CHICAGO TEAMSTERS' STRIKE.

May Result in Stoppage of 40,000 Men at Stockyards.

Chicago, May 30.—If the four great packing concerns at the union stock yards shall not yield to the demands of the striking teamsters within a short time it may result in a general stoppage of 40,000 employees at the yards.

Already several hundred persons have quit. The situation is becoming so involved that it apparently will be impossible for the union men to remain at work much longer without violating the rules of the Chicago Federation of Labor, under which they hold charters.

Confusions between several of the firms and representatives of the union were held this afternoon in an effort to adjust the trouble, but the packers refused to concede any of the demands of the strikers, and the probability of an early settlement seems as remote as on the first day of the tie-up.

Further steps to extend the strike were taken when orders were issued from the teamsters' headquarters that no coal should be delivered to concerns that refrigerate meat for "unfair" butcher shops or packing houses. This development promises the most complete tie-up of teaming deliveries ever experienced in Chicago.

Butchers that use meat delivered by non-union drivers will lose their ice, and concerns that make their own ice will lose their coal.

SITUATION IN MINDANAO.

Colonel Baldwin Suggests Wiping Out the Defiant Element.

Manila, May 31.—Colonel Frank D. Baldwin, of the Fourth United States Infantry, has telegraphed to Brigadier General George W. Davis, in command of the United States troops in the island of Mindanao, that he does not expect to establish satisfactory peace conditions in the Lake Lanao district until the defiant element is wiped out.

The natives pretending to be friendly are urging that this be done, as their own lives are in jeopardy, "which," the colonel adds, "we are in the highest sense under obligations to protect."

"The defiant element," continues Colonel Baldwin, "respect nothing but powder and the sword. They will destroy human lives until destroyed themselves." General Davis replied that to meet the emergency in the way suggested, would necessitate the capture of every fort which now admits American troops as friends, which was forbidden under existing orders.

NO FAVORS TO TERRITORIES.

Senate Committee Wants Each to Stand on Its Own Bottom.

WILL PUT ON FAST TRAINS.

To Shorten Time Between New York and the Pacific Coast.

Chicago, May 31.—The Chronicle this morning says: The first of June will witness the first great step toward faster time between New York and the Pacific coast.

There is a well founded report that there has been an agreement between the Pennsylvania and New York Central officials for fast trains to go on at once, and that the fast time to be made between New York and Chicago is to be 20 hours.

This is a shortening of the time between these two places by four hours below the fastest trains now running, and almost six hours below the ordinary trains. Following the determination of the Chicago & North-western to put on a fast train from Chicago to Denver June 1, the action of the Eastern lines is regarded as having a direct bearing in the plans for quicker time to the Pacific coast.

Solicited Campaign Funds.

Washington, May 30.—The civil service commission has decided that funds were solicited and collected for the presidential campaign of 1900 from employes under Collector of Internal Revenue Henry, of Terre Haute, Ind., with his approval and co-operation, but holds that the evidence does not justify the institution of criminal proceedings against him or any of his subordinates.
