

NOTICE.

The Globe invites correspondence from all sections of Gilliam county. We also make this paper the leading news medium of the county and invite our readers to assist us by sending in the news of their respective localities.

"One swallow doesn't make a summer" but these cold East winds make a fellow wish it did.

The English army has repudiated American canned meat beef et cetera. What a pity some of the American high officials do not see fit to adopt this phase of Anglo-mania. It would be a God-send to Uncle Sam's bluecoats if they did.

If Oregon is destined to become an oil producing state a law should be passed to prohibit politicians from dabbling in the oleaginous fluid. Most of them are slippery enough now. But, come to think of it, who would pass such a law?

The Boers are phunny phellows. In spite of the fact that they have been licked and captured and cut to pieces and fairly wiped off the face of the earth, times without number, they will persist in bobbing up every once in awhile and capturing 500 or 1000 Englishmen. It must be force of habit with them.

There is a great tempest in the theological tea pot in Portland since Rev. B. Fay Mills delivered his course of lectures and some of the orthodox brothers are vexed. Mr. Mills should know something of the subject since he has "evolved" from straight laced Presbyterianism to liberal Unitarianism. The bible enjoins us to "search all things and hold fast to that which is good" and no doubt Mr Mills believes he has done so. Anyway if he has been a close student during the course of his theological journeyings he should know something about creeds.

NEW NEWSPAPERS.

Commenting on the reported intentions of certain Eastern newspaper men to establish a new morning paper in Portland in opposition to the Oregonian the Spokane Spokesman-Review says: "In 20 years repeated efforts have been made by Eastern newspaper men to establish new papers in Northwestern cities. Failure has attended every effort. This was not because our people were clannish, but because the promoters brought to the effort an insufficient equipment, both of means and knowledge. They mistook for public sentiment the buzzing of a few disappointed politicians and the complainings of a small number of other citizens who had real or fancied grievances and imagined the owners of the new paper would take an enthusiastic interest in helping to redress them.

The result invariably has been mutual disappointment. In most instances, the owners of the new paper discovered that it was not politic to dress old wounds every morning, even if they had the time to squander on individual complainings. In a great majority of cases the complaining citizens forgot their old grievances in the cultivation of new ones against the new paper, and instead of going out to hunt up subscribers, went on the warpath against the new venture."

RURAL MAIL DELIVERY. By a plan recently adopted by the postoffice department many farmers and others in the Inland Empire may be saved their regular trips to country post offices. The idea is in the delivery of mail along all "star" postal routes. The department has conducted a series of experiments in different sections, the result of which have been satisfactory.

Under the new system mail carriers on star routes are allowed to deliver mail from the pouches as they pass from one office to another it being a modification of the rural delivery plan. The system has

The Best Blood Purifier. The blood is constantly being purified by the lungs, liver and kidneys. Keep these organs in a healthy condition and the bowels regular and you will have no need of a blood purifier. For this purpose there is nothing equal to Chamberlain's Stomach and Liver Tablets, one dose of them will do you more good than a dollar bottle of the best blood purifier. Price, 25 cents. Samples free at The Hudson Pharmacy.—C. W. Crossfield, mgr.

been tried in northern Idaho, particularly through the Potlatch country. In Washington it has been tried on several routes in Stevens, Okanogan and Ferry counties.

In sparsely settled districts the star route carrier, using the best roads generally, passes many farm-houses. Tests on delivery to these houses shows that carriers get rid of from 15 to 20 per cent of their burdens, which means that the delivery of so much mail has been expedited by from one to three days, which the department consider a strong factor. Recent orders have increased the number of routes using the system to 25, and others are being added as rapidly as the changes can be made.—Spokesman-Review.

PROTECTIVE TARIFF.

A great many republican papers are advocating a revision of the tariff among them the Salt Lake Tribune. It looks as if, before a great while, the tariff will cease to be a party issue. As public sentiment is drifting, Americans will be about unanimous on the proposition that the great American industries, now so well established that they can successfully compete with all the world, need no protection, and that to give it to them, or rather continue it, is merely giving them the power to charge their countrymen prices away above reasonable profit, and much higher than the prices fixed for the same goods sold to foreign countries. The tariff has wonderfully helped to make these industries what they are, and they are no longer, "infants," but conquering giants, the old arguments in favor of protective tariff are without force, and in the face of present conditions naturally convince the average American of nothing but their absolute absurdity. Dealing with this question of a tariff as a protective measure, the Tribune says:

"Our thought is that the tariff should be revised and removed from very many articles of American manufacture, like steel rails and steel structural work and plenty of other articles.—Idaho World.

School Apportionment.

By the April apportionment of school funds the different districts receive the following amounts: District No. 1, \$139.89; 2, no bond; 3, \$21.33; 4, \$32.73; 5, \$36.53; 6, \$41.85; 7, \$30.45; 8, \$28.93; 9, \$120.13; 10, \$29.69; 11, \$55.53; 12, \$38.05; 13, \$65.30; 14, \$30.45; 15, \$22.85; 16, \$39.57; 17, \$30.45; 18, \$29.04; 19, \$48.89; 20, \$9.12; 21, not reported; 22, \$33.49; 23, \$27.41; 24, \$32.73; 25, \$36.53; 26, \$35.01; 27, \$49.45; 28, \$28.17; 29, \$47.93; 30, \$25.89; 31, \$44.89; 32, \$19.00; 33, \$36.65; 44, \$8.38; 49, \$3.80; 52, \$7.60. Total, \$1319.13.

A VALUABLE MEDICINE

For Coughs and Colds in Children. "I have not the slightest hesitancy in recommending Chamberlain's Cough Remedy to all who are suffering from coughs or colds," says Chas. M. Cramer, Esq., a well known watch maker, of Colombo, Ceylon. "It has been some two years since the City Dispensary first called my attention to this valuable medicine and I have repeatedly used it and it has always been beneficial. It has cured me quickly of all chest colds. It is especially effective for children and seldom takes more than one bottle to cure them of hoarseness. I have persuaded many to try this valuable medicine, and they are all well pleased as myself over the results." For sale by The Hudson Pharmacy—C. W. Crossfield, mgr.

Pullman Ordinary Sleepers

The tourist travel between the East and the Pacific Coast has reached enormous proportions in the last few years, and calls for a special class of equipment. To meet this demand the Pullman Co. has issued from its shops what it technically calls the "Pullman Ordinary Sleeper." These cars appear similar to the regular sleepers being built on the same plan, but not furnished with the same elegance. They are equipped with mattresses, blankets, sheets, pillows, pillow-cases, towels, combs, brushes, etc., requiring nothing of the kind to be furnished by the passenger. Each car has a stove for making tea and coffee and doing "light housekeeping", and each section can be fitted with an adjustable table. A uniformed porter accompanies each car, his business being to make up berths; keep the car clean, and look after the wants and comforts of the passengers. In each of the trains which are dispatched daily from Portland by the O. R. & N. Co. is to be found one of these "Pullman Ordinary Sleepers." The car attached to the "Chicago-Portland Special" goes through to Chicago without change, and the one in the "Atlantic Express" runs to Kansas City without change. Passengers in this car for Chicago change to a similar car at Granger.

Much of the first class travel is being carried in these cars, the rates being lower, and the service nearly equal to that in the palace sleepers. For rates and full information, including folders write to A. L. CRAIG, General Passenger Agent, O. R. & N. Co., Portland, Oregon.
