

THE GLOBE

THURSDAY, JANUARY 17, 1901. THE OFFICIAL PAPER OF GILLIAM COUNTY, OREGON.

LOCAL NEWS.

Mrs. Clarence Palmer is down with the fever. A social dance will be given at Ajax tomorrow evening. T. L. Portwood went to Portland Monday on a business trip. Every seat in both rooms of the public school was filled Monday. Miss Lilla Clarke was quite ill the first of the week with tonsillitis. Mrs. Al Henshaw is on the sick list this week with symptoms of fever. Regular services at the Baptist church next Sunday; Sunday school at 3 P. M. Rev. Curran will conduct the regular preaching services in the Congregational church next Sunday. Rev. Curran did not go to Ione last Sunday owing to a severe cold that left him unable to talk. G. W. Courts Jr here from Montana. He will spend the winter here and may decide to locate permanently. Geo. Hardie, the well-known sheepman, was in Monday from Ferry Canyon, where he is wintering his sheep. The debate between Elder Goodwin and Rev. Bramblet in the Baptist church this week is drawing large crowds and much interest is manifested. E. P. Weir, the well-known Arlington merchant, went north on Monday's stage on his way home from a trip to his ranch near Mayville. Ed Temple was removed from Prof. Neal's residence to his own room in the Parazo building yesterday. He seems to be in for a sojourn of typhoid. Henry Murphy, a merchant of Monument, arrived here yesterday to assist in nursing his sister, Mrs. Carter, and her son Charlie, who are down with typhoid. Dr. Pilkington has sold his drug store and professional practice to Dr. J. H. Hudson, of The Dalles. Invoice of the stock is being taken and Dr. Hudson will take charge in a few days.—Antelope Republican. John Beach, a former resident of Lone Rock, was in town Tuesday night on his way to his old home on a business trip. Mr. Beach is now a resident of Washington county, where he is an extensive farmer and stock raiser. He still owns some stock interests in this county, in horses and cattle, which are looked after by John Maddock, of Lone Rock.

HOMESTEADERS ATTENTION!! The GLOBE will publish your final proof notices for \$2.50. You now pay \$7.50. When ready to make proof ask the Land Office officials to send your notice to this paper that you may save this money. Five dollars saved, in this way, is better than \$5.00 earned raising 40 cent wheat; it's so much easier you know. Call at this office and we will tell you all about it.

ROCK CREEK, Frank Brown was busy the first of the week looking after his sheep. Jean Forrest was on the creek a few days ago looking after horses. Miss Kate Schott has returned to The Dalles to attend the Sisters' School. Harry Fletcher has erected a new dwelling on his ranch on the creek. Price Cochran has returned from Harney county and will remain until spring. The grand ball which was given at Walter Zerby's was a grand success and all present enjoyed themselves immensely. Robert Spencer, the prosperous farmer of Snowshoe, was on the creek Saturday. He has found plenty of water in his new well which he is drilling on his farm.

LONE ROCK. Rev. I. D. Brown returned from Condon last Thursday. The snow has about all gone in the valley, but considerable remains yet on the adjacent hills. Miss Grace Fitzwater is seriously ill from a general breaking down of her system. Dr. Dodson is in attendance with her. A most terrific wind storm came from the south and swept over this country towards the Columbia last Thursday. Many old timers kinked up their backs and said it was the worst storm for many years in this locality. Last Saturday evening Mrs. J. B. Goff was seized with a severe pain in her head, and Dr. Dodson was summoned and he pronounced the almost crazed woman to be suffering from hemorrhage of the brain, and said there were many chances for it to prove fatal. However, by Monday evening her condition had improved considerably and the hopes of her family and many friends are strengthened for the better.

Bucklen's Arnica Salve Has world-wide fame for marvelous cures. It surpasses any other salve, ointment or balm for Cuts, Corns, Burns, Boils, Sores, Felons, Ulcers, Tetter, Salt Rheum, Fever Sores, Chapped Hands, Skin Eruptions; Infallible for Piles. Cure guaranteed. Only 25c at Condon Drug Co.'s.

WILL INCORPORATE.

Action Taken at Railroad Meeting Last Saturday. Incorporators Elected.

