Disfigured Skin

Wasted muscles and decaying bones. What havoc!

Scrofnia, let alone, is capable of all that It is commonly marked by bunches in the neck, inflammations in the eyes, dys-pepsia, catarrh, and general debility. It is always radically and permanently

Hood's Sarsaparilla Which expels all humors, cures all erup-tions, and builds up the whole system, whether young or old.

Hood's Pills cure liver lils; the non-irritating and only eathartic to take with Hood's Sarsaparilla.

Tolstoy Independent of Doctors.

Count Tolstoy is not an obedient patient. Some time ago his physicians told him not to walk or ride on horseback, but he did what he pleased, remarking, "I know better than all physicians what is good for me."

DEAFNESS CANNOT BE CURED

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure dealness, and that is by constitutional remedies. Dealness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed draftness is the result, and unless the inflammation can be taken out and this tube restored to its formal condition, hearing will be destroyed forever; nine cases out of ten are caused by canarrh, which is nothing but an inflamed condition of the mucous surfaces.

Oil-Burning Locomotives. Locomotives to burn oil are appearing in the Pacific states. They are and the smokestack behind. The tender is discarded, and the oil and water are conducted in pipes.

FITS Permanently Cured. No fits or nervousness after first day's use of Dr. Kline's Great Nerve Restorer. Send for FR EK S2.00 trial bottle and treation. Da. B. H. KLINK, Ltd., 504 Arch St., Philadelphia, Pa

Wire Gauze for Hay Fever.

The newest idea for mitigating hay fever-a disease which seems to claim more victims every year, in proportion to the population is embodied in a small disc covered with wire gauze, which is inserted in the nostril.

sells Wizard Oil.

An Independent American Citizen.

While riding in a Maine country road a traveler observed a field of corn which was overrun with rank weeds, and midway of the place was a large, consicuously displayed sign with the following: "Notiss! None of Your Business if This Corn Ain't Hoed.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Clean Persons Among the Lepers.

In the leper settlement in the island of Molakai, there were 909 lepers and 164 "clean" persons. The general opinion was that the "clean" would in ime become leprous. Nearly 1,100 people are housed, fed and clothed for about \$80,000 a year.

A New Billiard Ball Trick.

An entirely new performance with cue and billiard ball has been given by the famous billiard player, Robert de Bremont, says the Peoria Herald. Mr. Bremont calls his trick "William Tell." He performs it on an ordinary billiard table, upon which a lighted candle has been placed. By hitting a ball with his cue he sends the former over the flame, describing an arc. The holder or caudle is not touched by the ball, but its motion extinguishes the light. lee's.

Piso's Cure cannot be too highly spoken of as a cough cure.—J. W. O'BRIEN, 322 Third Ave., N., Minneapolis, Minn., Jan.

Water Power is Mighty.

Gigantic water power developments are projected in the Alps. There are now in the French Alps 48 factories supplied by 250,000 horse power, electrically generated. Engineers estimate ning to waste in the Alps.

Uncle Bob like plum pudding? Mamma-Yes; but the doctor won't let him eat it.

Little Freddie-Well, if I was as big as him there wouldn't be any doctor

SORES AND **ULCERS.**

Sores and Ulcers never become chronic

unless the blood is in poor condition - is sluggish, weak and unable to throw off the poisons that accumulate in it. The system must be relieved of the unhealthy matter through the sore, and great danger to life would follow should it heal before the blood has been made pure and healthy and all impurities eliminated from the system. S.S.S. begins the cure by first cleans ing and invigorating the blood, building up the general health and removing from the system A CONSTANT DRAIN all morbid, HEOM THE SYSTEM UPON THE SYSTEM. When this has been accomplished the discharge gradually ceases, and the sore or ulcer heals. It is the tendency of these old indolent sores to grow worse and worse, and eventually to destroy the bones. Local applications, while soothing and to some of the trouble. S. S. S. does, and no matter how apparently hopeless your condition, even though your constitution has broken down, it will bring relief when nothing else can. It supplies the rich, pure blood necessary to heal the sore and nourish

the debilitated, diseased body.

Mr. J. B. Talbert, Lock Box 24, Winona, Miss.,
says: "Six years ago my leg from the knee to
the foot was one solid sore. Several physicians
treated me and I made two trips to Hot Springs,
but found no relief. I was induced to try S. S. S.,
and it made a complete cure. I have been a perfectly well man ever since."

is the only purely veg-etable blood purifier known—contains no poisonous minerals to ruin the digestion and add to, rather than relieve your suffer-ings. If your fiesh does not heal readily when scratched, bruised or cut, your blood is in bad condition, and any ordinary sore is apt to become chronic. Send for our free book and write our

physicians about your case. We make no Charge for this service.
THE SWIFT SPECIFIC CO., ATLANTA, GA.

NECESSARY WHEN SPEAKING OF OUR FARMING INDUSTRY.

Wheat Crop of 1898 Would Have Made Nearly Ten of the Pyramids - Our American Forefathers Were Poor Tillers of the Soil.

Joseph, son of Jacob, had to warehouse a good deal of wheat in the seven fat years to carry the Egyptians through the seven lean ones. The American farmers produced enough in 1898 to make Joseph's little stock look like a pea in a tub. If it had all been piled in form on the plain of Gizeh it would have made nine pyramids the size of the pyramids of Cheops, and with the surplus another could have been rearer four-fifths as large. That was the biggest American wheat crop ever recorded. It amounted to 675,148,-705 bushels, grown on 44,045,278 acres of land. Next year the yield was lighter, and the Americans only turned off seven and nine-tenths pyramids of wheat. In 1900 they even fell short of that, producing only a paltry seven and a half pyramids. Still, that would have been a comfortable addition to Joseph's catarra, which is including the interest of the mucous surfaces.

