The National W. C. T. U., in session at Portland, Maine, passed a resolution condemning the character of advertisements placed on bill boards.

Two persons were killed and 15 in-Texas. The accident occurred at a crossing, two trains meeting.

An electric light wire started a fire in Helens, Montans, which destroyed \$45,000 worth of property.

Matthew H. Money, a pioneer newspaper man of the Pacific coast, died in Oakland, aged 70 years. At different times he conducted several papers in different parts of Washington.

Railway switchmen of St. Paul and Minneapolis have given notice of a demand for higher wages and shorter which has a line from this city passing dressed, 6 %c. hours. They will strike if the raise is through the states of Moreles and Guernot granted.

WILL KEEP UP FIGHT. NEWS OF OREGON

Members of Engineers' Union to be Asked Not to Handle Anthracite Coal.

Chicago, Oct. 25 .- President Morton, of the International Stationary Engineers and Firemen, stated that all members of the association all over the country would be ordered to refuse to handle any anthracite coal until every member affected by the anthracite strike is reinstated on the basis on which the miners returned to work. The brotherhood has a membership of 14,000, and has local unions in 114 towns and cities.

President Morton declared his organization was in a position to shut out for. hard coal in all cities where it had local unions, and said such action Montana from Monmouth a few days is four stories high. The two smaller would be taken if necessary for the ago. protection of the members who had lost their positions on account of the Columbia river and one for Puget sound The coal strike arbitration commisanthracite strike. This is President are being built in Portland.

Morton's view of the situation: "According to all reports from Eastern mines, our men are getting the worst of it, and, while the miners are being reinstated, they are left out in the cold. Our organization does not propose allowing its members to be at one time. victimizel, and as we cannot call a strike at the mines, nonunion men seeming to be in possession of the jobs. road, has been offered the presidency of we will attempt to secure the reinstatement of our members by shutting and vicinity to some extent.

out anthracite coal wherever we can. "While negotiations looking toward a settlement were on we did not wish to interfere in any way, although we feared our men would get the worst of the bargain. We believe the action of ment. Lowell is now 62 years of age. the firemen and engineers in quitting work helped the miners to win their

"Although it is true that a majority of the firemen are members of the Miners' union, they have retained their membership in our union, and have already asked for our assistance. We propose to give it to them, and I am going to call a meeting of the executive board, when action will be taken looking to that end. I will advocate that our members be ordered to refuse to handle anthracite coal, as, to my mind, this is the only method that will bring the operators to time. I believe the board will accept my suggestion."

Nearly All Engineers Turned Down. tangas province, Luzon. He will be though the union engineers were going to see what we have done in the matter to have some difficulty getting back their old places. At nearly every mine Clark, the Montana millionaire, says where the striking engineers made ap-he was offered \$2,500,000 to assist in plication for work they were told that securing control of the legislature and there were no vacancies. A large number of carpenters are also out. President Mitchell has advised the men to wait a few days and see if employment would not be offered them. believes that when general resumption takes place there will be 'ew mine employes idle. The firemen are being taken back in larger numbers than any of the steam men, because they take places of men who are not so capable.

NEW LIFE-SAVING DEVICE.

Aluminum Globe Thoroughly Tested and Proves Complete Success.

New York, Oct. 25 .- A demonstration of the efficiency of a novel life saving invention has taken place in the Springefild, Ill,. have gone on strike English channel, cables the London correspondent of the Herald. About four miles off Folkestone, a tug sighted a strange object in the water. Upon coming nearer it was found to be a top a man's head projected. The tug went alongside and two men emerged from the globe. They proved to be the inventor and his assistant, both Norwegians. According to their story, internal revenue for September show a the globe, which is composed of alumdecrease of \$1,718,770, as compared inum, was put overboard from a steamer off Havre. The inventor claims that it satisfied all requirements and expectations and demonstrated its serviceability for saving lives at sea.

The globe is about eight feet in diameter. An air shaft is provided and it is also fitted with a water pump, sail and rudder. Its capacity is claimed to