A lively interest was manifested in the railroad meeting last Saturday and some good work was accomplished. The committee on permanent organization which was elected at the previous meeting had completed its labors and submitted the following report: "At a meeting of the committee appointed by a mass meeting held in Condon, Ore., January 5, 1901, F. W. Tobey was elected chairman, and H. L. Propst secretary. On motion it was recommended that an incorporation be formed with a capital stock of \$100,000, and that five incorporators be elected by the mass meeting held on January 12, 1901. On motion it was recommended that a collection be taken at the mass meeting on Saturday, Jan. 12, 1901, of about \$100 to defray the expenses of two men to be sent to Portland to procure figures on an electric, narrow or standard gauge railroad, said men to be selected by the incorporators; also to employ an attorney to draw up incorporation papers, and purchase stock books. We recommend that A. S. Bennett be employed to draw up incorporation papers. On motion it was recommended that the shares be placed at \$50.00 per share. "On motion it is recommended that the name of the railroad be 'Columbia Inland Railroad.' H. L. Propst, Secretary. F. W. Tobey, Chairman. The report was read and adopted by sections, and after a prolonged discussion was adopted with some unimportant changes. The meeting then proceeded to the election of five incorporators, the following named gentlemen being chosen: W. S. Myers, W. J. Mariner, W. J. Edwards, Fred Tobey and S. B. Barker. Immediately after the mass meeting adjourned a meeting of the incorporators was held, when W. J. Mariner and Fred Tobey were chosen to go to Portland and investigate the various propositions. A subscription was raised to create a fund to defray the expenses of these representatives. Altogether the meeting was a great success and all friends of the measure feel encouraged by the lively interest which is being manifested. The meeting adjourned to meet at the call of the incorporators at as early a date as it is possible to report.

Three-Fourths of a Century. On Tuesday of last week a jolly company of about 25 persons gathered at the hospitable home of Mr. and Mrs. C. W. White, at Papersack, this county, to assist in celebrating the 75th birthday of Mr. White's father, Squire Wilkinson White.

No jollier company ever gathered at a more hospitable home to be welcomed and entertained by more pleasant hosts and hostesses, and for the time dull care and business worries were laid aside completely and a lot of people devoted themselves to having a good time and to making an old man feel young again. Squire White and his family emigrated from England directly to this county over 20 years ago and they brought a full stock of genuine English hospitality with them, the kind Dickens so faithfully portrays in his stories, and their substantial home, one of the finest stock ranches in Eastern Oregon, has long been proverbial for that quality. The glimpse which Dickens used to give his readers into the Wardle household larder will not compare with that birthday dinner, but its profusion was almost equaled by the immensity of the appetites of the guests—especially of the Condon delegation. Mr. White received many tokens of remembrance from his friends, as well as countless congratulations on having reached his 75th milestone, with wishes for many happy returns of the day. Those present besides the family were: Mr. and Mrs. Stephenson, Van Vactor, Wilcox and Pattison, Miss Parrish, Messrs. Labous, Connolly and Nicklin, of Condon; Mr. and Mrs. Geo. Iremonger, of Fossil; Mr. and Mrs. Alex Hardie and Mr. and Mrs. Russell, of Trail Fork, and Messrs. Codd, Trevett and Underwood, of Papersack. The party broke up Wednesday forenoon, and the finest sleighride of the season was enjoyed on the return trip, a portion of the guests, including the writer, enjoying the hospitality of Mr. and Mrs. Alex Hardie en route.

Sherman County Wisdom. From Observer. Gilliam county is wisely cogitating a Court House at Condon like the one Sherman county has in Moro. Senator Stelwer says one of the same pattern will also go up in Fossil. Both are in need of such buildings. Arlington business men, and Gilliam farmers, are invited to put up \$12,000 or \$15,000 for a flouring mill—then turn it over to "a capitalist" to run. Why not turn it over to a boy, after they've built it, and run it themselves. The Prineville Journal had a book printed in Portland which it sent out as an annual, giving a fair history of Crook county and its resources, well illustrated. Such publications never produce returns to justify the expense without soliciting money from outsiders to aid the scheme. Moro has been chewed and clawed over in this way a time or two, but not by The Observer.

The Hudson Pharmacy guarantees every bottle of Chamberlain's Cough Remedy and will refund the money to anyone who is not satisfied after using two-thirds of the contents. This is the best remedy in the world for la grippe, coughs, colds, croup and whooping cough and is pleasant and safe to take. It prevents any tendency of a cold to result in pneumonia.

To Seek Health.

James Dunn left yesterday morning for Phoenix, Arizona, accompanied by his nephew, Jim Burns. Mr. Dunn has been in delicate health for the past year, and this winter his condition has been such that his attending physician, Dr. Wood, advised a change of climate. The trip will be made via Ogden and Salt Lake. There is good reason to believe that the pure dry air of that section will prove beneficial, and Mr. Dunn's many friends here unite in wishing him a speedy recovery to health and strength.

Normal Schools.

