### DOINGS IN CONGRESS.

Saturday, Jan. 14.

In the senate today an unavailing effort was made to secure consent to fix a day for taking a vote on the statehood bill.

Pension legislation at the rate of 359 bills in 108 minutes was indulged in by the house today, the result being the smashing of all previous records of the house as to legislative nimbleness. Bills were passed to authorize the use of earth, stone and timber from the forest reserves and public lands for the construction of irrigation projects; to prohibit the words "United States assay" or any words committing the government to the quality of gold or silver articles.

Monday, January 16.

Bills passed by the senate were: For the relief of the Western Alaska Construction Company's railroads by granting an extension of time for completion of the first section of at least 20 miles; to fix the compensation of clerks and bailiffs in the United States courts at \$3 a day.

The statehood bill was discussed for three hours today. Several senators talked against uniting New Mexico and Arizona and some questioned the uniting of Oklahoma and Indian Territory. Heyburn said he could see no reason for it except for a shortsighted desire to shut the door of the senate against the West.

Tuesday, January 17

In the senate today Heyburn concluded his speech on the joint statehood bill and Stone gave notice of a speech tomorrow on his resolution for an investigation of charges of corruption in the campaigns of 1896 and 1904. Lodge presented the conference report on the Philippines bond and railroad bill, and explained the house amendments.

Senator Mitchell appeared on the floor of the senate and defended himself in regard to the indictment in connection with the Oregon land frauds. He called his accusers liars and perjurers and will demand an investigation. Many of his colleagues crowded around him to welcome him.

Another obstacle has arisen in the way of the Klamath irrigation project. Chairman Mondell, of Wyoming, of the house committee on irrigation is fighting the bill. He says he is not in favor of expending a single cent of the reclamation fund in either California or Oregon until both states "pass a decent set of water laws." He would take more of the reclamation fund for use in his own state regardless of amount contributed.

Wednesday, January 18.

The house today adopted the 12 articles of impeachment against Judge Charles Swaine. The speaker was authorized to appoint members to present the case to the senate and conduct the impeachment proceedings before that body.

Senator Stone occupied considerable time with his speech asking an investigation of the campaigns of 1896 and 1904. Clay spoke in opposition to the statehood bill. He had no objection to the consolidation of Oklahoma and Indian Territory.

Thursday, January 19.

The house of representatives today completed consideration of the army appropriation bill and will vote on it tomorrow. A vigorous attack was made on the army transport service by Humphrey and offered an amendment abolishing it. The house fixed Friday, February 17, as the date for holding appropriate exercises in Statuary hall accepting the statue of Francis E. Willard. A bill was passed extending the extradition laws of the United States to the Philippines.

Consideration of the statehood bill was continued in the senate today and Stone spoke for two hours in opposition to it. The bill for the remuneration of American fur sealers who suffer losses because of their suppression, was also debated at some length, but no action was taken.

Friday, Jan. 20.

The statehood bill and the fur seal indemnity bill again divided the attention of the senate today, and both went over without action. Fulton spoke in support of the indemnity bill, and McCree and Bate in opposition to the statehood measure.

Immediately after the senate was called to order President Pro Tem Frye laid before it a telegram from the governor of New Mexico, transmitting a memorial adopted by the legislature of that territory protesting against the union of New Mexico and Arizona in one state, and urging the admission of New Mexico as a state according to present boundaries.

The house passed the army appropriation bill. The Indian appropriation bill was considered for the remainder of the day, but was not concluded when the house adjourned until tomorrow.

More Free Coal for Japan.

Tokio, Jan. 21.—The Japanese captured the British steamer Okley in Tushima straits Wednesday afternoon. The vessel left Cardiff on November 17, carrying 5,900 tons of coal for Vladivostok. She was brought to Sasebo.

## REVOLT IS AT HAND

### Strike Spreads to Every Industry In Russian Capital.

### ANGRY MOBS PARADE STREETS

### Alarm Is Greater Than Over News of Defeat in Far Eastern War—Czar Is Guarded.

St. Petersburg, Jan. 21.—With riotous strikers to the number of hundreds of thousands parading the streets of the capital city, and the continual spread of the feeling of unrest throughout the empire, the Russian government is in a terrible predicament. Even worse than the news of the disasters in the Far East is the alarm felt in official quarters over the domestic situation. Troops are guarding the palace and all public buildings, but it is not deemed wise to call upon them to suppress the disorder, except in extreme cases.

