We also make this our best writing news medium of the county and invite our friends to assist us by sending in the news of their respective localities. Correspondence must be signed by the writer, not necessarily for publication, but as a guarantee of good faith, and the editor assumes no responsibility for opinions expressed by correspondents.

RING RULE ROBBERY.

The Oregonian offers the following comment on recent outrages by the Quay political ring in Philadelphia:

"The Quays and their associates in Philadelphia, the most recent outrage of the Quay ring in Philadelphia. The Quays have raised their heads through the Pennsylvania legislature changing the existing law about granting franchises for street railways. The Governor signed them at midnight. Next morning the parties to the plot secured charters from the Secretary of State before his office was open to the general public and before outsiders had any chance to put in applications. The Philadelphia Council met in special session and adopted fourteen ordinances granting rights of way as a free gift to railroads upon, under and over the principal streets of the city, whether now occupied or not. On the day that these ordinances came before Mayor Ashbridge for his signature, John Wanamaker sent a written proposition to the Mayor offering to pay the city \$2,500,000 for these franchises that were given away. The Mayor, when the letter was handed to him, threw it at the messenger's head. A duplicate of this proposition sent to the Mayor's house was avoided by the Mayor's failure to go home that evening. The Mayor affixed his signature to the bills without giving any opportunity for a public hearing and without opening a letter which offered the city \$2,500,000 for rights which he has given away for nothing.

"In any city of decent spirit and intelligence, Mayor Ashbridge would be impeached and expelled from office; in any city of decent spirit the situation, if not speedily righted, would lead up to revolution."

Such wars have the right ring. It is a shame to our vaunted civilization and intelligence that such things are allowed to continue and that the career of such corrupt political combinations as the Quay machine are not wiped from the earth. But the people of Philadelphia are not alone in this disgrace. The same condition will be found in every state, in every county, almost in every precinct in the country. Were Matt Quay to be nominated for the presidency in 1904 he could depend on 75 or perhaps 90 per cent of his party vote right here in Oregon. It is this blind partisanship which is hurrying American institutions to disaster. It is the idea that we must vote for Judas Iscariot, the devil or a yellow dog, if he is on our ticket, that makes the much bragged about "American voting king" look like 30 cents. And it is the result of his foul acts in "rotin' her straight" that is breeding anarchists and other awful things all over the country.

GOVERNMENT OWNERSHIP.

The Denver Times is authority for the following statement: "A gigantic scheme is under way to transfer the railroads of the United States to the Government. A Western financier who returned today from New York, where he investigated the rumors afloat in financial circles, asserts that the report of pending Government ownership is general. He declared that in a few years the Rockefeller, Harriman, Vanderbilt, Gould and Morgan interests would turn over to the Government every line of railroad in the country, the Government to pay the total value of about \$10,000,000,000, a string of banks to be controlled by the same interests to finance the deal."

Mr. Schwab, president of the Steel Trust, has ordered for himself the finest private car that can be built by the Pullman Company.

Read It in His Newspaper.

George Schaub, a well known German citizen of New Lebanon, Ohio, is a constant reader of the Dayton Volks Zeitung. He knows that this paper aims to advertise only the best in its columns and when he saw Chamberlain's Pain Balm advertised therein for lame back, he did not hesitate in buying a bottle of it for his wife, who for eight weeks had suffered with the most terrible pains in her back and could get no relief. He says: "After using the Pain Balm for a few days my wife said to me 'I feel as though born anew,' and before using the entire contents of the bottle the unbearable pain had entirely subsided and she could again take up her household duties." He is very thankful and hopes that all suffering likewise will hear of her wonderful recovery. This valuable Balm is for sale by the Dalton Pharmacy.

The walls and floors will consist largely of onyx, the observation room will be made entirely of plate glass. The cost of the car would suffice to build at least half a dozen extremely comfortable homes. Mr. Schwab has publicly declared that he does not believe in labor unions. Mr. Schwab's profits and his ability to build palatial cars depend on his ability to get steel made cheaply. No wonder Mr. Schwab does not believe in labor unions. When labor unions and other common-sense human enterprises shall have accomplished their work, it will be more difficult for one young gentleman engaged in a certain industry to build him self a car of onyx and plate glass, while other men in the same business make barely enough to live on.—San Francisco Examiner.

Big Wool Sale.

A dispatch from Shaniko says: A large number of wool buyers came to Shaniko last night to be in attendance at the auction sale today of wools of the Baldwin Sheep & Land Company. Sealed bids were taken and the entire clip of 870,000 pounds went to E. W. Birmingham, representing Whitman, Parsonworth & Thayer, of Boston, at 12½ cents per pound. In addition to the Baldwin Sheep & Land Company's wool a number of other clips, aggregating 400,000 pounds, were sold at prices ranging from 11½ to 12½ cents per pound. The prices paid here to day beat the record to date. About 15 of the party of buyers left here this evening on special trains for various points.

How to Avoid Trouble.

Now is the time to provide yourself and family with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is almost certain to be needed before the summer is over, and if procured now you save your trip to town in the night or in your busiest season. It is everywhere admitted to be the most successful medicine in use for bowel complaints both for children and adults. No family can afford to be without it. For sale by the Hudson Pharmacy.

Pullman Ordinary Sleepers.

The tourist travel between the East and the Pacific Coast has reached enormous proportions in the last few years, and calls for a special class of equipment. To meet this demand the Pullman Company has issued from its shops what it technically calls the "Pullman Ordinary Sleeper." These cars appear similar to the regular sleepers being built on the same plan, but not furnished with the same elegance. They are equipped with mattresses, blankets, sheets, pillows, pillow-cases, towels, combs, brushes, ect., requiring nothing of the kind to be furnished by the passenger. Each car has a stove for making tea and coffee and doing "light housekeeping", and each section can be fitted with an adjustable berth. A uniformed porter accompanies each car, his business being to make up berths; keep the car clean, and look after the wants and comforts of the passengers. In each of the trains which are dispatched daily from Portland by the O. R. & N. Co. is to be found one of these "Pullman Ordinary Sleepers". The car attached to the "Chicago-Portland Special" goes through to Chicago without change, and the one in the "Atlantic Express" runs to Kansas City without change. Passengers in this car for Chicago change to a similar car at Granger.

Much of the first class travel is being carried in these cars, the rates being lower, and the service nearly equal to that in the palace sleepers.