We will give One Hundred Bollars for any case of Dearness (caused by catarrh) that can not be cured by Hall's Catarrh Cure. Send for rigculars, free.

F. J. CHENEY & CO., Toledo, O.

There was considerable ado over the increase of the standing army to 100,built with the cab and furnace in front | 000 men. If every man in such an army it ten hours a day, the whole force couldn't milk more than one-third of the cows that are now being milked in this country-not to speak of the goats. And if they could milk them all, and if they did, and if they milked them into the Chicago drainage canal, beginning with it entirely empty, they could milk it bankful in about two

If all the hens in this country were to be consolidated, like some of our other manufacturing establishments, La Grippe conquers life-Wizard Oil into one hen, and that hen were to lay conquers La Grippe. Your druggist an egg with the cubic contents of all the eggs laid daily on American soil, that egg would be as big as-well, it would be a very large egg. A chick peck wheat off the dome of the national capitol. In 1890 there were 258,871,125 year 819,722,916 dozen eggs were produced and sold.

When somebody deprecated a billionit was a billion-dollar country. It is, The millions period is no longer ademanufactures, our trusts, our fortunes and our farming industry.

The acreage of American farms in 1890 was greater than the combined resented an outlay of nearly half a billion more. They produced over \$3,terial. The value of their exports in

The American of the revolutionary more crude, his implements or his and hearing are remarkable.

He used a wooden plow; he was afraid an iron one would "poison the soil." He had not yet learned that glanders was contagious, and would that 3,000,000 horse power is now run- | work and stable healthy stock alongside stock affected by it, and wonder what there was in the soil, air or climate that carried them off. He didn't understand the use of fertilizers, and instead of spreading his barnyard manure on his fields, he let it accumulate around his barn until the approaches were impassable. Then he dug the barn big enough to stop me.—Boston Her- out and moved it. Instead of rotating crops to save his soil, he planted according to the phases of the moon. There were few sheep in the country, and other like stock was poor and scanty. In Virginia the belief prevailed that it would kill cows to house and milk them in the winter.

Transportation was poor and continued so for a long time. The roads could not have been worse. Markets were scattered and far between. Each farm attempted to be self-sustaining in as large a degree as possible. What the farmer couldn't grow or his wife make they went without. Wasteful methods of tillage eventually exhausted a soll originally rich, and in the reign of Andrew Jackson agriculture had fallen into such an alarming state of neglect and inefficiency that the government had to come to its relief. Through the efforts of Henry L. Ellsworth, Commissioner of Patents, a bureau was established in the patent office which developed into the Department of Agriculture. By aid of that department extent alleviate pain, cannot reach the seat principally farming has been made a

CURIOSITIES ON RAILWAY TRIP.

Experiences Met With by a Man Traveling Around the Globe. A globe-trotter sends some remarkably interesting notes of a journey round the world to the Pall Mall Magazine. He says: I traveled from Nagasaki to Yokohama, in Japan, without a break in the journey. The distance is 700 miles, and the best trains require exactly forty-eight hours for the trip. Of these six hours are occupied in crossing the Inland Sea by boat. The first-class fare is £2 5d, second class £1 | the pen, "Is one of your mistakes come 4s and third class one-half of the second. Only an occasional train has a dining car or a sleeping car attached

Like everything else in Japan, the railway carriages are toylike, usually have only two or three compartments. In the dining cars you eat from tables hardly larger than little girls have for their dolls. At all stations, which are frequent, you can buy freshly made tea for three-halfpence-pot, cup, tea and lack of confidence.

SOME LARGE FIGURES | all. This you take in the car, and the dishes are thrown out of the window

> cooked fish. from her tiny shoes-which have wood seat and then sits down demurely with her feet doubled beneath her. A moment later she lights a cigarette or her little pipe, which holds just tobacco enough to produce two good whiffs of smoke. All Japanese people sit with their feet upon the seat of the car, and not as Europeans do. All of them have has now sold the manuscript to the first removed their shoes. When the British Bible Society for 5000 roubles. ticket collector-attired in blue uniform enters the carriage he removes his cap and twice bows politely. He repeats the bow as he comes to each passenger. More than 90 per cent of all the travel in Japan is third-class, and Nearly all the locomotives are English.

The British government conducts a turtle farm at Ascension Island. January in each year sees the commence ment of the turtle season, which does not as a rule last more than three months. All turtles caught at Ascenwere a good fast milker, and worked at sion Island are the property of the crown and are only sent to England and lishments on this scale, and the Em other places for disposal as directed peror's total expenditure is estimated by the admiralty, in whose hands the at some \$25,000 a day. government of the whole island practically rests. The particular species which favors Ascension with its visits is the green turtle, from whose green fat and portion of the fins that particular brand of soup is made which is proverbially associated with the banquets

of London's civic dignitaries. Many people still smile when they hear travelers talk of oysters that grow on trees, just as, long ago, sallors were laughed at when they came home with and Guiana makes its nest of a brill at the bow, evidently for mooring and stories of flying fish. Both are real liant white pasteboard suspending it haulage, and also two lugs at the enough, however, and the tree oyster from the highest branches of the trees, stern.
