Gaffney and their better halves were camped at the springs for a few days, Syl says, but B. K., becoming blood-thirsty for game, struck out last Tuesday, declaring that as long as his grub held out he would keep on traveling until he killed a deer or a bear.

The Greiner & Dyer thresher threshed 2600 bushels of barley one day last week. The machine has been averaging about 2300 bushels a day, and the machine operators don't rush things, either. Mr. Hollenbeck, the engineer, understands his business and everything runs like clock work.

Editor GLOBE:—Please allow me space in your valuable paper to answer "A Word of Advice," in The Times of the 24th inst. The Times man seems to think that all men are open to suspicion if they change their views. Thomas Payne in his "Age of Reason" says: (and all intelligent people agree with him in this) "When you deny me the right to think as I do, you deny yourself the privilege of changing your own opinion." The logical conclusion, then, is that smart men sometimes change their opinion but fools never do.

Four years ago, when Bryan and McKinley ran their first race, both were untried men in the capacity of chief executive. At the present time things are different. Mr. McKinley has been tried and found wanting. He has shown himself to be anything but what he ought to be, and this is the reason why such men as David Bennett Hill propose to support Mr. Bryan this year.

Mr. Hill stands just where he did four years ago on the money question; but, contrary to the Times, "The political situation of to-day is not in all essential particulars precisely the same as it was in 1896." If it were so, Mr. Hill would be just where he was then. The money question is not, strictly speaking, a party question. The many divisions in the two old parties on the money question prove this fact. But no man who believes in that immortal document, The Declaration of Independence, can sanction the actions of the present administration in the Philippines or Porto Rico. Mr. Hill and his colleagues are patriots, and they believe that human liberty and human happiness are to be considered before the almighty dollar.

What the McKinley administration did in Porto Rico the British Parliament tried to do with our forefathers in 1700. If Mr. McKinley is re-elected, the American people will have acknowledged the right of the party in power to make laws discriminating against different sections of our own country, and no thinking man can believe for one moment that such a course will be anything but disastrous.

During the four years of McKinley's administration the Republican papers have done everything in their power to injure Mr. Bryan. Even professed democrats tried to make him believe he would gain influence by making a few concessions to some of the political bosses. But no, he was fighting for a principle, not for popularity. It is this fact that has made Mr. Bryan one of the best-known and one of the most popular men of the day.

In Matney precinct, with a registration of less than fifty voters, there are two old line Republicans that will support Bryan; in Condon, two blocks from the Times office, is another old line Republican who has forsaken the Republican party, not because he is any less a republican than he always was, but because the republican bosses have no regard for the rights of the common people. No, no, friend Christie, the political issues of to-day are not precisely the same as they were in '98. Bryan and the Democratic party stand for human rights and human liberty. The United States has no more right to buy the Philippines of the Spanish government than the people of the South had to buy their negroes of the slave fends.

We wish the Times all deserved success, and we believe its editor means well enough, still we do not think any one raised as a British subject is a proper person to teach American politics.

Chamberlain's Cough Remedy a Great Favorite.

The soothing and healing properties of this remedy, its pleasant taste and prompt and permanent cures have made it a great favorite with people everywhere. It is especially prized by mothers of small children for colds, croup and whooping cough, as it always affords quick relief, and as it contains no opium or other harmful drug, it may be given as confidently to a baby as to an adult. For sale by The Hudson Pharmacy.—C. W. Crossfield, mgr.

LONE ROCK.

The weather has been quite warm the past week.

John M. Brown and Andrew Neel have been over in Grant and Wheeler counties for the past ten days. They started out to buy a few thousand stock sheep.

P. L. Ham has returned from his trip in the Wagner country. He brought back most of his goods, turned his mules out and swore off trying to be a "Jew" peddler.

Rev. Martin, of Long Creek, brought Dr. Dodson over to our burg the first of the week, and we are creditably informed that the doctor is making arrangements to locate among our people.

Six or seven bucaeros from the Waterman Flat country stopped here Saturday night. They had been to Heppner delivering about 600 head of horses which were sold to Eastern buyers at \$15 per head.

Mr. A. Crawford has just expended about \$250 putting the finishing touches on his farm house. Mr. Roener did the carpenter work, and Mr. Little, of Arlington, did the painting and papering. The building now has an attractive appearance.

The new Lone Rock-Heppner road is completed up Sweet Milk canyon and, by using Geo. Perry's private road, on this side of Rock creek, teams can now pass without much difficulty. We hope to see the balance of the road on the west side completed within 30 days.

You assume no risk when you buy Chamberlain's Colic, Cholera and Diarrhoea Remedy. The Hudson Pharmacy will refund your money if you are not satisfied after using it. It is everywhere admitted to be the most successful remedy in use for bowel complaints and the only one that never fails. It is pleasant safe and reliable.

OLEX.

Vol Huber is working in the blacksmith shop with J. F. Thomas. The shop is doing a rushing business these days.

Fremont Wade and wife have been in Arlington for the last two weeks with their little daughter, Bessie, who is seriously ill with typhoid fever.

Mrs. W. L. Tobey returned home last Friday from Eugene, and now W. L. is going around gringing like a newly married man.

W. W. Weatherford has sold his farm to E. O. Tobey. Ed. now has the largest wheat ranch in the county, if not in all Eastern Oregon.

Mr. Kizer has been repairing damaged portions of the road, which were caused by the recent water-spout. He finds plenty of work in our vicinity.

A petition was circulated last week asking for license to establish a saloon here, but it met with a spirited objection in the shape of a remonstrance. Now is the time for temperance people to show their loyalty to family, friends and community. Why should we establish an institution among us which is an injury, directly or indirectly, to every citizen.

Cured of Chronic Diarrhoea After Thirty Years of Suffering.

"I suffered for thirty years with diarrhoea and thought I was past being cured," says John S. Halloway, of French Camp, Miss. "I had spent so much time and money and suffered so much that I had given up all hopes of recovery. I was so feeble from the effects of the diarrhoea that I could do no kind of labor, could not even travel, but by accident I was permitted to find a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and after taking several bottles I am entirely cured of that trouble. I am so pleased with the result that I am anxious that it be in reach of all who suffer as I have." For sale by The Hudson Pharmacy.—C. W. Crossfield, mgr.

Mrs. Kargl this week took charge of the Model restaurant and lodging house, and will conduct the same in the future.

Fix's bowling alley will be the main point of attraction—outside of the court room—in Condon during court week.
