

# THE CONDON GLOBE.

THURSDAY, AUGUST 30, 1900.  
THE OFFICIAL PAPER OF GILLIAM COUNTY, OREGON.

## Our Agents.

The following persons are the accredited agents of the GLOBE at the post offices named. They are authorized to receive and receipt for subscription accounts:  
W. H. COLWELL, Arlington.  
WADE BROS., Olex.  
Mrs. ELLA ANGELL, Mayville.  
Other agents will be appointed, and their names added to this list later.

## LOCAL NEWS.

A light frost visited this section Saturday night.

Sheriff Wilcox made a trip to Arlington Saturday on official business, returning Sunday.

Dr. Gullette has fitted up his new office in an artistic manner and now has one of the neatest places in town.

Springton & Rogers are having the front of their barn repainted. The work is being done by W. A. Goodwin. This firm is keeping its place right up-to-date.

Mr. and Mrs. Ed. Hartman expect to leave next Monday for Linn county, where they will make their home. They will locate south of Albany, near Shedd's station.

Special Land Agent Loomis, of Oregon City, was here Saturday on business connected with the contest which was filed by B. Geide several years ago on W. A. Darling's homestead.

Since H. W. Pauling's departure for Mayville, Dr. Gullette has charge of the secretary's books of the Woodmen. Neighbors should govern themselves accordingly and call at his office and liquidate.

Jean Labous has had the interior of his popular resort repapered this week and it now looks almost too fine to talk about. It beats all what style some old fellows will put on. W. A. Darling did the work.

The quarter section of land lying in the canyon south of town belonging to the J. A. Linn estate was sold by the administrator, P. H. Stephenson, last Saturday to C. M. and J. B. Smith, the consideration being \$340.50.

Charlie Habeshon was in town Saturday. He had just about finished stacking 150 acres of wheat which he raised and harvested single handed and alone. Charlie cut his grain with a binder and hauled and stacked it himself.

P. H. Stephenson received a letter from J. R. Frazer a few days ago, written from McCoy, Oregon, which stated that his father, L. B. Frazer, died at that place on the 18th inst. Mr. Frazer was a pioneer of Polk county.

H. Greenfield, of Trail Fork, has purchased the residence property formerly belonging to J. R. Frazer, near the school house. Consideration \$400. Mr. Greenfield will move to town soon in order to place his children in school.

Charlie Earhart and Fred Wilson left Tuesday morning for the highest places they can find in the Blue mountains. They expect to have a big time and, if the trout, fool hens and venison hold out, will return to civilization weighing something less than a ton each.

We learn that a certain well-known young professional gentleman of Condon is at present paying rent on a neat cottage, for which he seems to have no earthly use, but we expect to soon be able to publish an announcement which will start something like this:  
MARRIED—Etc.

Ray Rogers, one of the popular young men of Ferry Canyon, left Tuesday for Salem, where he will spend a few weeks, and will later go to Benton county, where he has engaged to teach school during the coming winter. The best wishes of many friends will go with Ray during his temporary absence from Gilliam county.

Len Seary rolled in Monday from Beecher Flat with his eight-mule outfit loaded with wheat for Arlington, and stopped over a day to have some mules shod and wagons repaired. This was his first load of his 4000 bushel crop, and it looks like he has just started in on an all winter's job. Len drives the best mule team in the county.

Walter, the seven-year-old son of Taylor Brandon, of Ferry Canyon, was thrown from a horse a few days ago and sustained a bad fracture of the left arm just above the elbow. The break is so close to the joint that it is likely to result in a permanent stiffness of the elbow. Dr. Gullette is giving him the needed attention. Walter is unfortunate, having had the other arm broken only a few months ago.

Mr. and Mrs. Ed. Hartman went to Arlington Monday on a business trip. Miss Lonella Maddock accompanied them, on her way to Portland, where she goes to purchase a stock of millinery goods for the fall trade. She expects to be absent about two weeks, and on her return will open a fine line of goods in the new building which is being erected on Spring street next to the Stephenson building.

Gay Boyd and Frank Brown were in town Monday on their way to Mitchell and other Wheeler county points to buy cavalry horses. They will buy unbroken animals and break them to Uncle Sam's taste. Mr. Boyd says the recent cloud-burst did considerable damage in his section. He lost some calves, and Grant Wade lost calves and large cattle. The flood took everything in its path. Much valuable garden land on Rock creek was covered with several feet of rocks and mud and is irretrievably ruined.

School will commence next Monday. Miss Drucela Cooney is visiting friends here this week.

Bob Wald has gone out to work with Cooke Bros.' threshers.

Mr. and Mrs. C. W. White, of Papersack, were in town Monday.

Dunn Bros. are getting in new goods every few days for their Fall trade.

Miss Beulah Fitzwater is suffering from an attack of septic fever this week.

Lake Mason is again on the street, after a severe tussel with the septic fever.

Ed. Nelson returned Tuesday from a trip through the interior with a drummer.

Mrs. P. H. Stephenson is on the sick list this week. Dr. Gullette is attending her.

John Jackson, who has been laid up several days with an attack of fever, is improving.

