

THE CONDON GLOBE.

THURSDAY, APRIL 25, 1901.

NOTICE.

The Globe invites correspondence from all sections of Gilliam county. We are to make the weekly and in the our friends to assist us by sending in the news of their respective localities. The writer and accuracy of the publication, but an over-estimate of good faith, and the editor assumes no responsibility for opinions expressed in the columns.

It really begins to look as though Spring is coming after all.

April storms, blizzards and floods are the order of the day in the eastern states and yet eastern people, many of them, continue to believe that the climate of the Northwest is a terror. Queer people.

The pictures of Aguinaldo which have been published in the big papers since he has become a good American citizen are in marked contrast to those published while he was still a bold bad Filipino rebel chief. Then his pictures looked not unlike a Malay pirate or a modern foot-ball player, while his latest looks as genteel as a high toned Sunday School superintendent. Can it be that "benevolent assimilation" has already had such a softening effect on Aggie's physiognomy or is it a trick of the artists who thus hope to gain favor in the eyes of Aggie's new friends and backers?

Organized labor in Portland has refused to take part in the reception which is to be tendered President McKinley when he visits that city next month. The reason given is that "the men who are at the head of the reception committee are politicians and the more workingmen they can get to join with them the more they will be able to 'swell themselves' about their following." This action on the part of organized labor is significant. No disrespect is intended to the chief executive or to the high office he holds but notice is simply served on Portland politicians that the workingmen are "next" to their schemes. When the workingmen everywhere get their eyes opened to the fact that the only time the politician has any use for them is on election day and get together and act on that knowledge, just that soon will the politicians begin to find themselves out of a job.

IMPERIALISM—PAST AND PRESENT.

The soulless, the idolators of treasure and gain without law without labor who are now ruling the destinies of both republics and monarchies, possibly mourn because they were born too late for the time when Rome and Greece ravished the eastern empires, but there is still left a Flowery Kingdom of untold treasures whose millions of simple Asiatics may be despoiled. The day of bleeding and oppressed Poland has passed away, but there is the small, brave but helpless Boer to be devoured in the land of yellow gold and diamonds. We cannot rejoice our ears with the last sigh of the Moor at Grenada, but we can diplomatically lay a trench-coat trail toward hearing the last sigh of the Cuban at no distant day. The sweetness of enjoying the descent of Pizarro on the Incas or Cortez on the Montezumas was alas! not for us, but under the guise of "Christian duty" we can sweep upon the land of the Filipino. And the yet unseized islands of the sea offer a substitute for greater joys of conquest to replace the plebeian plodding that has developed the American nation. There's a poem where a spider seizes a fly, a bird captures the spider, a snake charms the bird, a hawk carries the snake into the sky, an eagle fastens his talons in the hawk and is immediately pierced by an Indian's arrow and hardly falls to the ground until a bear has the Indian in fond embrace. The excuse of each as he glaits over his triumph is: "Thou must fall, For I am great and thou art small!" If that is still the doctrine of the world, if the thirst for conquest and loot is still supreme in our

civilization, what of all the doctrine of inherent rights? If the weak must still fall a prey to the strong, what has been accomplished by eighteen hundred years of Christianity, centuries of search for law in its highest form and repeated consultation between nations for nobler planes of national life?—Weiser (Idaho) Signal.

A VALUABLE MEDICINE

For Coughs and Colds in Children.
"I have not the slightest hesitancy in recommending Chamberlain's Cough Remedy to all who are suffering from coughs or colds," says Chas. M. Cranmer, E. Q., a well known watch maker, of Columbus, Oregon. "It has been some five years since the City Dispensary first called my attention to this valuable medicine and I have repeatedly used it and it has always been beneficial. It has cured me quickly of all chest colds. It is especially effective for children and seldom takes more than one bottle to cure them of hoarseness. I have persuaded many to try this valuable medicine, and they are all well pleased as myself over the results." For sale by The Hudson Pharmacy—C. W. Crossfield, Mgr.

Asthma, Bronchitis, La Grippe and all Throat, Chest and Lung diseases are surely cured by it. Call on the Condon Drug Co., and get a free trial bottle. Regular size 50c and \$1.00. Pullman Ordinary Sleepers

The tourist travel between the East and the Pacific Coast has reached enormous proportions in the last few years, and calls for a special class of equipment. To meet this demand the Pullman Co. has issued from its shops what it technically calls the "Pullman Ordinary Sleeper." These cars appear similar to the regular sleepers being built on the same plan, but not furnished with the same elegance. They are equipped with mattresses, blankets, sheets, pillows, pillow-cases, towels, combs, brushes, etc., requiring nothing of the kind to be furnished by the passenger. Each car has a stove for making tea and coffee and doing "light housekeeping," and each section can be fitted with an adjustable table. A uniformed porter accompanies each car, his business being to make up berths; keep the car clean, and look after the wants and comforts of the passengers. In each of the trains which are dispatched daily from Portland by the O. R. & N. Co. is to be found one of these "Pullman Ordinary Sleepers." The car attached to the "Chicago-Portland Special" goes through to Chicago without change, and the one in the "Atlantic Express" runs to Kansas City without change. Passengers in this car for Chicago change to a similar car at Granger.

Each of the first class travel is being carried in these cars, the rates being lower, and the service nearly equal to that in the palace sleepers.
