The murderers first entered the Mawley homestead, at Gelgadia, where several young ladies were living. The inmates were killed in their beds. The blacks, after the terrible butchery, fled through the settlements on stolen horses, murdering and robbing as they went. They were chased by 1,000 volunteer policemen and 12 bloo-hounds, and one out of six of the gang only had been caught at latest advices, as the murderers stole fresh horses in every town. The bodies of their victims were mutilated with batchets.

INDIANS PERISHING.

Washington, Sept. 7 .- Captain Tut; tle, of the revenue service, in charge of Expected Storm Strikes the the cutter Bear, reports to the treasury department form Nome, August 2, on the operations of his vessel since July The report relates principally to the condition of the natives along the MUCH DAMAGE TO PROPERTY Alaskan coast and the adjacent isl-

ands. At Sinrock the surgeon of the vessel, who was sent ashore, reported that measles were epidemic, and that pneumonia was prevalent and fatal. At Teller Station, where the government has a reindeer station, much sickness and many deaths among the natives was reported. At Cape York the same fatal sickness was found among the natives. Going on to Cape Prince of Wales, practically the same desperate condition was found to exist as at bay and Port Clarence. Everywhere the vessel touched officers were sent ashore to investigate the condition, and reported that the natives never had been in a worse condition.

At Teller Station affairs were desper ate. Fully one-half of the natives around the station have died. In some cases whole families have disappeared, and in others the parents have died, leaving helpless children. The salmon are running, but there are not sufficient number of well people to catch them and thus provide food for the present and the coming winter. The ravages of the disease have been so great that a dead are left unburied in their houses. In their distress the natives in the

vicinity of Teller are collecting there for food and medical attention. T. T. Bevig, although not a physician, has set up a few tents and is running a temporary hospital, having 12 sick and 12 orphan children under his care, versity, and prominently identified days materialized today and all the furnishing them with food as best he with many important railroad and comcan. He is said to be in great need of pilot bread, flour and clothing for the natives in extreme distress. There is said to be no record during the last 50 years of the degree of destitution that now prevails upon the whole Behring sea coast.

Captain Tuttle concludes his report as follows:

"At a conference with Governor Brady, of Alaska, and J. E. Evans, special agent of the treasury, Dr. Sheldon Jackson and myself, in reference to the deplorable condition of the natives north of Unalaska, it was declared that relief must be afforded them or they would perish from cold and starvation during the coming winter. I offered to fill the Bear with whatever could be procured to distribute north of Cape Prince of Wales. Special Agent Evans at once ordered a load, which was put on board. I steamed to Unalaska to get some stores

to be put on board." Captain Tuttle says he is going to to attend to the government business. He reports that the natives are cured their winter supply of food Captain Tuttle says he believes that if it were not for the little relief he is taking to them on his present trip, there would not be 10 per cent of them

Houston, Texas, Sept. 11.—The West Indian storm, which reached the gulf coast yesterday morning, has wrought awful havoc in Texas. Reports are conflicting, but it is known that an apother places. From that point the Bear proceeded to East Cape Village, Galveston, where it is reported, a Siberia, and thence to St. Lawrence thousand or more lives have been blotted out and a tremendous property damage inificted. Meager reports from Sabine Pass and Port Arthur also indicate a heavy loss of life, but the reports cannot be confirmed at this

The first news to reach this city from the stricken city of Galveston was received tonight. James C. Timmins, of Houston, superintendent of the National Compress Company, arrived here disturbance and were sent crashing at 8 o'clock from Galveston. After into the bay, partly filling it with great remaining through the hurricane on mountains of ice. Saturday he departed from Galveston on a schooner and came across the bay to Morgan's point, where he caught a panic has seized the natives, and the train for Houston. The hurricane, of the glaciers. The estimates made by citizens of Galveston was that 4,000 houses, most of them residences, have been de-stroyed, and that at least 1,000 people have been drowned, killed or are missing. Some business houses were also destroyed, but most of them stood, though badly damaged.

The city, Mr. Timmins avers, is a complete wreck, so far as he could see from the water front and from the Tremout hotel. Water was blown over the island by the hurricane, the wind blowing at the rate of 80 miles an hour, straight from the gulf, and forcing the sea before it in big waves. The gale was a steady one, the heart of it striking the city about 5 o'clock yesterday evening and continuing without intermission until midnight last night, when it abated somewhat, although it continued to blow all night. In the bay the carcasses of nearly 200 horses and mules were seen, but no human body was visible.

The scenes during the storm, Mr Timmins said, could not be described Women and children were crowded into the Tremont hotel, where he was seeking shelter, and all night these unfortunates were bemoaning their loss of kindred and fortune. They were grouped about the stairways and in the make another trip north to distribute galleries and rooms of the hotel. Extended 100 Miles Inland.

Houston, Texas, Sept. 11.-The storm that raged along the coast of Texas last night was the most disastrous that has ever visited this section. The wires are down, and there is no way of finding out just what has happened, but enough is known to make it certain that there has been great loss of life and destruction of property all killed, but the majority were killed. along the coast and for 100 miles inland. Every town that is reached reports one or more dead, and the property damage is so great there is no way

of computing it accurately. The small town of Brookshire, on the Missouri, Kansas & Texas, was almost wiped out by the storm. Hempstaed, across the country from Brookshire, was also greatly damaged. Sabine Pass has not been heard from today. Yesterday morning the last news was recevied from there, and at that time the water was sprrounding the old town at the pass and the wind was rising and the waves coming high. From the new town, which is some distance back, it was reported that the water had reached the depot and was running through the streets. Whether the earthquake disturbances which were felt on Lynn canal and at the head of the Yukon river had any connection with similar disturbances at Lituya bay is a mere conjecture, but according to information brought out by the steamer Bertha, a vast amount of damage was done at the latter place. Five Indians are known to have been killed.

The news was brought from Lituya bay to Yakutat by Indians in canoes. The disturbances there occurred on August 11, one day after the earthquake shocks above referred to. They apparently proceeded from the district in which Mount St. Elias and Mount Fairweather are situated. On August 11 two heavy shocks were felt, according to the Indians. The second shock created great havoc, as well as destroying five lives. The Indian informants told persons at Yakutat that five of the immense glaciers which head into Lituay bay weree dislodged by the

The five Indians are reported to have been killed on a small island situated out about a mile from the face of one and were drowned by the great rush of water which swept over the island when the ice rivers crashed down into the bay.