J. K. Fitzwater and daughter, Miss Grace, went to Rock creek Tuesday in quest of fruit.

One of the new covered stage coaches made its first trip from Arlington to Condon yesterday.

Mrs. J. H. Downing and Mrs. F. M. Springton went to Rock creek Monday after a hack load of fruit.

Elder Swift, of the Church of Christ, will preach in the Baptist church next Sunday at 11 a. m. and 4 p. m.

E. A. Wallace has bought two lots just north of J. R. Clark's residence, and will build a dwelling thereon.

Judge Neal, who has been occupying the J. R. Clark house for some time, moved out to his ranch yesterday.

Jack and Albert King have returned to their home at Salem, and are no doubt singing "The Girl I Left Behind Me."

W. A. Darling received word last Friday of the death of his father at Tacoma. The old gentleman was about 70 years of age.

P. H. Stephenson has begun receiving his line of Fall goods, and already has some of the finest fabrics ever offered in Condon.

Mrs. Russell and daughter, Miss Susie, of Trailfork, went to The Dalles this week, where the latter will enter the St. Mary Academy.

Tom Portwood is expecting a big invoice of harness, saddles, etc., in a day or two. Tom says he has no kick coming at the way business has started out.

The latest news from China is that the allies themselves may soon be in need of a rescue party. They are getting short of food, and Chinamen are thicker than peas.

Charlie Habeshon presented us with a sample of pears the other day grown on his lots in town on trees planted two years ago which prove beyond a doubt that Condon is in the fruit belt.

MARRIED—Sunday, August 26, 1900, at the residence of Square Wilkinson White on Papersack, Mr. James Campbell and Miss Maggie McFarland. The happy couple have the best wishes of everybody.

The threshers are humming on all sides of us these days. From the number of steam whistles tooting their shrill notes one might imagine that Gilliam county has a half dozen railroads all headed for Condon.

Miss Belle Wilson went to Snipston Monday morning to commence teaching the school in that district. Miss Wilson has waded through snow waist deep in Michigan many a time in order to get to and from her school. She is of the heroic type we read about in the papers from the blizzard-swept prairies of the East.

John A. McMorris has been engaged to superintend the work of construction of the Condon—Lost Valley telephone line, and active work will begin next week. Work on the line has been suspended for some time, and it is a matter of gratification to all parties concerned to know that the project is to be speedily completed. Mr. McMorris is getting to be a practical telephone man.

W. A. Darling comes to the front with a pretty good potato story. When the late cloud-burst was playing hob with things in general out in the Hay creek country the flood took a short cut across his potato patch. The water swept all the soil from the mounds and carried rocks weighing two tons each two miles down the canyon, but those potatoes were so big that the flood could not turn them over and start them rolling. In such ways as this is the worth of Gilliam county soil proven.

In view of the recent action of the city council in providing a penalty for the infringement of the irrigation ordinance, it may be some consolation to Condon people to know that a few days since at Canton, Ohio, when President McKinley had his much trampled lawn sprinkled during the hours in which a city ordinance forbade water to be used for that purpose, he was promptly notified that if the offense was repeated the water would be shut off from his premises. The president must be a very reasonable minded man, as there is no mention in the dispatches of his making any particular howl about the water. He simply bowed to inevitable and observed the law in the future.

## AGENTS WANTED.

Write for full particulars and Catalogue FREE. GREAT EASTERN TEA COMPANY, No. 326 Washington St., Portland, Or. Largest distributors of Teas, Coffees and Spices on the Pacific Coast. 100 stores in successful operation.

## School Board Meeting.

The School Board held a business meeting last Friday, at which time a contract was closed with Miss Mabel Halstead as primary teacher for the coming term, Prof. W. B. Neal having been employed as principal some time ago.

With these teachers the school should be more than ordinarily successful. Miss Halstead has had charge of the primary work here for several years and with good success, and any defects in that branch of the school in the past has no doubt been due more to the environment—the crowded condition of the room, etc.—than to any shortcomings on the part of the teacher. Prof. Neal has had many years' experience in educational work, and ranks among the best educators in the Northwest.

It was partially decided at this meeting to employ another teacher later if satisfactory arrangements can be made for a suitable room, as it is considered by both school board and teachers that there is a demand for another assistant. S. B. Baxter was employed as janitor for the coming term.

School will begin next Monday, Sept. 3d, and there will be a full nine months' term.

## From the Mountains.

THOMPSON SPRINGS, Aug. 21—(Editor Globe).—We arrived at our destination yesterday, after seven days' travel. We overtook Mr. Gaffney, of Fossil, the first day after leaving home. Our trip was a most enjoyable one, excepting at times when the women got a little cranky by being compelled to cook over a camp fire, etc. Mrs. Gaffney was quite sick one day during the trip. On arriving at the camp ground the first persons we met were Syl Palmer and bride, of Condon.

At present there are six camps and fifteen boarders at the Springs, but there has been as many as twenty camps here at one time this season.

We would recommend the Springs to all suffering from Bright's disease and rheumatism, and it is also a lovely place to spend the heated season.

