

THE CONDON GLOBE.
TUESDAY, FEBRUARY 13, 1902.

NOTICE.
The Globe invites correspondence from all sections of Gilliam county. We aim to make this paper the leading news medium of the county and to give our readers to know by sending in the news of their respective neighborhoods. Correspondence must be signed by the writer, not necessarily for publication, but as an evidence of good faith, and the editor assumes no responsibility for opinions expressed by correspondents.

GOD GIVE US MEN.

The Chicago Inter Ocean, a faithful Republican paper, but one with the courage to criticize its party and try to keep it in the straight and right path, published a leading editorial last week that the Telegram desires to reprint, as its sentiments—except that instead of saying, "God give us men," it would say, "Let us be men." God will give us just according to our deserts. The Inter Ocean's article follows:
Looking at the situation as it is in Washington today, thoughtful Americans see the House attempting to discriminate against our Filipino wards as we never discriminated against them when they were utterly foreign to us.

They see Cuba, whose bonds to Spain we dissolved, menaced with complete commercial separation from us, and with a commercial isolation which even the Madrid Government did not impose upon her. They see the aspiration of the American for an isthmian canal that will at the same time facilitate their commerce and strengthen their national defense, juggled, paltered with, and tossed about as if it were a mere trifle of the day.
And all this they have seen done at the behest of three or four special interests whose part in the Nation is but a tiny fraction of the whole.

On the other hand what do the people see as the only constructive piece of legislation likely to be accomplished by this Congress? The ship subsidy bill a measure designed and promoted chiefly to take the people's money and put it in the pockets of special interests which are well able to take care of themselves and to add to the profits of the two most powerful industrial combinations of the age.
This is a record of the majority—the Republican majority—in the 57th Congress up to the present. This is the record which, if not speedily altered, the Republican party must carry into the Congressional elections a few months hence, and which President Roosevelt and his party must defend; if they can in the general election two years hence.

"God give us men," prayed a great American poet in a dark hour of the Nation's life. The Republican party and the Nation, as they contemplate the record now making by the 57th Congress, may well re-echo that prayer.—Telegram.

Commenting upon the latest Philippine news the Houston (Tex) Post suggests that we have captured the Philippines from Spain, purchased the Philippines from Spain and fought for the Philippines with the Filipinos. The Post overlooks the fact that in addition to capturing the Philippines, purchasing the Philippines and fighting with the Filipinos for the Philippines, we also had the Philippines thrown into our laps by Providence. It would seem that the Philippine commission should try to impress all of these facts upon the minds of our Filipino subjects.—Commoner.

Something That Will Do You Good.

We know of no way in which we can be of more service to our readers than to tell them of something that will be of real good to them. For this reason we want to acquaint them with what we consider one of the very best remedies on the market for coughs, colds, and that alarming complaint, croup. We refer to Chamberlain's Cough Remedy. We have used it with such good results in our family so long that it has become a household necessity. By its prompt use we haven't any doubt but that it has time and again prevented croup. The testimony is given upon our own experience, and we suggest that our readers, especially those who have small children, always keep it in their homes as a safeguard against croup. Around The Pan.

The reader may make up his mind to be pleasantly overwhelmed by the opulence and vivacity of "Around the Pan," published by the Nutshell Publishing Company, 1059 Third Avenue, New York. The wonders begin with the frontispiece picture of President McKinley, drawn in a single line beginning at a point on the cheek bone and going round and round in a constantly widening circle, with waverings and downhearings of the pen in the proper places to secure detachment and shading. We are told that this portrait "is considered the most unique work of its kind in the world," and if there are degrees of uniqueness we are willing to believe that this is most the thing of which there are no duplicates. Of course there is text in addition to the pictures, and we would be surprised indeed to hear from any purchaser the opinion that he had not got his money's worth (\$2.00).—New York Sun.

Pullman Ordinary Sleepers
The tourist travel between the East and the Pacific Coast has reached enormous proportions in the last few years, and calls for a special class of equipment. To meet this demand the Pullman Co. has issued from its shops what it technically calls the "Pullman Ordinary Sleeper." These cars appear similar to the regular sleepers being built on the same plan, but not furnished with the same elegance. They are equipped with mattresses, blankets, sheets, pillows, pillow-cases, towels, combs, brushes, etc., requiring nothing of the kind to be furnished by the passenger. Each car has a stove for making tea and coffee and doing "light housekeeping", and each section can be fitted with an adjustable table. A uniformed porter accompanies each car, his business being to make up berths; keep the car clean, and look after the wants and comforts of the passengers. In each of the trains which are dispatched daily from Portland by the O. R. & N. Co. is to be found one of these "Pullman Ordinary Sleepers". The car attached to the "Chicago-Portland Special" goes through to Chicago without change, and the one in the "Atlantic Express" runs to Kansas City without change. Passengers in this car for Chicago change to a similar car at Granger.
Much of the first class travel is being carried in these cars, the rates being lower, and the service nearly equal to that in the palace sleepers.
