Spreading of the Revolt in

PEAR OUTBREAK IN THE CITY

Six Districts in the Wel Hai Wel Pre feeture Are Now in the Hands of the Bebels.

Hong Kong, Oct. 15 .- The reformer Sun Yat Sen, according to dispatches from Canton, has unfurled the reform flag in the important town of Wei Chon, on East river. This act has given rise to considerable excitement in military circles in Canton, as it is believed the object in raising the flag in Wei Chou is to denude Canton of troops, so that they can seize the city.

London, Oct. 15.—The Times has the following from Hong Kong: "The situation in the Wei Hai prefecture is serious. In six districts the cities are in the hands of the rebels. If an outbreak should occur in Canton, its suppression would be difficult.

Berlin, Oct. 15 .- A dispatch received here today from Shanghai cays a very serious view is taken at Field Marshal Count von Waldersee's headquarters in Tien Tain, of the revolutionary movement. At Canton a false alarm October 7 caused the Chinese officials to protest asginst any occupation of Chinsese territory. The Yangtse vice-roys, the dispatch adds, openly affirm that they will oppose any advance of the Germans into Shan Tung province.

CENSUS OF PORTO RICO.

Only 25 Per Cent of Population Educa-Washington, Oct. 15,-The recent census of Porto Rico has developed the act that there are 201,071 males of voting age in the island, but that only 25 per cent are educationally qualified to vote. The native-born whites of the island number 120,295, and the colored natives 78,010. The Spaniards who now live in the 'island number 5,662, and whites born in other countries are 2,104.

Of the whites of Porte Rican birth, 35,397 were literate, forming 29.4 per cent of this class. Of the colored, 12,-576 could read, or 17.2 per cent of the race. Under the educational voting qualification, therefore, the number entitled to vote in the island would be 47,973, or 25 per cent of the native-born males of voting age, and 24 per nt of all males of voting age.

In the cities of San Juan and Ponce is concentrated a consderable part of the foreign element of the island, and British ministerialists hold 357 seats here, if anywhere, will the restriction of the suffrage to the literates give the foreign-born an advantago. It is well, therefore, to examine the conditions in these two cities. In the cities of San Juan and Ponce the number of persons 21 years of age and over, and who can Mgr. Chapelle argues for retention of read, are distributed as follows: In Spanish-born, 592 born in other tries, and 1,822 colored. In Ponce there are 2,190 native whites, 409 Spanish-born, 268 born in other coun-

tries and 1,265 colored. It appears that in the city of San Juan the native whites and the colored each outnumber the foreign element. Philadelphia, Oct. 13 .- A suit to re cover insurance upon the life of his wife, whom he killed December 31, 1893, has been commenced in this city by Professor S. C. Shortridge, who is now residing at Kennett square, in Chester county. The suit, which is to recover the sum of \$77,022 from the Provident Life & Trust Company, is one of the most remarkable in the history of life insurance. The tragedy which ended the the life Mrs. Shortridge was enacted in Media. Several years before Professor Shortridge had come to Media with his wife and family, and established what was known as the Media academy for young men. For several years the venture was successful, the school having a high-class

atronage. Then Mrs. Shortridge died. In November, 1893, Professor Shortridge married Miss Dixon Jones. Shortly after his second marriage, the professor began to act strangely. The night of the killing, six weeks after the marriage, Professor Shortridge in vited his wife to go out with him for a walk. A short distance from the house he shot her through the heart and then attempted suicide, but was disarmed. In the trial which followed, Professor S'ortridge was acquitted on the ground of insanity, and was confined in an asylum until a year ago.

Havana, Oct. 13 .- At Matanzas vesterday a Cuban policeman interfered with two members of the Second United States cavalry. The quarrel culminated in a general fight between the po-lice and soldiers, who arrived upon the cene simultaneously. After the police had shot Trooper Turey, of Troop D, one other soldier and one civilian, a number of troopers of troop D tried to break into the gun room to get their weapons, but the quick action of Captain Foltz of troop D in forming troops L and M in skirmish order made it impossible for the excited cavalrymen to have been slightly hurt while endeavoring to quiet the men. The troopers declare they will have revenge, and Captain Noies has ordered all confined to the barracks. The feeling is strong between the Cubans and cavalrymen.
