The Stimulus of Pure Blood

That is what is required by every organ of the body, for the proper performance of its functions.

It prevents biliousness, dyspepsia, constipation, kidney complaint, rheumatism, catarrh, nervousness, weakness, faintness, pimples, blotches, and all cutaneous eruptions.

It perfects all the vital processes.

W. P. Keeton, Woodstock, Ala., took Hood's Sarsaparilla to make his blood pure. He writes that he had not felt well but tired for some time. Before he had finished the first bottle of this medicine he felt better and when he had taken the second was like another man—free from that tired feeling and able to do his work.

Hood's Sarsaparilla

Promises to cure and keeps the promise. Accept no substitute, but get Hood's today.

His Plight Explained.

"I saw Blinks today, and he was in a terrible shape—both eyes closed and bruises all over. He isn't a quarrelsome man, is he?"

"Oh, no; quite the reverse. He never sees a quarrel that he doesn't want to act as peacemaker."

"Ah, that explains it then."—Chicago Post.

Send to Garfield Tea Co., Brooklyn, N. Y. for samples of Garfield Tea and Headache Powders—two invaluable remedies.

Quieting Suspicion

"My dear," said the suspicious wife, "this sealskin sack you gave me for Christmas has the odor of gasoline."

"Very likely," answered the crafty husband. "But you know Santa Claus is using an automobile now."

Nevertheless, she had her doubts about it, fearing that he had purchased the garment second handed of a cleaner.—Baltimore American.

Everyone who uses Hamlin's Wizard Oil to cure pain is never again without a bottle of it.

Sure Sign.

Jester—Dobster has in him the making of a great artist.

Jimson—What makes you think so?

Jester—Because he painted a picture recently, and when he looked at it, later, couldn't tell what the subject was.—Ohio State Journal.

Ladies Can Wear Shoes

One size smaller after using Allen's Foot Ease, a powder. It makes tight or new shoes easy. Cures swollen, hot, sweating, aching feet, ingrowing nails, corns and bunions. All druggists and shoe stores, 25c. Trial package FREE by mail. Address Allen S. Olmsted, Le Roy, New York.

Out of a Knothole.

He (just introduced)—What a very homely person that gentleman near the piano is, Mrs. Black.

She—Isn't he? That's Mr. Black.

"How true it is, Mrs Black, that the homeliest men always get the prettiest wives."—Tit-Bits.

Garfield Tea cures constipation.

Cab Rates in Cities.

In New York, Chicago, Washington and other cities it costs $5 for a carriage for a theater party, a dinner or a ball. In Berlin it costs about 50 cents. There is a cab stand every few blocks, the locations being fixed by police regulations. One pays for the distance.

Piso's Cure cannot be too highly spoken of as a cough cure.—J. W. O'Brien, 322 Third Ave., N., Minneapolis, Minn., Jan. 6, 1900.

Cable Span 3,000 Miles Long.

The longest span of submarine cable in existence will be that between Vancouver and Fanning island, 3,000 miles apart. The task of laying it commenced in January.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Fooled.

"When she married that old man for his money, she thought his cough would carry him off in a few months."

"And it hasn't?"

"No. She can't even make him cough up what money she wants."—Philadelphia Bulletin.

Cancerous Sores

are most frequently to be seen upon the face, neck or breast, though they are liable to appear upon other parts of the body. When they begin to spread and eat into the flesh, sharp, piercing pains are felt as the underlying tissue is destroyed and the tender nerves exposed. Cancerous sores develop from very trifling causes; a carbuncle or boil, swollen gland, a little watery blister on the tongue or lip, a wart, mole or bruise of some kind becomes an indolent, festering sore, which in time degenerates into cancer.

"Ten years ago I had a sore on my left temple, which the doctors pronounced a cancerous ulcer; it would itch, burn and bleed, then scab over, but would never heal. After taking S. S. S. awhile the sore began to discharge, and when all the poisonous matter had passed out it got well. I took in all about thirty bottles, continuing it for some time after the sore had healed, to be sure all the poison was out of my system. Have seen no sign of the cancer in ten years. JOSEPHUS REID, Gant, Audrian Co., Mo.

SSS is strictly a vegetable remedy, and, while possessing purifying and healing properties that no other medicine does, contains nothing that could derange the system. While cleansing the blood it also builds up the general health.

