

# THE CONDON GLOBE.

THURSDAY, DECEMBER 12, 1901.

**NOTE.**  
The Globe is in the possession of all sections of the community. We also make this paper the leading news medium of the county and invite our readers to assist us by sending in the news of their respective neighborhoods. Correspondence must be signed by the writer, not necessarily for publication, but as evidence of good faith, and the office assumes no responsibility for opinions expressed by correspondents.

## THE FLOURING MILL.

The people of this town should, by all means, take some immediate action toward securing the flour mill which has been offered them this week. The enterprise is a bona fide business proposition offered by business men and by no means should the people of Condon allow it to go elsewhere. The bonus asked is not large—only enough to cover the expense which is incident to moving the heavy machinery etc. from the railroad to this place—and the benefits which would accrue to the town and community from such an enterprise will be many. Condon is now a good town but it should be a better, larger more up-to-date town than it is and it can only become so by those of us who are here going after every new project within reach which is calculated to help build up the town. This a flouring mill will do. It will draw trade to every business man in the town and will injure no one. It will benefit the wheat growers and help the men who feed stock. It will build up without pulling down. "The Lord helps those who help themselves" and if we will take hold and help secure the mill we may expect to see other enterprises and other improvements follow. Let us get the mill, get out of the rut, do something.

The report being circulated to the effect that it has been muddy in Gilliam county this winter is a canard. It is not mud at all. Only wet dust.

Some republican papers which have opposed the ship subsidy bill take great comfort in the fact that President Roosevelt, in his message did not specifically endorse that measure while some democratic papers which also oppose the subsidy graft take much comfort in the fact that he did not specifically condemn it. Strange, isn't it?

While in Ohio last Fall Governor Geer whittled his name out in big capital letters on the walls of the Temple of Fame by remarking that "the democrats are worse than the trusts." Now he tells Governor Van Sant that the trust-railroad trusts—are not bad at all. That must take an awful load off the minds of the democratic brethren. Perhaps after all they are not so black as our governor painted them while in Ohio.

A Kansas editor insists that a "patched pair of pants offers a warm heart." That editor needs a few more lessons in anatomy or some kindred study at his earliest possible convenience.

## Saw Death Near.

"It often made my heart ache," writes L. C. Overstreet, of Elgin, Tenn., "to hear my wife cough until it seemed her weak and sore lungs would collapse. Good doctors said she was so far gone with Consumption that no medicine or earthly help, could save her, but a friend recommended Dr. Kings New Discovery and persistent use of this excellent medicine saved her life." It's absolutely guaranteed for Coughs, Colds, Bronchitis, Asthma and all Throat and Lung Diseases. 50c and \$1.00 at Condon Pharmacy. Trial bottles free.

A certain paper in Walla Walla seems to be gaining more than its share of prestige and free advertising. Only a short time ago its editor got horse whipped by an irate female on the streets of that city and then last week the same paper "scopied" every newspaper in the United States by mis-reading a telegram and thereby publishing the president's message a day before it was read in congress. The other papers up there should ask for an injunction restraining their competitor from having anything startling done to him or doing anything startling himself for at least 90 days. A few more such breaks and he will be strictly "it."

## A Good Cough Medicine.

[From the Gazette, Townsville, Australia.] I find Chamberlain's Cough Remedy is an excellent medicine. I have been suffering from a severe cough for the last two months and it has effected a cure. I have great pleasure in recommending it—W. C. WOODS. This is the opinion of one of our oldest and most respected residents, and has voluntarily been given in good faith, that others may try the remedy and be benefited as was Mr. Wuecker. Sold by Hudson's Pharmacy.

## To Put State Officers on a Salary.

The Salem Capital Journal of last Monday published official figures to show that by putting all fees into the state treasury the taxpayers could be saved about \$50,000 a year. A summary of the article shows that the Governor gets a constitutional salary of \$1,500 a year, and salaries and commissions of \$2,750. Annual appropriations the past year for his office \$6,950. The Superintendent of public instruction gets a salary \$2,500, and appropriations for his office, including clerical aid, amounts to \$12,687.35 per annum. The state treasurer gets a salary of \$5,311.87 and \$2,900 a year for clerical services. It is generally understood that when there is a demand for money he makes a great deal more than that by loaning idle state funds to banks and large firms. The secretary of state gets \$2,850 in salaries, \$14,643.01 in fees, and \$8,983.55 a year from the legislature for clerical services in his office. He turns over of the fees \$4,134.55 and this leaves a net annual total for running his office of \$22,342.01. The appropriations for the state printer for four years including 1901-2 are \$126,424.24, not including deficits to be made up by the next legislature, or \$31,806.06 per annum for printing and binding. A reduction in compensation of \$25,000 a year could be made and still pay salaries larger than other states pay and at the same time convert \$25,000 of fees into the state treasury, thus effecting a change of \$50,000 a year in favor of the taxpayer. As a new term of four years begins after the next election the matter should be now discussed and the proper salary figures put into the state platforms.

## Says He Was Tortured.

"I suffered such pain from corns I could hardly walk," writes H. Robinson Hillsboro, Ills., "But Backlen's Arnica Salve completely cured them." Acts like magic on sprains, bruises, cuts, sores, scalds, burns, boils, ulcers. Perfect healer of skin diseases and piles. Cure guaranteed by Condon Pharmacy. 25c.

## Pullman Ordinary Sleepers

The tourist travel between the East and the Pacific Coast has reached enormous proportions in the last few years, and calls for a special class of equipment. To meet this demand the Pullman Co. has issued from its shops what it technically calls the "Pullman Ordinary Sleeper." These cars appear similar to the regular sleepers being built on the same plan, but not furnished with the same elegance. They are equipped with mattresses, blankets, sheets, pillows, pillow-cases, towels, combs, brushes, etc., requiring nothing of the kind to be furnished by the passenger. Each car has a stove for making tea and coffee and doing "light housekeeping", and each section can be fitted with an adjustable table. A uniformed porter accompanies each car, his business being to make up berths; keep the car clean, and look after the wants and comforts of the passengers. In each of the trains which are dispatched daily from Portland by the O. R. & N. Co. is to be found one of these "Pullman Ordinary Sleepers". The car attached to the "Chicago-Portland Special" goes through to Chicago without change, and the one in the "Atlantic Express" runs to Kansas City without change. Passengers in this car for Chicago change to a similar car at Granger.

Much of the first class travel is being carried in these cars, the rates being lower, and the service nearly equal to that in the palace sleepers.
