D. S. Brown returned Monday from an extended trip through North-eastern Washington where he went some two weeks ago to visit his relatives, R. H. Lambers and family, and to look at the country. Simon Kuster, who runs the engine for the Condon Milling Co. received a fright Tuesday afternoon that made his hair stand on end. He was filling the furnace with wood when he noticed that the pump was not working just right. Upon investigation it was found that there was no water in the city main from which the mill gets its supply. He immediately took steps, long ones it is said, to get some water into the boiler. The cause of the trouble was the fact that a force of men were laying pipe on Main street and had let the water out of the mains. As soon as they heard of the trouble they let water into the mains and Simon filled his boiler and let the fire go down.

To The Public.
Allow me to say a few words in praise of Chamberlain's Cough Remedy. I had a very severe cough and cold and feared I would get pneumonia, but after taking the second dose of this medicine I felt better, three bottles of it cured my cold and the pains in my chest disappeared entirely. I am most respectfully yours for health, RALPH S. MEYERS, 64—Thirty-seventh St., Wheeling, W. Va. For sale by Condon Pharmacy.

A saw dust collar and a store-room which were a few feet away from the house took fire about 6 a. m. from some unknown cause and the roaring of the flames awakened the family and some of their neighbors discovered the blaze about the same time and it took the combined efforts of all hands to save the house while the other buildings went up in smoke.