If you have a suspicious sore, or other blood trouble, send for our free book on Blood and Skin Diseases, and write to us for any information or advice wanted; we make no charge for this service.

THEY TRY NEW CROPS

KANSAS FARMERS ALWAYS READY TO EXPERIMENT.

They Have Firm Faith that the Soil of Their State Will Raise Anything—The Record-Breaking Wheat Crop of the Year 1901.

The advance of Kansas to the first place among the wheat-producing commonwealths again calls attention to the wonderful productiveness of that State. It is also calculated to make one reflect on the remarkable history of agricultural experiments by the Kansas farmers. In the early '80s there was high-pressure wheat growing, but it did not reach the volume, nor even the relative importance, of the crops of the last few years. The crop of 1901 aggregated more than 90,000,000 bushels, by far the largest of any State in the Union. This crop is valued at more than $50,000,000.

Wheat raising in Kansas has passed through many experimental stages, as has the growing of many other agricultural products. At first it was supposed that only spring wheat could be produced with profit in the State. This idea was dispelled by the demonstrations of T. C. Henry, known as the "wheat king," who owned at one time 60,000 acres of land near Abilene. Henry introduced winter wheat. One year (1876) he raised more than 200,000 bushels, which he sold at about $1.20 per bushel. He revolutionized wheat raising in his State. At present the spring wheat crop is an inconsiderable item in the total product.

In spite of the fact that Kansas has led the prairie States in agricultural development, and has held the center of the stage for many years, there have been times in the experimental processes when its people suffered disparagement for their foolish and unprofitable methods. It used to be said that a Kansan would plan anything; that he had to be shown that a thing would not grow before he would believe his State could not produce it. For example, there are said to be 2,500 varieties of apples. State reports show that at least 2,000 of these have been tried in the Sunflower State, many of them proving utter failures, of course, but the best varieties being established through this indiscriminate but conclusive method of demonstration.

A story is told of Secretary Mohler of the agricultural department that he once visited the French market in New Orleans and there for the first time saw macaroni. He was inquisitive about the curious-looking food product. He was told of the various uses to which the article could be put. He declared that he believed "the stuff would grow in Kansas," and expressed his determination to try it.

In recent years the Kansas farmers have learned through their own experiments and through the useful information of the agricultural schools what crops are best adapted to their soil and climate, what parts of the State are best for this or that variety, when to plant and sow, how to fight crop enemies, etc. This practical school applies to cereals, fruits and cattle. It is wholly probable that the present preference for wheat over corn will be permanent since it has been demonstrated that as fine winter wheat can be raised in Kansas as in any other part of the world and with much more certainty of success than attends the raising of corn, says the Kansas City Star.

It seems improbable that the world's wheat supply will become overlarge as a result of this change in Western States. The product of the Eastern States is growing less and less. As an illustration: Two counties in Kansas produced this year more than 11,000,000 bushels of wheat—more than all the New England States and Jersey, Delaware, Alabama, Arkansas, Montana and South Carolina combined.

How to Help the Fallen.

"Icy pavements are now with us," said a Camden man, "and women are beginning to fall frequently. Do you know the right way to help them up? I ask you this because I see all about me in the winter time prostrate women and men making monkeys of them and of themselves by offering help that is not helpful.

"For instance, down goes a young woman. A young man rushes to her, and, standing before her, takes both her hands. Then he pulls, but since she has nothing to brace her feet against, instead of rising to the pull she slides along in an undignified way. Another woman falls and the man who runs to her gives her his hand. She takes it, so as not to hurt his feelings, but it is a hindrance to her instead of a help, for, unless she is being actually lifted up, she needs both her hands in rising—one to arrange her skirts with, the other to press on the pavement as a kind of lever.

"The proper way to assist a woman to her feet," said the Camden man, according to the Philadelphia Record, "is to stand before her, saying, with a smile and a soothing gesture: 'Remain perfectly still, please,' and then to step gallantly to the rear, put your hands under her arms and raise her with a firm grip."

Big Trees in the Philippines.

An idea of the size of the trees of the Philippines is obtainable from the dimensions of Governor Taft's round table, the top of which is a solid section of a native tree eight feet in diameter. Throughout the islands one frequently sees in the better class of houses dining-tables that are seven, eight and nine feet wide, the tops in every case being made of a single section. These are not so large as the Southern California table tops, but they will do.—Kansas City Journal.