Late Friday evening an organized mob attacked the Marcus cardboard factory and attempted to throw the manager from the window, and it was reported that the strike fever had extended to the Alexandrovsk machine works, where 7,000 men are employed; the Baltic cartridge factory, owned by the government, and Baron Streglitz' cloth factory, the latter employing 3,000 people of both sexes; the state distillery and the Kaller and Beckman distilleries. The employees of the Russo-American rubber company, the Youkoff hoop factory, and a new cotton spinning establishment were the latest acquisitions to the tied-up industries. At the latter works the police were unable to control the mob of strikers and the military were ordered to their assistance. It was learned late Friday night that the employees of the State Playing Card factory, the Vagouline paper mills, employing 1,000 hands, the Atlas machine works, the Wolf & Ma printing works and numerous other large plants had joined in the strike.

The city is almost in darkness, owing to the strike of electric light employes, and it is stated that newspaper publication will be suspended.

The situation grows hourly darker, and the prospects for a settlement of the difficulties vanished when the minister of finance refused to receive a delegation of workmen.

### PROVIDE FOR ALASKA NATIVES.

### President Endorses Emmons' Report on Effects of Immigration.

Washington, Jan. 23.—In transmitting to the senate today a report by Lieutenant G. T. Emmons, of the navy, on the condition of the natives of Alaska, the president sent a message saying:

"Lieutenant Emmons had for many years peculiar facilities for ascertaining the facts about the natives of Alaska, and has recently concluded an investigation made on the ground by my special direction. I very earnestly ask the attention of the congress to the facts set forth in this report as to the needs of the native people of Alaska. It seems to me that our honor as a nation is involved in seeing that these needs are met. I earnestly hope that legislation along the general lines advocated by Lieutenant Emmons can be enacted."

In his report Lieutenant Emmons says that the inrush of white men into Alaska has caused a complete change in of conditions; that the game is rapidly being killed off and the food supply of the Indians rapidly exhausted; that they are like grown-up children and incapable of taking care of themselves in the new conditions, and that it will be necessary to do something substantial for them at an early date to prevent actual suffering.

### May Tie Up Big Railroad.

Philadelphia, Jan. 23.—Though both sides are firm and not disposed to yield anything, developments today in the controversy between the Pennsylvania railroad company and the Brotherhood of Trainmen indicated that an amicable settlement of the dispute may be effected shortly. The chance of a strike was temporarily averted by the decision of Vice Grand Master Lee and his associates to send for Grand Master P. H. Morrissey for the purpose of consultation with the railway officials in the hope of a settlement.

### Minnesota's Great Exhibit.

Minneapolis, Jan. 23.—It is proposed that the Minnesota educational exhibit, which won the grand prize at the St. Louis fair, be sent to the Lewis and Clark exposition at Portland.

### STAND BY CHINA.

### Hay Answers Note of Russia's Complaining Against China.

Washington, Jan. 19.—Count Cassini, the Russian ambassador, was this afternoon handed Secretary Hay's reply to Russia's complaint that China is violating neutrality. At the same time the note was dispatched to the Russian ambassador, copies were transmitted to all the European powers which endorsed the agreement for a limitation of the zone of hostilities in the Far East.

Secretary Hay's note is plain and sharp, although framed in the most polite diplomatic language. Faith is expressed in the declaration that China has not committed any breach of neutrality, but has done all possible to maintain a correct attitude towards both belligerents. Russia is urged to abide by the agreement confining the war to definite limits.

At the same time Secretary Hay forwarded a note to the Chinese government, through Minister Conger at Peking, in which China is asked to continue the strict enforcement of neutrality, so that neither Russia nor Japan can find any cause for complaint. An inquiry is also made as to the allegation put forward by Russia that China has been guilty of many violations of neutrality.

Secretary Hay already knows what the reply will be, and the question is asked for the sole purpose of affording an opportunity to deny the Russian charge. China is afraid to answer Russia through her own representative at St. Petersburg, but is anxious that this be done through Secretary Hay.

### MAY FLOAT FOUR SHIPS.

### Japanese Find Wrecks in Port Arthur Are Not Hopeless.

London, Jan. 19.—The Times correspondent at Port Arthur, detailing the damage to the Russian fleet, says the battleships Peresviet and Poltava can easily be floated, but that the former's structure is greatly damaged and that the battleship Pallada and the armored cruiser Bayan apparently are not seriously damaged and can be refloated. The four vessels, the correspondent says, may be saved after great expense, but the difficulties will be great, as there is no dock in Japan for battleships.

The battleships Retvizan and Pobieda seem to be hopelessly damaged. As regards armament, the turret guns were all destroyed before the surrender. Some of the guns of the secondary armament are intact, but most of the small guns were removed to the forts.

Three days before the surrender the ships were set on fire with kerosene and mines were exploded alongside. Russians state that the fleet was unfit for service after the engagement of August 15. Coal was abundant and it was used to protect the decks of the war vessels against howitzer shells.

