

GOVERNMENT OWNERSHIP

The United States government pays every year to the railroads \$1,000,000 for carrying the mails and for the use of cars.

In France, where the government controls all the railroads and owns many of them, and will eventually own all the railroads, they carry the mail free in return for their grants of right of way.

In Switzerland the railroads receive nothing for carrying the mails. The company that got permission to build a railroad had to carry the mail free in exchange for the privilege—with this exception: If the railroad actually earned less than 3 1/2 per cent a year the government paid a reasonable price for mail service.

In Germany all railroads must carry one mail car free. If other cars are needed to transport the mails, the government pays a small rate, which barely represents the cost of hauling the cars.

Austria's rules are practically the same as those of Germany.

The British parliament like our own national congress, consists largely of men owned by the railroads. But they have some shame over there, and although the British mail service includes the parcel post and does the work of our express companies, the government pays to the railroads for all its carrying, including this enormous enormous parcel express business, less than one-ninth of the amount which the United States government pays the railroads for carrying pure mail matter.

If you want to know how the railroads rob the government, through the connivance of senators, congressmen and others influenced by the railroad lobby, study these figures which compare the charges for transporting the government mail matter and express matter to a New York central station, a distance of 20 miles from New York.

For carrying 200 pounds per day of mail matter, at \$50 a mile per annum, the railroad company is authorized to charge \$1,000. The express company carries a 200-pound package the same distance every day for \$365 a year.

In other words the government pays \$1,000 for carrying 200 pounds of mail matter 20 miles every day for a year in addition to paying an enormous rental for the cars. Express matter travels the same distance at the same speed for \$365 a year, and both the railroad company and the express company make a good profit on the transaction.

Poor's Manual gives the Pennsylvania Railroad Company's own statement for 1900 as to its earnings.

On passengers, the railroads earn a small fraction over 2 cents per mile per passenger. On freight it earns a little less than one-third of a cent per mile per ton.

The government, however, pays all the railroads including the Pennsylvania, an average of 12.18 per mile.—Journal.

Their Secret Out. All Sadleville, Ky., was curious to learn the cause of the vast improvement in the health of Mrs. S. P. Whitaker, who had for a long time endured untold suffering from a chronic bronchial trouble.

A Cure for Cholera Infantum. "Last May," says Mrs. Curtis Baker, of Bookwater, Ohio, "an infant child of our neighbor, was suffering from cholera infantum. The doctor had given up all hopes of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhea Remedy to the house telling them I felt sure it would do good if used according to directions. In two days the child had fully recovered, and is now (nearly a year since) a vigorous, healthy girl. I have recommended this remedy frequently and have never known it to fail in any single instance."

A YOUNG LADY'S LIFE SAVED At Panama, Colombia, by Chamberlain's Colic, Cholera and Diarrhea Remedy.

Dr. Chas. H. Utter, a prominent physician, of Panama, Colombia, in a recent letter states: "Last March I had as a patient a young lady 16 years of age, who had a very bad attack of dysentery. Everything I prescribed for her proved ineffectual and she was growing worse every hour. Her parents were sure she would die. She had become so weak that she could not turn over in bed. What to do at this critical moment was a study for me, but I thought of Chamberlain's Colic, Cholera and Diarrhea Remedy and as a last resort prescribed it. The most wonderful result was effected. Within 8 hours she was feeling much better, inside of three days she was upon her feet and at the end of one week was entirely well."

Since King Edward has been crowned perhaps the world won't notice him so much.

Since Tracy killed both Merrill and himself wouldn't it be a good way of settling the wrangle over the reward by paying it to Tracy's estate?

The Heppner Times has been sold to A. J. Hicks who took charge last week. E. M. Shutt, the former editor, who was recently elected sheriff of Morrow county, sends out a circular letter in which he promises, if it ever becomes his duty to hang a newspaper man, to let him down easy. Bro. Shutt should have remembered that newspaper men are too good to hang, and his services will not be required along that line.

"Gen." Smith who made the infamous order to "kill everything over ten years old in the Philippines," has been relieved from service with the pay of \$3,750 a year—\$10 a day—for the balance of his life! What horrible punishment! The workingman who does not obey instructions and murders people gets hung—but then they are only working people and there are plenty of them. Geel how easy the working people are! They pay Smith a salary for life. They will work and skimp and deny themselves. Smith will disport himself in fine style of their labor. What a funny world.—Ex.

The best physic—Chamberlain's Stomach and Liver Tablets. Easy to take pleasant in effect. Sold by Condon Pharmacy.

Less than one-sixth penny per hour represents the earnings of the cottage weavers of Boehmerwald, Bohemia, who are reduced almost to starvation by the depression of the continental linen industry. It is no wonder that they are reduced to such a state when it takes them six hours to earn a penny. It looks improbable that human beings can exist on such frightfully low compensation. And the pity of it is that men and women should be compelled to toil for such miserable compensation. It is a sad commentary on the boasted civilization of this century that such a deplorable state of affairs as this should exist.—Washingtonian.

Chamberlain's Colic, Cholera and Diarrhea Remedy has a world wide reputation for its cures. It never fails and is pleasant and safe to take.

There are to be several weddings "in high life" in Portland during the September Carnival of the Portland Elks. These weddings are of more than passing interest to the public, inasmuch as the nuptial knot will be tied in a balloon in mid-air, a thousand feet above the ground, in plain view of thousands. This is one of the novelties

What a Tale it Tells. If that mirror of yours shows a wretched, sallow complexion, a jaundiced look, moth patches and blotches on the skin, it's liver trouble; but Dr. King's New Life Pills regulate the liver, purify the blood, give clear skin, rosy cheeks, rich complexion. that will be seen during the early days of the Elk's Carnival which will open September 1 with a grand prize parade. Several applications have already been received by the management from willing candidates for the matrimonial state. For their willingness to experience this rather unique, if not sensational, ceremony in a balloon the management is prepared to set the happy couple up with about \$500 worth of household goods, including everything from a piano to a sack of flour. It is known there will be a trio of weddings and if dubious swains elsewhere outside of Portland are anxious to receive a handsome dowry, sufficient to enable them to set up and keep house for six months without expense to themselves, all they have to do is to address a letter to the secretary of the Portland Elk's Carnival to make the final arrangements in advance. Wedding day will be a great time in the Carnival.

PROPOSALS INVITED

County Surveyor's Office, Condon, Oregon, August 5, 1902. Sealed proposals will be received until 12 M. Saturday, August 16, 1902, for a County bridge, of which the plans, specifications and strain diagrams are on file at my office.

Each bidder shall be required to deposit five per cent of the amount of his bid, which shall be forfeited to the County in case the award is made to him and if he fails, neglects or refuses, for the period of two days after such award is made to enter into a contract and file his bond in the manner required by and to the satisfaction of the County Court.

Upon the day appointed I shall proceed, with the County Court, to open the bids and award the contract to the lowest responsible bidder and the County Court shall enter into a contract with him therefore; provided always that said County Court may, in its discretion reject any and all bids.

R. H. WALN, County Surveyor.

AUGUST BUCHLER, Prop. Of the product of this well-known brewery the United States Health Reports for June 28, 1900, says: "A more superior brew never entered the laboratory of the United States Health reports. It is absolutely devoid of the slightest trace of adulteration, but on the other hand is composed of the best of malt and the choicest of hops. Its tonic qualities are of the highest and it can be used with the greatest benefit and satisfaction by both old and young. Its use can conscientiously be prescribed by the physicians with the certainty that a better, purer or more wholesome beverage could not possibly be found."
