

TOO PARTISAN.

"To five victors belong the spoils" is perhaps the correct thing in dispensing public patronage in the way of making official appointments, but this practice is sometimes carried too far by public officials when transacting business for which other people pay, nevertheless it appears to some public officials as their incumbent duty to give all patronage or business coming from their office to their party associates, regardless of the wishes of the persons directly interested—those paying for the service.

An instance in point is the United States land office in this city. The land laws give the register of a land office the right to designate in what paper "notices for publication," that is notices of intention of settlers to make final proof on land, shall be published, the only restriction being that the notice shall be published in a paper situated nearest the land. Until the present regime registers and receivers have not been arbitrary in this matter but where two papers were published in the same town, they allowed the party who pays the publication fee some option in the matter, and if he desired his notice published in a certain paper the officers would so designate. But with the present incumbents of this land office party lines are distinctly drawn. With one exception during the past four years, no democratic paper in the district has been designated as the paper in which final proof notices might be published, if there was a republican paper published as near the land notwithstanding settlers have frequently requested the privilege of paying publication fees to the paper of their choice.

This practice may be entirely in keeping with the law, yet it is an injustice to the people who pay the bills. It would be fully as consistent for the county judge of Wasco county, who is a democrat, to refuse administrators the privilege of choosing in what paper their notices shall be published. He could with as great a degree of consistency say that all notices coming from the probate court should be published in the Times-Mountaineer, it being the only democratic paper in the county, as the register of the land office can say that all land notices shall be published in the republican papers of the district. This however, would be considered awfully "partisan."—Times-Mountaineer.

And this is not all. In one case at least, the land office business was taken from a paper of recognized circulation and given to an upstart sheet that had no circulation, as required by the postal authorities, for purely partisan reasons, even after the paper of recognized circulation advertised its willingness to publish such notices at one-third the rate charged by the upstart sheet. Numerous people when desiring to make final proof on land wrote personal letters to The Dalles land office requesting them to designate the paper of greatest circulation and smallest charges and their letters were not even answered; a number of people in this section of Gilliam county can vouch for this statement. They cannot easily forget about being "held up" for that \$5.00.

From a Normal Student. Monmouth, Oregon, Nov. 3, 1902.

EDITOR GLOBE: I have been in the Normal School here for nearly two months. During that time I have worked hard with my studies and feel that each day has counted. I am what is known as a Freshman B, and have eight recitations a day, including music and gymnasium practice.

May I tell you my daily programme? In the morning we have Algebra, Physical Geography and Rhetoric. In the afternoon Drawing, American Literature Spelling, and Music on Mondays, Wednesdays, and Thursdays and work in the Gymnasium Tuesdays and Fridays.

The course of study is so arranged that students may enter from the eighth grade and finish in three years, in that time completing all the subjects required for a state certificate.

On the opening day of school, all the pupils, both new and old, gathered in the Chapel and after an interesting talk by President Resler, the day was largely spent in enrollment. Those who were fortunate enough to be registered in the morning had the remainder of the day for purchasing books, becoming acquainted with other students and seeing something of the town.

In addition to the regular course of study there are several other educational factors connected with the school, among them being the athletic clubs for gymnastics, hand ball, basket ball, foot ball, tennis etc; also three literary societies; the Vespertine and Invincible for the young ladies and the Normal for the young men. Every Sunday afternoon at four o'clock the Christian Association holds its meeting. Every student should try and find time to belong to at least one of these societies for the social life in school is one of the most pleasant as well as one of the most important features.

I had intended to give a short description of the town but will have to content myself by saying that it is located in the heart of the Willamette valley with the Coast Mountains on one side and the Cascades with their snow capped peaks on the other. It has no swamps and practically no need of a constable.

Very respectfully yours, JENNIE NEAL.

ARLINGTON.

Fred Lockley jr. was in town yesterday in the interest of the Portland Journal. Mr. Lockley is the regular field hustler for the Journal and sends his papers mass of interesting matter descriptive of the country through which he travels. He left this morning for Lone Rock and Hardman.

"What is the pedigree of your calf?" asked a would be buyer of a breeder. "Well," said the stockman, "all I know about it is that its father gored a book agent to death, tossed a justice of the peace onto the top of the barn and stood a lightning-rod man on his head in a fence corner. Its mother chased a female lecturer two miles one day. If that ain't pedigree enough to ask \$5 on you needn't take it."

Ex-Sheriff in Trouble. A. J. Neilson, ex-Sheriff and Tax Collector of Lake county, who was found guilty of defalcation in office by a jury at the May term of court, was sentenced Saturday to four years in the penitentiary, and ordered to pay a \$6,000 fine, to cover the amount of defalcation. At the hour of passing the sentence the courtroom was crowded, as this was a case of extreme interest to the people of Lake county. Neilson has many friends in the county, was a democratic sheriff, and his case was deftly handled by counsel. Much sympathy is felt for the accused, as he was well liked, and his family is one of the most prominent in the county.—Oregonian.

"Last winter a infant child of mine had croup in a violent form," says Elder John W. Rogers, a Christian Evangelist of Filler, Mo. "I gave her a few doses of Chamberlain's Cough Remedy and in a short time all danger was past and the child recovered." This remedy not only cures croup but when given as soon as the first symptoms appear will prevent the attack. It contains no opium or other harmful substance and may be given as confidently to a baby as to an adult. For sale by Condon Pharmacy.

Of the product of this well-known brewery the United States Health Reports for June 28, 1900, says: "A more superior brew never entered the laboratory of the United States Health reports. It is absolutely devoid of the slightest trace of adulteration, but on the other hand is composed of the best of malt and choicest of hops. Its tonic qualities are of the highest and it can be used with the greatest benefit and satisfaction by both old and young. Its use can conscientiously be prescribed by the physicians with the certainty that a better, purer or more wholesome beverage could not possibly be found."