Yes, we have one "dear" in our camp and we expect more when the hunters return.

## A Minister's Good Work.

"I had a severe attack of bilious colic, got a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, took two doses and was entirely cured," says Rev. A. A. Power, of Emporia, Kan. "My neighbor across the street was sick for over a week, had two or three bottles of medicine from the doctor. He used them for three or four days without relief, then called in another doctor who treated him for some days and gave him no relief, so discharged him. I went over to see him the next morning. He said his bowels were in a terrible fix, that they had been running off so long that it was almost bloody flux. I asked him if he had tried Chamberlain's Colic, Cholera and Diarrhoea Remedy and he said, 'No.' I went home and brought him my bottle and gave him one dose; told him to take another dose in fifteen or twenty minutes if he did not find relief, but he took no more and was entirely cured." For sale by The Hudson Pharmacy—C. W. Crossfield, mgr.

## Resolutions

Adopted by the Annual Teachers' Institute in session at Condon, Oregon, August 20-22, 1900.

We, your committee on resolutions, beg to submit the following as our report:

RESOLVED, That we, the teachers of Gilliam county, in Institute assembled, hereby extend our sincere thanks to the school officers of Condon for the use of their school house for the purpose of Institute work.

RESOLVED, That we extend our worthy Sup't. W. B. Neal, our appreciation for the courteous, impartial and able manner in which he has presided over and conducted our Institute.

RESOLVED, That our thanks are due Mrs. C. W. Crossfield for her musical selections, which were highly appreciated by the teachers.

RESOLVED, That we extend to State School Superintendent J. H. Ackerman and Prof. D. W. Jarvis our sincere thanks for their earnest and efficient work during our Institute just coming to a close, and only hope that their future work may be as successful and as highly appreciated by other teachers as it has been by the Gilliam county teachers.

RESOLVED, That we specially extend to the ladies of Condon our sincere and heartfelt thanks for the reception tendered us during the present session of our County Institute.

You assume no risk when you buy Chamberlain's Colic, Cholera and Diarrhoea Remedy. In a short distance, it will refund your money if you are not satisfied after using it. It is everywhere admitted to be the most successful remedy in use for bowel complaints and the only one that never fails. It is pleasant safe and reliable.

## CLEM.

A. A. Thomas lost several head of fine shoats by the flood, which carried them out of the pen before he had time to knock the fence down and let them walk out.

C. W. Wester reports that while riding on the south fork of Hay creek, since the storm, he saw three horses that had been drowned, in a short distance. In one place where the canyon was narrow the marks showed the water to have been 25 feet deep.

During the cloud-burst last week C. A. Dannebaum and James Larch were "caught out" on their way home from Olex, across country. They took refuge in Ed. Huber's barn but, hearing a rush of water coming, they had to light out for higher ground. For once it is recorded that Gus "took water." They saved a horse from the barn by cutting him loose and letting him go out on the flood which swept through the building and cleaned everything out thoroughly.

"My baby was terribly sick with the diarrhoea," says J. H. Doak, of Williams, Oregon. "We were unable to cure him with the doctor's assistance, and as a last resort we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy. I am happy to say it gave immediate relief and a complete cure." For sale by The Hudson Pharmacy—C. W. Crossfield, mgr.

## The Storm on Hay Creek.

Details of the damage done by the cloud-burst last week in the Hay creek canyon reached town too late for publication in our last issue. The flood in that section was a terror—nothing like it having ever been seen since the country was settled.

L. W. Darling and H. C. Strickland were perhaps the heaviest losers, both gentlemen estimating their respective loss at more than \$1000.

Part of Darling's barn, his chicken house and other outbuildings were carried away or buried in debris, his garden and berry patch was covered with several feet of rock and gravel and much damage was done to his ranch.

A new bridge, and most of the road, between the Darling and Strickland ranches were washed away, and much damage was also done on Strickland's ranch.

Mrs. Wells, who lives below Strickland's, near the crossing of the Tenuille road, saw the flood coming and thought her house was doomed. With her little grandchild, she took refuge on the hillside, but for some reason the flood turned just before it reached the house. Her horse and cow were carried out of the pasture and the cow has not since been heard of, the horse, however, saving himself after being carried a mile or so down the canyon.

## It Helped Win Battles.

Twenty-nine officers and men wrote from the Front to say that for Scratches, Bruises, Cuts, Wounds, Sore Feet and Stiff Joints, Bucklen's Arnica Salve is the best in the world. Same for Burns, Skin Eruptions and Piles. 25 cts. a box. Cure guaranteed. Sold by Condon Drug Co.

## ROCK CREEK.

The cloud-burst which occurred here last week did much damage to the roads and gardens in this neighborhood.

Miss Dora Downing, of Condon, was a visitor on the creek last week. She was accompanied to her home by Miss Katie Schott.

Mr. and Mrs. W. R. Land, accompanied by their daughter, Miss Annie, came over from their Eightmile ranch and spent Sunday on the creek.

# VICTOR MARDEN

Manufacturer of and Dealer in Harness and Saddles

Fine Stock Saddles a Specialty

We Guarantee Our Prices to Please