EDITOR GLOBE:—In your issue of the 10th inst. you copied an article from the Portland Telegram on "Normal Schools." Please give me a little space in your valuable paper to express a thought or two on this question, which apparently has two sides: The article quoted has a smack of Portland selfishness in it. It is perhaps true that the Oregon Normal Schools are not up to the standard. They are perhaps costly and should make a better showing; but this does not argue well against the system. The Telegram would have the state stop spending money on the Normal Schools at Weston and Monmouth and spend it at some point between Albany and The Dalles—that is at Portland. Is it not a fact that a dozen Normal Schools can be established in as many country towns in the state, with no more money for all together than would be necessary to build one in Multnomah, befitting the dignity of Portland? Again, Portland with its enormous wealth (which wealth, after all, is only the money drainage from the country) maintains a very excellent High School, giving her citizens an opportunity to secure for their children a better education than the common schools afford, without sending those children hundreds of miles away from home to some Normal School to get it. Now, away out in the sparsely settled counties of the state it is a difficult matter to maintain or find even a good graded common school, and if the advantages of a better education is wanted the youth must necessarily be sent hundreds of miles away at an expense that few can afford. The Normal Schools supply this want, and the state owes it to its citizens and to posterity that these schools be established. It may be that their quality is not up to a high standard, but they certainly are an improvement over the local common schools, and their quality will grow and keep pace with the growth of the state. They are not started for the purpose of booming a town, but to supply a better school within a hundred miles or so of home and to fit teachers well acquainted with the characteristics of the country in their immediate vicinity to take up and better the work of the common schools. The effort to locate a Normal School at Burns is a laudable one. That section of the state needs one and the Legislature would be doing a simple act of justice and wisdom to assist such a school at that point. I do not believe in legislative extravagance or wastefulness, but I do believe there is very little danger that too much money will be expended for schools, even Normal Schools. L. W. DARLING, Condon, Or., Jan. 13, 1901. Mrs. Maddock is on the sick list with symptoms of fever. Miss Pearl Fitzwater commenced a term of school on Matney Flat Monday.

His Wife Saved Him. "My wife's good advice saved my life," writes E. M. Ross of Winfield, Tenn., "for I had such a bad cough I could hardly breathe, I steadily grew worse under doctor's treatment, but my wife urged me to use Dr. King's New Discovery for Consumption, which completely cured me." Coughs, Colds, Bronchitis, La Grippe, Pneumonia, Asthma, Hay Fever and all maladies of Chest, Throat and Lungs are positively cured by this marvelous medicine. 50c and \$1.00. Every bottle guaranteed. Trial bottles free at Condon Drug Co.'s.

PUBLIC SALE OF PERSONAL PROPERTY. The undersigned, administrator of the estate of James Nixon, dec'd, will sell at public auction on Monday, January 21, 1901, the following described property, to-wit: Five work horses, 1 unbroke mare, 1 wagon and rack, 1 gang-plow, 2 sets harness, 1 stove, 2 chairs, stretchers and eveners, bedding, household goods, wagon sheet, wood tools, old harness, saddle, barrels, 78 acres of summer fallow, sown, 2 straw stacks, about 450 bushels of barley, and about 350 second-hand grain sacks. Sale will take place on the A. D. Haley ranch, east of Mayville Flat school house. Terms: Cash or note with approved security on six months' time. C. J. QUINN, Administrator of the estate of James Nixon, deceased.

Job Printing Of all kinds done on the shortest notice and at reasonable rates. Nothing too large, nothing too small. Globe Office.

Typhoid Cases.

Mrs. Carter and her little son Charlie, who are both down with typhoid fever at Prof. Neal's home, are getting along nicely under Dr. Wood's treatment. Miss Massee, a trained nurse, arrived from Pendleton Monday to take charge of the nursing of both cases. Every member of Prof. Neal's family, except Mrs. Neal, has had the typhoid fever, and Ed Temple, who assisted in nursing some of the cases, is also sick with symptoms of the same disease. There seems to be no longer any doubt that typhoid is epidemic in Condon, and unless vigorous measures are taken to improve the sanitary conditions of the town it may be expected that a worse form and more cases will develop next summer than has existed during the last few months.

School Notes.

BYRN SPRINGERS, School Editor. Visitors to our school are always welcome. The fourth grade is working in Multiplication. Prof. Neal's little daughter is much improved. Miss Barker visited our school Wednesday morning. Lydia Pitter is absent from the primary room on account of sickness. The third grade is reading "Book of Cats and Dogs" for supplementary reading this week. Division A of the eighth grade is working in "Rules of Syntax," and division B in "Tense." Charlie Carter, Lilla Clarke, Jennie Neal and Belle Campbell are absent from the principal's room this week on account of sickness. The seventh and eighth grades are working in "Chronological Review of the Fourth Epoch in History" and "Nouns in Their Language." The literary society met last Friday evening at 7:30 o'clock. Owing to so many of the speakers being absent the two champions debated alone, the question being decided in the negative. The question for debate next Friday night is: Resolved, That wood is more useful than iron to the American people. The little folks are going to debate, and it would encourage them to have their parents and friends come out to hear them.

Stops the Cough and works off the Cold. Laxative Bromo-Quinine Tablets cure a cold in one day. No Cure, no Pay. Price 25 cents.

A Slight Blaze.

During the terrific wind storm which prevailed most of the day last Saturday the roof of P. L. Morrell's residence, on the hill on the East side, became ignited from a defective stovepipe, and but for prompt action on the part of the hose team and citizens generally the building would have been destroyed. An alarm was sounded and in a short space of time a line of hose was laid from the fireplug at Tom Portwood's corner up the hill to the burning building. Had it not been that the roof was pretty thoroughly soaked by recent rains and melting snow it is doubtful if the building could have been saved on account of the high wind. All's well that ends well, however, and Mr. Morrell's example of having a new fire put in the building should be imitated by all his neighbors who yet cling to the festive stovepipe.
