

NOTICE

The Globe invites correspondence from all its friends of Gilliam county. We desire to make the paper the leading news medium of the county...

The Oregonian stands in great danger of being annihilated by an obscure paper in a town called Condon, in this state.

The editor of the Standard has become so accustomed to covering "the object of his hatred (Shutt) with large quantities of vituperation" that he falls into the common error of accusing others of being guilty of his own besetting sin...

The people of the different neighborhoods lying adjacent to Condon should make an effort to have Rural Free Delivery mail routes established. Other sections of country are getting this convenience...

Among the tens of thousands who have used Chamberlain's Cough Remedy for colds and influenza during the past few years, to our knowledge, not a single case has resulted in pneumonia.

We find the following gem going the rounds of the press, without credit: "Remember this, young man, be careful what you say about a woman's character. Think how many years she has been building it of the toils and privations endured of wounds received, and let no suspicion follow her actions."

Stops the Cough and works off the Cold. Laxative Bromo Quinine Tablets cure a cold in one day. No Cure, No Pay. Price 25 cents.

SOME ANCIENT HISTORY.

The man who orders buckwheat cakes for breakfast, although aware that that article of diet has seen long and faithful service, will probably be surprised to learn just how far back the cultivation of buckwheat on Manhattan island dates.

Wheat was first sown in Massachusetts as early as 1602, and it was first cultivated in Virginia in 1611.

Rye, in New England, dates back to 1648, and perhaps to 1630, and oats and barley to Gosnold's colony in 1602.

It will probably surprise a good many persons to know that Plymouth colony cultivated potatoes as early as 1620. Massachusetts raised one of its favorite products, beans, as early as 1602, but it was not until 42 years after that date that Manhattan and Virginia began their cultivation.

"Ten fair pippins," plucked from trees planted on Governors island, in the harbor of Boston, on October 10, 1630, were probably the first apples raised in this country, and the first nursery of young fruit trees ever planted here was that on Governor Endicott's farm in Salem, now Danvers, Mass., in 1640.

TO CURE A COLD IN ONE DAY. Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

To the Consumers of Gilliam County:

We desire to state that we are determined to reduce our large stock of goods and for the next 90 days will make great reductions in all lines for cash.

By referring to your local papers you frequently note the ad. of interior merchants who, with conspicuous signs, say: "We sell at Arlington prices." Is this not evidence that the Arlington merchants must lead in low prices or there would be no need for such statements?

In agricultural implements we have the favorite Monitor Drills subject to four attachments, viz: hoe, disc, press wheel or shoe.

The Oliver and Flying Dutchman Plows are hard to beat for good clean work, durability and lightness of draft.

It is no longer an experiment to buy a Dahn or Stoughten wagon, as they have but few if any competitors when strength and light-running qualities are considered.

If you anticipate treating yourself to a new buggy or hack do not purchase until our new carload of the old reliable Bucine rigs reach us, which will be here in September.

When in need of a chop mill, hay press, windmill, sewing machine, or any kind of machinery used on the farm, write us for prices and we will treat you right.

Address all communications to the firm at the old James W. Smith store.
