A Wise Printer An exchange tells of a printer, who, when his fellow workmen went out to

drink beer during the working hours, put in the bank the exact amount he would have spent if he had gone to drink. He thus kept his resolution for five years. He then examined his bank, account and found he had on deposit \$531.86. In the five years he had not lost a day from ill health. Three out of five of his fellow workmen had become drunkards, were worthless and were discharged.
