

NOTICE.

The Globe invites correspondence from all sections of Gilliam county. We aim to make this paper the leading news medium of the county and invite our friends to assist us by sending in the news of their respective neighborhoods. Correspondence must be signed by the writer, but not necessarily for publication, but an acknowledgment of receipt and the editor assumes no responsibility for opinions expressed by correspondents.

PROPHETIC.

The following extract from Edward Bellamy's famous book, "Looking Backward," which was written in 1889, will be read with interest now, time having proven the words to be prophetic:

"At the end of the century the railroads had gone on combining till a few great syndicates controlled every rail in the land. In manufacturing, every important staple was controlled by syndicates. These syndicates, pools, trusts or whatever their name, fixed prices and crushed all competition except when combinations as vast as themselves arose. Then a great struggle, resulting in a still greater combination, ensued.

The fact that the desperate, popular opposition to the consolidation of business in a few powerful hands had no effect to check it proves that there must have been a strong economical reason for it."

TOO MANY IMMIGRANTS.

The number of immigrants landing at New York this Spring, especially Italians, is unprecedented. They are coming into this country by tens of thousands. Unless they are paupers or diseased, or it can be shown that they arrive under a contract to labor—a thing almost impossible to show—they must be admitted. Year after year, decade after decade, thoughtful and patriotic people have pleaded with Congress to enact more stringent immigration laws, so that we would not be overrun with these European cheap laborers, but in vain. There were people of the same nationalities here who had votes—too easily acquired. Even their interests required a check to be put to this wholesale immigration. Every new arrival is a competitor, if not of a native American, of one of his own people already here. As to Americans, they were long ago pretty well crowded out of the lower ranks of public employment. Scarcely one will be found doing manual labor in any of our larger cities. Not only so, but the great corporations and trusts recruit the ranks of workmen annually by tens of thousands of these foreigners, hoping thereby to fill the labor market that labor cannot successfully organize to protect itself.

Of course everybody understands that many foreigners make good American citizens. We can scarcely admit too many of those who go out into our forests and upon our unused lands and make homes and farms; but this class is the minority of those who land on our shores. Most of those coming from Italy, for instance, are laborers, looking for employment, and never expect to do any thing else. They come because "times are prosperous" here now; but how long will they be so if we allow an unrestricted flood of these laborers to wash up into and through all our cities?

In justice, not only to native-born Americans, but to immigrants who have been admitted during past years, there should be higher, broader and surer gates on both sides of our continent against the influx of laborers who care nothing about American citizenship and generally use it when gained, to vote for the worst men nominated for office.—Telegram.

Sciatic Rheumatism Cured After Fourteen Years of Suffering.

"I have been afflicted with sciatic rheumatism for fourteen years," says Josh Edgar, of Germantown, Cal. "I was able to be around but constantly suffered. I tried everything I could hear of and at last was told to try Chamberlain's Pain Balm, which I did and was immediately relieved and in a short time cured, and I am so happy to say it has not since returned." Why not try this liniment and get well? For sale by the Hudson Pharmacy.

Whooping Cough.

A woman who has had experience with this disease, tells how to prevent any dangerous consequences from it. She says: Our three children took whooping cough last summer our baby boy being only three months old, and owing to our giving them Chamberlain's Cough Remedy, they lost none of their plumpness and came out much better than other children whose parents did not use this remedy. Our oldest little girl would call loudly for cough syrup between whoops.—Jessie Pinker, Hall, Springville, Ala. This Remedy is for sale by the Hudson Pharmacy.

Pullman Ordinary Sleepers. The tourist travel between the East and the Pacific Coast has reached enormous proportions in the last few years, and calls for a special class of equipment.

To meet this demand the Pullman Co. has issued from its shops what it technically calls the "Pullman Ordinary Sleeper." These cars appear similar to the regular sleepers being built on the same plan, but not furnished with the same elegance. They are equipped with mattresses, blankets, sheets, pillows, pillow-cases, towels, comb, brushes, etc., requiring nothing of the kind to be furnished by the passenger. Each car has a stove for making tea and coffee and doing "light housekeeping," and each section can be fitted with an adjustable table. A uniformed porter accompanies each car, his business being to make up berth; keep the car clean, and look after the wants and comforts of the passengers. In each of the trains which are dispatched daily from Portland to the O. R. & N. Co. is to be found one of these "Pullman Ordinary Sleepers." The car attached to the "Chicago-Portland Special" goes through to Chicago without change, and the one in the "Atlantic Express" runs to Kansas City
