

Who said that about Winter Tuggering in the lap of Spring? He is no liar anyhow.

Why let New York, Chicago, and Portland get away with all the Carnegie millions? What's the matter with Condon, claiming her share?

When Pier Johnport Morgan and his big railroad combine comes to Condon to "absorb" our Columbia Island he would better have his wensel-skin along. No jaw bone will go here.

And now the American missionaries in China are demanding a public retraction from Mark Twain, the great American humorist, because of alleged libelous matter published by him about one of their number. Even preachers and phunny men seem to have troubles of their own as well as editors and other ordinary mortals.

The report comes from Boise that an Oregon editor almost drowned while taking a bath in the Natatorium at that place recently. This should serve as an awful warning to all Oregon editors when they go away from home not to fool around water but to stick to something they are used to—cocktails for instance. As to bathing, it may be all right for people who are accustomed to it but the uninitiated had better let the new fad alone.

Just to prove that this is the 20th century and that 20th century young people are strictly up-to-date and fiers' to boot, a couple were married on the west-bound train between The Dalles and Hood River the other day at a speed of 40 miles an hour. An appropriate form of ceremony for this occasion would have been that used by an early day Texas minister when making happy a run-away couple who were closely pursued by an irate father and a big shotgun. It was like this: "Join hands. Have her?" "Yes." "Have him?" "Yes." "Married; \$10."

OLD AGE PENSIONS. New Zealand is a pioneer in governmental experiments. The little country has tried many innovations, and claims to have found them all highly satisfactory. Whether or not any of them would be practicable in such a country as the United States is not certain, but, still, people here are interested in these experiments made to improve the condition of the people. One of the innovations introduced in New Zealand is an old age pension. The government takes it upon itself to see that every person over 65 years of age has an income of as much as \$260 a year. The law was enacted two years ago and it is claimed it is producing most satisfactory results. The pensions are granted under carefully arranged conditions, one of which is that the applicant shall have been sober and reputable during at least five years immediately preceding the application. There are other provisions which aim to make enjoyment of the government's bounty dependent on a measure of good character and abstinence from the vices that wreck so many individuals. The law applies to both men and women, and an aged couple may draw enough to make their income \$520 a year.

It is certainly a pretty idea that the New Zealanders have hit upon. There are great multitudes of people who arrive at the period of old age without a competence. In many cases it is their own fault, the earnings of their lives having been squandered, but in other instances without number the individuals are

Millions Given Away. It is certainly gratifying to the public to know of one concern which is not afraid to be generous. The proprietors of Dr. King's New Discovery for Consumption, Coughs and Colds, have given away over ten million trial bottles and have the satisfaction of knowing it has cured thousands of hopeless cases, Asthma, Bronchitis, La Grippe and all Throat, Chest and Lung diseases are cured by it. Call on the Condon Drug Co. and get a free trial bottle. Regular size 50c and \$1.00. Every bottle guaranteed.

NOTICE TO HORSEMEN. My fine stallion, Don Pedro, will make the season, beginning April 1st, at my ranch, 3 miles north of Condon, Or. Terms: Single service, \$5; season, \$8; insurance, \$10. Due care will be taken, but I will not be responsible for accidents. This fine horse is also for sale or trade. J. W. Eganer, Condon, Or.

not to blame. In one way or another these have missed making money, or, making it, have lost it through no wrong-doing on their part. Tens of thousands of such men have been useful citizens and have worked faithfully all their lives, but when the breath of age blasts their capacity for work they are left with nothing for their support. If they have children they can fall back on them and it is altogether proper that their children should care for them. If they have none of their own blood on whom to depend, they must find asylum with old friends who will make pensioners of them, or "go over the hill" to the poor house.

