WHAT IS IT.

The Salem Sentinel again bows up with the announcement that Salem "the point at which all things political center and from which radiate state-wide political movements is now and has for a long time been without a bed-rock republican paper."

What the dence has the Sentinel been all these three or four years of its existence?

The Sentinel now proposes to be "independent in all things and republican in politics."

What will Hanna and the Salem Hog think of that?

It also proposes to support republican nominees (city, county state and national) without first placing a price on such support.

Won't that be a soft thing for the Marion County grafter whether he is at home or whether he is vegetating in the bunch-grass country?

IDEALS IN POLITICS.

Hon. Wayne MacVeagh, who filled the important position of Attorney-general in President Garfield's cabinet, recently delivered an oration before the Phi Beta Kappa at its annual meeting at Cambridge, Massachusetts, which has attracted unusual attention.

"It seems to me quite too plain for dispute that no single member of a weaker race can be killed, no hut of such a race, however humble, can be burned, no one can be selected for especial honor for his part in such pitiful warfare without its helping to light the torch which starts the fire by which some hapless negro is to be burned at the stake in our own country, not only in defiance, but in contempt of law, and all such acts must be surely followed by greater insecurity for the surplus wealth which the contented class possesses."

"Now it is at least quite possible in the not distant future American politics may transform Webster's warning into history, for our electorate is already beginning to be divided and must, in obedience to the law of social evolution, continue more and more to be divided by that sharp cleavage which separates those who are contented with their lot from those who are discontented with their lot."

"Under whatever disguise, called by whatever names, inheriting or seizing whatever partisan organizations, the alignment of the two great political divisions of American voters who will sooner or later struggle against each other for possession of the government, will inevitably be upon the basis I have named. The party of the contented will be ranged under one banner and the party of the discontented will be ranged under the other, and that alignment will steadily develop, increasing sharpness of division, until the party of the discontented, being the majority, has obtained the control of the Government, to which, under our system, they are entitled, and they will be sure to remodel the present system for the distribution of wealth, unless we have previously done so, upon a basis wiser and more equitable than that now existing. The one party will be, under whatever name the party of capital, and the other will be, under whatever name, the party of labor."

"It certainly would tend to make private property far more secure in America if the less fortunate majority of our population saw us of the more fortunate minority giving courage and time and thought to efforts to solve these

The Same Old Story.

J. A. Kelly relates an experience similar to that which has happened in almost every neighborhood in the United States and has been told and repeated by thousands of others. He says: "Last year I had an attack of Chamberlain's Colic, Cholera and Diarrhoea Remedy, which I used according to directions and with entirely satisfactory results. The trouble was controlled much quicker than former attacks when I used other remedies." Mr. Kelly is a well known citizen of Henderson, N. C. For sale by Hudson Pharmacy.

Heartburn.

When the quantity of food taken is too large or the quality too rich, heartburn is likely to follow, and especially so if the digestion has been weakened by constipation. Eat slowly and not too freely of easily digested food. Masticate the food thoroughly. Let six hours elapse between meals and when you feel a fullness and weight in the region of the stomach after eating, indicating that you have eaten too much, take one of the Chamberlain's Stomach and Liver Tablets and the heartburn may be avoided.

It is creditably reported that the Mormons will hold a camp meeting at the Rock in a few weeks from now.

Only a small amount of the lumber has yet been hauled for the new school house while it should of all been on the ground by the first of this month.

Quite a number of our people celebrated the 4th at Condon and report seeing the largest crowd of people they have ever seen assembled in Gilliam county.

Lone Rock claims to have had the most patriotic woman in Oregon since she rode about 5 miles on a common pack saddle placed on the harrican deck of a cayuse horse to be present at the celebration on the 4th besides carrying a couple of her children with her on the same conveyance.

The camp meeting on Rock creek came to a close on the 4th with a patriotic sermon by Rev. N. L. Beiglot of Heppner which was very highly appreciated by those present. The meeting was not largely attended on an average although the camp grounds were pleasantly situated and four preachers were in attendance. There was but one accession to the church.

Pullman Ordinary Sleepers

The tourist travel between the East and the Pacific Coast has reached enormous proportions in the last few years, and calls for a special class of equipment. To meet this demand the Pullman Co. has issued from its shops what it technically calls the "Pullman Ordinary Sleeper." These cars appear similar to the regular sleepers being built on the same plan, but not furnished with the same elegance. They are equipped with mattresses, blankets, sheets, pillows, pillow-cases, towels, combs, brushes, ect., requiring nothing of the kind to be furnished by the passenger.

Each of the first class travel is being carried in these cars, the rates being lower, and the service nearly equal to that in the palace sleepers. For rates and full information, including folders' write to A. L. CRAIG, General Passenger Agent, O. R. & N. Co., Portland, Oregon.
