms and amplifies previous accounts of the capture of Pekin by the allied troops.

Following is the text of the dispatch from General Chaffee, as made public by the war department:

"Che Foo, August 21, Pekin, August 15.—We entered legation grounds at 5 o'clock last night with Fourteenth and light battery. Eight wounded during day's fighting. Otherwise all well."

"CHAFFEE." The dispatch, which was received during the morning, was transmitted immediately to the president at the white house. He expressed his gratification at the news it contained, particularly at the small loss sustained by the American troops.

It will be noted that the dispatch indicates that the American troops entered the legation grounds at 5 o'clock on the evening of the 14th inst. By the Washington officials and by several legation officials to whom it was shown the date of General Chaffee's communication is regarded as an error of transmission. It is believed that the date "15" should be "16." All previous advice, official and unofficial, have indicated that the legations were relieved on the evening of the 15th, Wednesday, after a day of sharp fighting. Minister Wu, the Chinese representative, and Minister Takahira, of Japan, were quite positive on this point, all their official advice being that the entrance to the city of Pekin was effected early in the evening of Wednesday, the 15th inst.

Big Ax Plant Burned. Alexandria, Ind., August 21.—The entire plant of the Kelly Ax Manufacturing Company, valued at \$500,000, was destroyed by fire tonight. It was the largest ax factory in the world, employing 900 men when running at full force. The insurance on the plant is thought to be \$450,000. The fire is thought to have originated from an overheated boiler. The fire was discovered by the watchman, and the woodwork between the boilers and the grinding room was ablaze. The plant was thoroughly equipped with an automatic sprinkler, but owing to the steam in the boilers being so low it would not work. The great establishment was divided by a railroad switch, and all of the buildings on one side was burned. The burned district includes the forging, drop, grinders, polishers and pattern makers' departments. In addition to the buildings, machinery and half of the finished stock, \$150,000 worth of manufactured goods were destroyed.

Slain With a Hammer. New York, August 21.—Catherine Scharf, aged 22, was beaten to death with a hammer in her rooms on the second floor of 674 Second avenue, some time between 7 P. M. and midnight Saturday. The body not being found until early this morning. Her brother made the discovery when he came home after midnight. The woman's body lay in a pool of blood, face downward. Near by on the floor was a bloody hammer and the rooms had been ransacked of everything of value. It is the opinion of the police that a thief entered the house and was surprised in his work by the girl and that he killed her to prevent identification.

Aberdeen, S. D., August 21.—A severe wind and rain storm is raging in this city. At Columbia considerable damage was done. The spire of the Congregational church was blown off, and numerous barns and other buildings unroofed.

Ruse to Gain Information. Cape Town, August 21.—General Dewet's demand for the surrender of the British force at Commando Nek is considered as a pretense of gaining information. Finding that Commando Nek was strongly garrisoned, Dewet resumed his march northward, shadowed by General Baden-Powell.

Negroes Died From Heat. Louisville, Ky., August 21.—Two negroes died at Louisville today from heat. The maximum was 93.

THREE TRANSPORTS SAIL.

Warren Carries Over One Thousand Troops to China.

San Francisco, August 20.—Three transports sailed for the Orient. The Warren carried the headquarters band and two squadrons of the Ninth (colored) cavalry, under command of Colonel McGregor; 75 hospital corps men, under command of Surgeon-Major Ives; 138 recruits for the Ninth infantry; 166 drivers and other government employees and also a detachment of hospital corps men for Manila. The Warren also carried \$1,500,000. According to present arrangements the troops will be transferred at Nagasaki to a transport that will take them to Taku. The Warren will then proceed to Manila with a few officers and men together with freight. There are 1,100 troops and civilians on the transport, and the cabin accommodations are taxed to their full limit. It was necessary to leave considerable supplies on the dock, owing to lack of room.

The Aztec sailed for Kobe with 500 horses and mules for China, and the Siam sailed for Manila via Guam with 5,000 tons of freight.

The general hospital at the Presidio is to be enlarged to accommodate the extraordinary detachments of sick and wounded on the way here from the Philippines and China. Fifty walls will be erected inside the inclosure at the rear of the hospital and a large tent to serve as a ward.

The Seventh Artillery. Washington, August 20.—Light battery M, Seventh artillery, which has been stationed at Washington barracks for several months, will leave here Friday for San Francisco, en route to China. Light Battery F, Second artillery, has arrived here from Cuba to relieve Battery M, and will garrison the arsenal post for the present. At San Francisco the troops from Washington will be joined by light battery C, also of the Seventh artillery, and will sail on the first available transport. The equipment of Battery M, including horses, has been shipped to San Francisco.

Second Infantry Hurling West. Kansas City, August 20.—Five hundred and fifty soldiers of the Second United States infantry, destined for service in China, being rushed through to San Francisco from Fort Thomas, Ky., arrived here from Chicago this afternoon, with their officers and equipments, and were hurried on west.

COLOMBIA'S TROUBLES.

President Has Resigned and the Vice-President Succeeds Him.

New York, August 20.—A cable dispatch was received here from Bogota, announcing the resignation of President Sanclemente, of the republic of Colombia. Vice-President Marroquin will serve out the four years that remain of his term. The action of Senor Sanclemente will bring about a change in the political system of Colombia, and may even end the revolution which has been in progress for 10 months.

Intervention of Consuls. Colon, Colombia, August 20.—The following is the full text of the statement regarding the alleged intervention of the foreign consuls during the recent fighting in Panama, as contained in the official report of General Salazar, commanding the government forces, General to Alban, civil governor and military chief of the province of Panama, who was in command of the garrison when the city was attacked by the revolutionists:

"The revolutionary leaders, placed taking positions around Panama, asked themselves in communication with several foreign consuls, hoping that their intervention would lead to the surrender of the city. The intervention of the consuls produced such dangerous and pernicious effects, morally, that only the resolution of General Alban averted serious consequences."

HEIR TO MILLIONS A PAUPER.

Felix Pauper's Grave Because of the Provisions of a Will.

San Francisco, August 18.—The Examiner says: Asa Packer Wilber, one of the heirs to the \$20,000,000 estate left by Asa Packer, the Pennsylvania railroad king and coal baron, has died in poverty in this city, and yesterday was buried in a pauper's grave. He was a victim of the morphia habit, and until a few days ago worked at intervals for J. P. Bogard, proprietor of a dramatic paper, to whom he assigned half of his prospective estate.

He was a nephew of Asa Packer, whose will made over his immense estate to his children, but contained a clause that should they die without issue the estate was to revert to two brothers, named Elisha and Jeremiah Wilber, who were related to P
