If so then your system is out of balance, and there is a flaw somewhere in your constitution, and a possibility that you are losing health, too. The falling off in weight may be slight, but it makes a wonderful change in one's looks and feelings, and unless the building up process is begun in time, vitality and strength are soon gone and health quickly follows. If you are losing weight there is a cause for it. Your blood is deteriorating and

becoming too poor to properly nourish the body, and it must be purified and enriched before lost weight is regained.