Monster Automobile.

The most extraordinary automobile in the world is that being erected by a French doctor, in which he intends, with two students, to make a trip round the world. It will contain two sleeping apartments, a large workroom and four big tanks for storing oil. It will unquestionably be the largest motor ever built.

No woman can cultivate her mind and her complexion simultaneously.

IN A WEAK SPOT

THE STORY OF AN ATTACK AND ITS REPULSE.

A Thrilling Account as Told by a Veteran of the One Hundred and Fifty-fourth Indiana Volunteers.

Jacob T. Keller, of Girard, Kans., is a veteran who saw long and hard service in the Civil war with the One Hundred and Fifty-fourth Indiana Volunteers and he tells many a story of bivouac and battle. He was recounting some of his adventures to a reporter the other day.

"Of all my experiences in the war and out of it," he said, "one is most often uppermost in my thoughts. I had strained my hip in some manner but I thought I had got over it all right. About two years after that, however, when I was plowing for wheat I gave out again in that spot. Rheumatism set in and I had to quit work. I tried one thing after the other to get some relief from the pain but nothing that I took helped me at all and I became discouraged.

The cords of my left leg were drawn so badly that I could not straighten it out at all, nor could I sit down. My hip and knee pained me and I suffered horribly. At times also I had nervous headache. After trying a number of things, my daughter, Mrs. Fry, who had been cured of rheumatism by Dr. Williams' Pink Pills for Pale People, induced me to try that remedy. My case was a very stubborn one and I took five boxes of the pills before I could see much change but I kept on and they certainly did wonders for me. The cords in my leg began to slacken and before long it limbered so that I could use it again and be able to sit down. My kidneys had been bad and the pills soon made them better, too. Dr. Williams' Pink Pills for Pale People are a grand, good medicine and I recommend them to all who suffer as I did."

The real cause of rheumatism is the presence of acid in the blood, which irritates the sensitive tissues that unite the joints and cover the muscles, thus causing those indescribable tortures which rheumatic sufferers endure. Years ago those afflicted were bled; as if taking away some of the impure blood could remedy the balance. This folly has been abandoned and today physicians prescribe and druggists recommend the use of Dr. Williams' Pink Pills for Pale People, as these marvelous vegetable pills go directly to the seat of the trouble, exerting a powerful influence in puifying and enriching the blood by eliminating poisonous elements and renewing health-giving force, thus making a potent remedy for curing this disease.

Dr. Williams' Pink Pills for Pale People are an unfailing specific for all diseases arising from impoverished blood or shattered nerves. They cure not only rheumatism but locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, nervous headache, after-effects of grip, of fevers and of other acute diseases, palpitation of the heart, anaemia, pale and sallow complexions, and all forms of weakness. At all druggists, or direct from Dr. Williams Medicine Company, Schenectady, N. Y., fifty cents per box; six boxes for two dollars and a half.

Recommendations.

Mrs. Knowles—That is a beautiful recommendation you gave your cook. Of course she deserved it?

Mrs. Milton—Of course.

Mrs. Knowles—But what do you really think about the girl. I have written recommendations myself, you know?—Boston Transcript.

Garfield Headache Powders: 4 Powders are sold for 10c. 1 Powder cures a headache.

'Tis Hard to Tell.

Dinwiddie—The city of Colon has been given up by the insurgents.

Van Braam—Does that put a full stop to the war?—Pittsburg Chronicle-Telegraph.

Considerate.

"Don't you think you could drive that mule without the use of profanity?" inquired the person of refinement.

"Yes" answered the canal boatman. "I reckon I could get along all right. But it would get powerful lonesome for the mule."—Washington Star.

Willfully Misunderstood.

"Some of my latest photographs," said the camera fiend, "I took 50 feet under water."

"Why did you go to the trouble of taking them there?" remarked Popprey. "It would have been easier to just tie a stone to them and throw them in."—Philadelphia Press.

Squirrels Nesting in Church Chimney.

