

THE CONDON GLOBE.

THURSDAY, JUNE 13, 1901.

NOTICE.

The Globe has been corresponded from all parts of Gilliam county. We are to make this paper the leading news medium of the county and in the our efforts to assist in the routing in the news of their respective neighborhoods. Correspondence must be signed by the writer, and necessarily for publication, but as an evidence of good faith, and the editor assumes no responsibility for opinions expressed by correspondents.

THE DAVIS STEAL.

The case of Sheriff Land Clark Davis, which is alleged to have stolen \$31,000 from the state school fund, furnishes a good object lesson of the inner workings of the political machine which manipulates the public affairs of this state of Oregon. So far as we know nobody denies but that Davis stole the money and most persons perhaps believe that the State Land Board which employed Davis should be held responsible with him for the defalcation. In view of the recent opinion given out by District Attorney Chamberlain of Multnomah county, however, nobody believes that either Davis or his superiors will be held responsible for the theft but that they will go Scot free and the tax payers and school children of Oregon will be just \$31,000 poorer.

Every body believes that our state affairs are managed and directed by a political machine and cases of this kind are straws which point in the direction of the probable fact that when it comes to a question of "grafts" and "grafter" — when it comes to a show down in the matter of shielding embezzlers of public funds, and others of their ilk — party fences are laid low and, without regard to political principle the gang all stand together and protect each other, slyly murmuring, each in his neighbor's ear, "The people be damned." The fact that in this Davis case a number of legislative committees have examined his books, since the defalcation, and reported them correct is a shame to the state, to the members of the legislative bodies and to the people who elect them. Such rottenness as this is the cause of much of the political and social unrest of the age and explains why so many intelligent people are beginning to believe that some new and better system of government must be evolved to supplant the present rotten one.

The following comment and queries apropos the Davis case, which we clip from the Oregonian, is to the point:

"Startling as it is, and incomprehensible as it may seem, the idea is freely held out by many persons of much information concerning the Davis case that little, if any, possibility exists for the recovery of the \$31,000 of the people's money. It has indeed, been evident from the start that nobody is seriously concerned about it. The columns of this paper are directed at the subject occasionally, and then there is a slight movement, but the most patent thing about the whole is the indisposition of all concerned to do any thing that might possibly bring fruit, and added to this is the alacrity with which everybody asserts that the money can never be recovered. Attorney General Blackburn selects a method of procedure which District Attorney Chamberlain promptly pronounces ineffective. Mr. Blackburn would willingly pillory Penoyer if he could, just as he spent \$1000 investigating Napoleon Davis when he should have been proceeding against Geo. Davis. Is there not a public officer in the state who will sincerely try to recover this money to the treasury and punish the perpetrators, regardless of political rings and favoritism? Is the clerkship abuse, after all, merely an accurate reflection of our whole official life?"

Andrew Armstrong has gone to Seattle with a shipment of horses.

Mrs. Martha Armstrong, of Ferry Canyon, is visiting friends in town.

Mrs. E. E. Armstrong who is in a hospital at Portland is improving. She expects to be home by July 4th.

Condon is not the only cold country on earth this Spring. Reports from all over this and other states tell of heavy frosts with much attendant damage.

Read it in His Newspaper. George Schaub, a well known German citizen of New Lebanon, Ohio, is a constant reader of the Dayton Volkzeitung. He knows that this paper aims to advertise, only the best in its columns and when he saw Chamberlain's Pain Balm advertised therein for lame back, he did not hesitate in buying a bottle of it for his wife, who for eight weeks had suffered with the most terrible pains in her back and could get no relief. He says: "After using the Pain Balm for a few days my wife said to me 'I feel as though born anew,' and before using the entire contents of the bottle the unbearable pains had entirely vanished and she could again take up her household duties." He is very thankful and hopes that all suffering likewise will hear of her wonderful recovery. This valuable liniment is for sale by the Hudson Pharmacy.
