Portland has done nobly in starting the Lewis and Clarke ball to rolling. A nucleus of \$300,000, secured in one forenoon, is pretty good.

WHAT THE WOOL GROWERS WANT.

The wool growers of Umatilla county met at Pendleton a few days ago to elect a delegate to the National Woolgrowers' convention that meets in Chicago the first week of December.

"First, we sheepmen are opposed to the leasing of the public range lands of the government, and we will oppose for the reason that it will not be in favor of the small owner and will tend to retard the development of the country and hold it back for long periods.

"Second, we sheepmen are in favor of the enactment by congress of a law requiring that all goods in which is any shoddy shall be branded by the manufacturer, that the people may see what they are purchasing and not think it is wool when it is shoddy.

"Third, we sheepmen demand that congress in framing reciprocity treaties with foreign countries, shall see to it that all the interests of the woolgrowers are protected.

LONE ROCK.

DIED—At his residence in Lone Rock, at 9.30 P. M. Nov. 28 1901, of heart failure David Leroy Patterson. Prof. Patterson had been ailing ever since he came to this place which was about nine months ago, but had been confined to his bed only a couple of months. He was born in Danville, Va., 46 years ago. His parents died several years ago, he being their only child. He was a member of the Masonic Order and also a member of the Episcopal church. Funeral services were held in the M. E. Church by Rev. Henderson, the pupils of our public school marching from the school house to the church. A large concourse of friends followed the remains to the cemetery.

A man by the name of Jenkins who brought a car load of short horn bulls out here from Illinois a few weeks ago passed through here on his return home with a car load of mules, some of which he bought in the Fossil country and some in this place. He will ship them from Heppner to his home in Illinois. Mr. Little of Arlington has finished painting the new school house and he has done a neat and substantial job.

Rev. C. L. Cason preached to a goodly congregation in the M. E. church Sunday.

Pullman Ordinary Sleepers. The tourist travel between the East and the Pacific Coast has reached enormous proportions in the last few years, and calls for a special class of equipment. To meet this demand the Pullman Co. has issued from its shops what it technically calls the "Pullman Ordinary Sleeper." These cars appear similar to the regular sleepers being built on the same plan, but not furnished with the same elegance. They are equipped with mattresses, blankets, sheets, pillows, pillow-cases, towels, combs, brushes, etc., requiring nothing of the kind to be furnished by the passenger. Each car has a stove for making tea and coffee and doing "light housekeeping", and each section can be fitted with an adjustable table. A uniformed porter accompanies each car, his business being to make up berths; keep the car clean, and look after the wants and comforts of the passengers. In each of the trains which are dispatched daily from Portland by the O. R. & N. Co. is to be found one of these "Pullman Ordinary Sleepers". The car attached to the "Chicago-Portland Special" goes through to Chicago without change, and the one in the "Atlantic Express" runs to Kansas City without change. Passengers in this car for Chicago change to a similar car at Granger.

Much of the first class travel is being carried in these cars, the rates being lower, and the service nearly equal to that in the palace sleepers.

For rates and full information, including folders write to A. L. CRAIG, General Passenger Agent, O. R. & N. Co., Portland, Oregon.