Sexton Davis, of the Congregational church, at Winter Park, Fla., met with an unexpected accident when he made the first fire of the season in the church this fall. The chimney would not "draw," and the cause was found to be in a large squirrel's nest, or a series of nests, in the top of the structure. The opening was found completely closed with squirrel nest material to the depth of four feet from the top.—Florida Times-Union and Citizen.

War Waste of Horses.

Roughly speaking, a corps requires to be mounted every four months, but one cavalry regiment records the staggering figures of 3,000 animals in a little over a year, says a London newspaper. It was the general opinion of experts that the members of the Household cavalry proved themselves the best "caretakers" and despite their heavy weights got as much work out of their mounts as any cavalry in the field. There was even one instance of a troop horse weathering the whole campaign and returning fit and well to ceremonial duties in London.

Different Kinds of Ivory.

Today nothing but elephant ivory is used in fine carving. In the past there was walrus, narwhal, nylghau and mammoth. Tusks vary from 10 feet long, weighing 200 pounds, to smaller ones, and the price is about $6 a pound. Narwhal ivory is unlimited in supply, owing to the discovery of large quantities in the arctic regions, where for untold years it has been preserved in the ice. It is of no use for fine ivory carving, but is used in all inferior types of work, such as low-priced umbrellas and stick handles, cheap chessmen, frames, etc.

Garfield Headache Powders are especially adapted to the needs of nervous women. Try them.

On the Jury.

Employer—So you served on the jury last week, Pat. Did you know what to do?

Pat—Shure, sor, I had no trouble. There was a man there tould me what to do and gave me $10 for doing it.

Women Must Sleep.

Avoid Nervous Prostration.

If you are dangerously sick what is the first duty of your physician? He quiets the nervous system, he deadens the pain, and you sleep well.

You ought to know that when you ceased to be regular in your courses, grow irritable without cause, and pass sleepless nights, there is serious

MRS. HARTLEY.

trouble somewhere, and nervous prostration is sure to follow.

You ought to know that indigestion, exhaustion, womb displacements, fainting, dizziness, headache, and backache send the nerves wild with affright, and you cannot sleep.

Mrs. Hartley, of 221 W. Congress St., Chicago, Ill., whose portrait we publish, suffered all these agonies, and was entirely cured by Lydia E. Pinkham's Vegetable Compound; her case should be a warning to others, and her cure carry conviction to the minds of every suffering woman of the unfailing efficiency of Lydia E. Pinkham's Vegetable Compound.

Beggars Had $8 Apiece.

Some of the professional beggars arrested in the Christmas shopping district in New York had only $1 when searched, but some of them had so much more that it brought the average up to $8 apiece.

Bacteria in School Inks.

The authorities at Minden, Germany, have made a bacteriological examination of school inks. They have found that most of them contain bacteria which, if animals are inoculated with them, often prove fatal.

Life Averages.

In 300 years the average length of human life has been doubled. In the sixteenth century it was between 18 and 20 years; at the close of the eighteenth century it was a little over 30 years, and today it is over 40 years.

Wild Elephants Getting Scarce.

It is estimated that there are fewer than 10,000 wild elephants left in all the countries on the globe, and that five of these will be killed off where one is born. It is a matter of only a few years when the last one must go.

Population Multiplying in Algeria.

The French census returns for Algeria reveal the fact that in less than 50 years the native population of the colony, Arab and Kabyle, has almost doubled itself, having risen from 2,307,000 in 1856 to 4,070,00 at the present time.

Canadian Hay for Africa.

Canada's entire surplus crop of hay and oats is being marketed this year to the British government for the use of the army in South Africa. An extra fleet of steamers is transporting this forage to the seat of war.

Easily Interpreted.

Mrs. Hoon—I dreamed last night that you had given me an automobile.

Mr. Hoon—H'm, yes! You had a horseless nightmare—and, by the way, my dear, dreams usually go by contraries.—Smart Set.

The Range Pony in Alaska.

The best animal for the Klondike and inner Alaska has proved to be the range pony reared in the cold, mountainous country of Montana, Northern Idaho and Washington. The pony weighs from 800 to 1,000 pounds and is giving much better service than the mule. He picks his way through stretches of bog where the mule mires, climbs glaciers and canyon sides where the mule turns back, and eats snow to quench his thirst, which the mule will not do. For prospecting purposes the trained pack pony is invaluable and the best means of transportation in Alaska.

Curtain and Piece Fell.