One of the first things taught children in all well regulated families is to be considerate of old age. The child is admonished to be thoughtful always for the comfort and convenience of the gray haired. It is a beautiful sentiment that is inculcated in the minds of the young, but it is pertinent to ask, Should not the community—that is, the state—practice the precept that is taught? New Zealand thinks it should; it is doing so, and its policy can not fail to arouse the admiration of the people in every land.—Boise Statesman.

"A neighbor ran in with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy when my son was suffering with severe cramps and was given up as beyond hope by my regular physician, who stands high in his profession. After administering three doses of it, my son regained consciousness and recovered entirely within twenty-four hours," says Mrs. Mary Haller, of Mt. Crawford, Va. This Remedy is for sale by The Hudson Pharmacy—C. W. Crossfield, mgr.

Mr. and Mrs. Herbert Halstead returned yesterday from a visit to Portland. Mrs. Belle White is seriously ill at her home at Trail Fork.

School Notes. JESSIE NEAL, School Editor. Jennie Babling was elected organist for the ensuing month. Gertrude Shannon has returned to school after several days absence. Lenna Farrar who has been attending school here this winter, has returned to her home in Ferry Canyon. The seventh grade having finished the years work in grammar are now on the review.

The fourth are in long division in Arithmetic and studying about South America in Geography.

A VALUABLE MEDICINE For Coughs and Colds in Children. "I have not the slightest hesitancy in recommending Chamberlain's Cough Remedy to all who are suffering from coughs or colds," says Chas. M. Crauer, Esq., a well known watch maker, of Colombo, Ceylon. "It has been some two years since the City Dispensary first called my attention to this valuable medicine and I have repeatedly used it and it has always been beneficial. It has cured me quickly of all chest colds. It is especially effective for children and seldom takes more than one bottle to cure them of hoarseness. I have persuaded many to try this valuable medicine, and they are all as well pleased as myself over the results." For sale by The Hudson Pharmacy—C. W. Crossfield, mgr.

Pullman Ordinary Sleepers. The tourist travel between the East and the Pacific Coast has reached enormous proportions in the last few years, and calls for a special class of equipment. To meet this demand the Pullman Co. has issued from its shops what it technically calls the "Pullman Ordinary Sleeper." These cars appear similar to the regular sleepers being built on the same plan, but not furnished with the same elegance. They are equipped with mattresses, blankets, sheets, pillows, pillow-cases, towels, combs, brushes, etc., requiring nothing of the kind to be furnished by the passenger. Each car has a stove for making tea and coffee and doing "light housekeeping", and each section can be fitted with an adjustable table. A uniformed porter accompanies each car, his business being to make up berths; keep the car clean, and look after the wants and comforts of the passengers. In each of the trains which are dispatched daily from Portland by the O. R. & N. Co. is to be found one of these "Pullman Ordinary Sleepers". The car attached to the "Chicago-Portland Special" goes through to Chicago without change, and the one in the "Atlantic Express" runs to Kansas City without change. Passengers in this car for Chicago change to a similar car at Granger.

Much of the first class travel is being carried in these cars, the rates being lower, and the service nearly equal to that in the palace sleepers. For rates and full information, including folders, write to A. L. CRAIG, General Passenger Agent, O. R. & N. Co., Portland, Oregon.

RENEW YOUR SUBSCRIPTIONS. Subscriptions for all the leading newspapers and periodicals published in the United States or any other country on earth will be received at the Globe office. Save postage, time and trouble by leaving the amount with us and we will attend to the business for you. Call when in town and renew your subscriptions to your favorites for 1901.

ATTENTION!! The Globe will publish your final proof notices for \$2.50. You now pay \$7.50. When ready to make proof ask the Land Office officials to send your notice to this paper that you may save this money. Five dollars saved, in this way, is better than \$5.00 earned raising 40 cent wheat; it's so much easier you know. Call at this office and we will tell you all about it.

R. L. Smith was in from Ajax yesterday. Frank Labous visited at the White ranch, on Papersack, last week. F. T. Hurbutt, the Arlington and Shabiko banker was in town for a few days last week.
