An Ancient Work on Angling.
The greatest work of antiquity on angling is said to be the "Haliectica" of Oppian, a Greek poet who flourished in the time of Severus, A. D. 193, from which we learn that many artifices in fishing thought to be modern were known to ancients. We also learn from Athenaeus that several other writers had written treatises on poems on fishing some centuries before the Christian era.

RHEUMATISM

NOT A SKIN DISEASE.

It is natural to rub the spot that hurts, and when rheumatic pains are shooting through the joints and muscles and they are inflamed and sore, the sufferer is apt to turn to liniments and plasters for relief; and while such treatment may quiet the pain temporarily, no amount of rubbing or blistering can cure Rheumatism, because it is not a skin disease, but is in the blood and all through the system, and every time you are exposed to the same conditions that caused the first attack, you are going to have another, and Rheumatism will last just as long as the poison is in the blood, no matter what you apply externally. Too much acid in the blood is one cause of Rheumatism; stomach troubles, bad digestion, weak kidneys and torpid liver are other causes which bring on this painful disease, because the blood becomes tainted with the poisonous matter which these organs fail to carry out of the system. Certain secret diseases will produce Rheumatism, and of all forms this is the most stubborn and severe, for it seems to affect every bone and muscle in the body. The blood is the medium by which the poisons and acids are carried through the system, and it doesn't matter what kind of Rheumatism you have, it must be treated through the blood, or you can never get permanently rid of it. As a cure for rheumatic troubles S. S. S. has never been equalled. It doesn't inflame the stomach and ruin the digestion like Potash, Alkalies and other strong drugs, but tones up the general health, gently stimulates the sluggish organs, and at the same time antiseptics and filters out of the blood all poisonous acids and effete matter of every kind; and when S. S. S. has restored the blood to its natural condition, the painful, feverish joints and the sore and tender muscles are immediately relieved.

Our special book on Rheumatism will be mailed free to those desiring it. Our physicians will cheerfully answer all letters asking for special information or advice, for which no charge is made.

STORY OF A CHILD BANK.

When Father Came to Leave He Had No Money.

The bank belonged to the child, and it had all the interest of a new toy. In an effort to show the child how it worked and the object of it, the mother had sacrificed all her available change, after which the child had picked up a few pennies that had been carelessly left on a table, and these had followed the rest. Then she had waited to make a financial assault on her father.

"Money," she said to him as soon as he was settled in his favorite chair. "Say! she's beginning early," he commented, laughingly.

"Oh, I've got a savings bank for her, and she's been crazy to put money in it all day," his wife explained.

"Well, as long as she puts it in the bank it's safe," he remarked, as he gave her a nickel.

Her eyes sparkled and she laughed so joyously that he was enraptured. She was a happy, graceful child, with very pretty and captivating ways of expressing her pleasure.

"That was worth more than a nickel," he laughed, as he gave her a dime.

"But you mustn't humor her too much," his wife cautioned.

"Oh, this is in a good cause," he urged, with the blind indulgence of a particularly proud father. "It's teaching her to save money, and that's something every child should learn. It isn't like spending it, you know, which would be wasteful."

So he gave her a quarter, and in two minutes he was laughing as joyously as she was and getting as much fun out of her as she was out of the bank. But after dinner it was different.

"By George!" he exclaimed, "the bank's got all my money, and I've got to go uptown. I'll have to borrow some change from you."

"What little I had," she explained, "was used in showing Tottie what the bank was for."

"Well, a bill, then."

"Haven't one. I told you this morning you'd have to bring home some money to-night. Did you forget it?"

His blank look showed that he had. "We'll have to open the bank, then," he said. "I've got to have some money."

"The only way that bank can be opened," she told him, "is by taking it to the savings bank that issued it, and then they'll place the money it contains to the credit of Tottie."

He swore, not there in the house, but later, while he was taking a brisk, three-mile walk to keep his appointment for that evening. And it was a week before he could be induced to look at the little bank again, which he has classified as a sort of an inanimate confidence man.—Brooklyn Eagle.

INDIAN AS FOOTBALL PLAYER.

He Is Unsurpassed in Running and Tackling—Fond of Game.

As a matter of prosaic fact, these hard-working and well-behaved wards of the nation at Carlisle have been from the start models of disciplined and educated conduct on the football field as well as off, and only their swiftness of foot and their swiftness of hand mark them as unusual or odd when they line up against the "redskins" sports news.

These lads are intensely fond of football, and they have left in them an inherited indifference to hurts and a toughness of fiber that are their strongest qualities when added to swiftness and agility of movement. I have seen them play through a hard game without one call for "time out," because of injury, and nearly everyone who has seen them play must have noticed the fierceness of their tackling and their fashion of breaking out of a scrimmage on the rebound like so many rubber balls. In running, tackling and aggressive line-breaking the Indians are unsurpassed.

Their weakness is an argument in favor of the claim that football is a question of the trained mind as much as the powerful body. It is mental alertness and adaptability that the Carlisle players lack themselves lacking when they meet the first-class teams. To analyze and meet the unexpected, and to solve the problems of a scientific attack and defense of a style to which they are not accustomed puzzles the slower and less effectively trained mind of the Indian, and he cannot make as quick a change of mental base as the white youth. This is to be expected, and the astonishing feature of it is that the Indian player is able to make the showing he does. He comes to Carlisle from the reservation a little savage and in perhaps a half dozen years he is fashioned into the clean, alert, self-respecting young man who delights those who know good football, played with ardor, yet with self-control and intelligence of a high order. While his opponents shout and rave in moments of a scientific attack and defense of a style to which they are not accustomed puzzles the slower and less effectively trained mind of the Indian, and he cannot make as quick a change of mental base as the white youth.