### CALL FOR \$70,000.

### New California Bill for 1905 Exhibit Makes Total of \$90,000.

Sacramento, Cal., Jan. 19.—Action toward providing an appropriation to insure a creditable representation of California at the Lewis and Clark international exposition at Portland this year was taken today, when Assemblyman Bliss, of Alameda, introduced in the lower house a bill appropriating \$70,000 in addition to the sum of \$20,000 set aside by the last legislature for the purpose. This makes a total of \$90,000, and is deemed sufficient by proper handling to make a first class display, with what aid the various counties will give by supplying material.

The bill passed by the last legislature names Governor Pardee as commissioner to the exposition, and gives him direction of the expenditure of the \$20,000. The one presented by Assemblyman Bliss today makes no provision for commissioners. There is a plan to amend the bill in committee, so that it will provide for two honorary commissioners. It is not thought the chief executive will have any trouble in securing nonsalaried commissioners to serve the state.

### Will Combine Forces.

St. Petersburg, Jan. 19.—The admiralty here denies the report published by the Matin, of Paris, to the effect that the Russian authorities are in receipt of a dispatch from Admiral Rojstvensky saying that he is leaving Madagascar without waiting the division commanded by Rear Admiral Botrovsky. There is every indication that the Russian second Pacific squadron intends to cruise in the Indian ocean for some time, probably until the arrival of the division now being made ready at Libau.

### Hundreds Buried Alive.

London, Jan. 19.—A dispatch from St. Petersburg from a news agency reports that an earthquake at Shemakha, 78 miles northwest of Baku, buried hundreds of persons in the ruins of buildings in the lower part of the town, which was densely populated, despite the decision, after the earthquake of three years ago, that no more houses should be built there.

## SOCIAL WAR IS ON

### Great Strike at St. Petersburg Involving Thousands.

### WORK ON WARSHIPS IS STOPPED

### About 58,000 Ironworkers and 50,000 Cotton Mill Operatives May Join in Strike.

St. Petersburg, Jan. 20.—The strike situation is becoming very grave. Tonight there are 58,000 men out on strike, and the movement is spreading to the big cotton mills, which employ over 50,000 operatives. Meetings have been called for tomorrow, at which Social Democratic leaders will use their utmost endeavors to convert the strike into a vast political demonstration, which at the present crisis might have most serious developments. The authorities are adopting every precaution to avoid an outbreak, but the Social Democrats are spurring on the strikers, and there is great danger of a collision with the troops, which would be almost sure to be followed by red flag demonstrations, accompanied by great bloodshed. The community is full of sensational rumors and rioting is generally expected.

In conjunction with the Epiphany celebration, which will occur tomorrow, the meetings of strikers will make the day a critical one for the police. Thus far, however, the strike has preserved a purely economic aspect. The great industrial quarter of St. Petersburg presents the appearance of an armed camp. The idle factories are surrounded by cordons of police and patrols of infantry march about the snow-covered plains.

The strikers are led by a priest named Gopon, who is idolized by the workmen and who represents them in negotiations with the employers.

This is the first great strike in Northern Russia. Hitherto the workmen have been unorganized, and previous strikes in St. Petersburg have not involved more than 10,000 men. The strike leaders claim to have funds enough to hold out for a month, but this is doubted, and the lack of money and the privations of winter and perhaps government interference are expected to make the strike short and sharp.

The strikers, who at first declined an offer of financial support, are reported to have accepted a contribution from Moscow.

The strike has an important bearing on the war in the Far East, as every day's delay in completing the government contracts with the iron works means the loss of precious time in the starting of the third Pacific squadron.

### AGREE ON RAILROAD RATES

### Leaders of House and Senate Agree to Speedily Pass Bill.

Washington, Jan. 20.—It is asserted today that an agreement is making between the leaders of the senate and the house in accordance with which railroad rate legislation will be enacted at the present session of congress. The basis of the legislation will be the measure drawn by Colonel Hepburn, chairman of the interstate and foreign commerce committee of the house. That bill already has been considered by the president, Attorney General Moody, Secretary Taft and Secretary Morton, and by members of both the house and the senate. It does not meet the approval of all who have examined it, but it is believed to be a good foundation for a measure which probably can be enacted.

The probability is that the Hepburn bill will be passed by the house before February 1.

### Smallpox Rages at Billings.

Billings, Mont., Jan. 20.—According to the records of the city officials there are at present 67 cases of smallpox here, all of which are strictly guarded. In different parts of the town there are 37 houses under quarantine. Since the outbreak of the disease, January 4, there have been five deaths. A new pest house has been erected outside the city limits for the care of patients. Everything possible is being done to stamp out the disease, and it is believed the health authorities have the situation under control.

### Put in Line of Succession.

Washington, Jan. 20.—The house committee on election of president in conference today favorably reported the bill adding the secretary of agriculture and the secretary of commerce to the line of presidential succession.