Edmond About, the French novelist, was once asked to write a newspaper notice of a play written by a friend. The playwright begged him to discuss the acting and scenery, but to say little about the drama itself, which evidently was not proving much of a success. About did as requested, told of the plot at length and gave much detail as to accessories, winding up with this sentence: "About midnight the curtain fell and with it the piece."

Tax Upon Cyclists.

The handsome sum of nearly 5,500,000 francs has been brought into the treasury of the French republic by the tax upon the cyclists during the year 1901. The tax was first imposed in the year 1894, and was paid by 203,036 persons. In 1895 it was levied upon 236,084, in 1896 upon 329,86, in 1897 upon upon 408,806, in 1898 upon 484,414, and in 1899 nearly double that number—838,856. The tax upon motor carriages in 1900 was paid by 2,817 persons.

India the Land of Reports.

India is the land of reports. There is a monthly, quarterly, half-yearly, annual plague of them. There is no country, probably, in which so many useless reports are written and so few read. In one province the chief business of the local government consists in dunning its officers for statistics and reports, and in compiling from them volumes for the delusion of the supreme government. More than one half of the time and energy of every civil officer is taken up in writing.—Fortnightly Review.

Serve Four Meals a Day.

Washington hotels are said to be the only ones in this country that serve four regular meals every 24 hours—breakfast, luncheon, dinner and supper—the latter being served in some cases as late as midnight.

Most Important, to Us.

Teacher—Tell me some of the most important things existing today which did not exist 100 years ago.

Tommy—Us.—Stray Stories.

Natural Reasons for Friendship.

The Browns and the Joneses are great friends. Mr. Brown and Mr. Jones are friends because they like the same things, and their wives are friends because they dislike the same people.—New York Times.

Just Like a Boston Girl.

He was rescuing a Boston girl from drowning, and it looked as though they would never see Cambridge again.

"Hold on tight, Penelope," he gasped; "hold on tight"

"Don't say 'hold on tight,'" gurgled the girl, with her mouth full of the Atlantic ocean, "say, 'hold on tightly.'"—Weekly Telegraph.

Said the Observant Foreigner.

"I have noticed," said the Observant Foreigner, who was not writing a book about America, "that, according to your newspapers, the best citizens are always to be found in large numbers at just three places."

"Where?" we asked, being mildly curious.

"At political rallies, prize fights and lynching bees."—Baltimore American.

SALZER'S New 20th Century OATS

TEST YIELD 300 BUS PER ACRE

CLEAR THE TRACK!

Here's the monarch—nothing like it on earth. Salzer's New 20th Century Oat takes the cake, carries first prizes as the biggest yielder everywhere. The fact is, Salzer's oats are bred to produce. The U. S. Department of Agriculture claims that out of over 400 samples and kinds tested, Salzer's were the best. How do you like that, Mr. Farmer? Our new 20th Century Oat is bound to completely revolutionize oat growing and we expect dozens of farmers to report yields in 1902 running from 200 to 500 bushels per acre. Price is dirt cheap. Be in the swim and buy this variety this spring to sell to your neighbors the coming fall for seed. It will surely pay you.

Salzer's Marvel Wheat—42 bus. per Acre

The only spring wheat on earth that will yield a paying crop north, east, south, and west and in every state in the Union. We also have the celebrated Macaroni wheat, yielding on our farms, 63 bushels per acre.

SPELTZ

The most marvelous cereal and hay food on earth, producing from 60 to 80 bushels of grain and 4 tons of rich hay per acre.

VEGETABLE SEEDS

We are the largest growers and our stock of earliest Peas, Beans, Sweet corn and all money making vegetables is enormous. Prices are very low. Onion seed 60 cents and up a pound. Catalogue tells.

For 10c—Worth $10

Our great catalogue contains full description of our Beardless Barley, yielding 100 bushels; our Triple Income Corn, going 400 bushels; our potatoes, yielding 800 bushels per acre; our grass and clover mixtures, producing 6 tons of magnificent hay; our Pea Oat, with its 8 tons of hay, and Teosinte with 80 tons of green fodder per acre. Salzer's great catalogue, worth $100 to any wide awake gardener or farmer, with 10 farm seed samples,—worth $10 to get a start—is mailed you on receipt of 10c. postage.
