CONDON GLOBE.

VOL. XV.

CONDON, OREGON, THURSDAY, JULY 13, 1905.

NO. 17.

Warehouse Sites Selected.

A special car of railroad officials and prominent grain men was brought to Condon Sunday. The party consisted of M. J. Buckley, general superintendent of the O. R. & N.; D. M. Campbell, superintendent of the C. R. & O. C. R. R. and A. Macquordale from the general freight office; W. N. Pattullo and G. T. Smith of the Interior Warehouse Co.; S. E. Purvine of the Arlington Warehouse Co. and a representative of the Pacific Coast Elevator Co. The object of their visit at this time was for selecting sites for warehouses to be constructed on the west wing of track in the railroad yards, just west of the wagon road crossing.

The party was in town only about an hour and readily decided on the location for their respective buildings. The warehouses to be built will be large and for a general warehouse and storage business. The engine and crew of the regular train made two trips to Arlington, where the special car was attached, leaving Condon at an early hour Sunday morning.

Road Improvements.

County road superintendent McGillivray with a crew of workmen has started work down the canyon a few miles south of town. The big rock crusher purchased last Fall is being used and much effective work is expected to be derived from its use. As this is necessarily a slow process only the places where work is most needed will be attempted this Summer and Fall. However, it is the intention of the county court to push the work as rapidly as possible, as this is one of the most important roads leading into Condon. Much of the territory lying south of here is now in closer touch with Condon than formerly, due to the fact that Condon is now a railroad terminus of no small proportions, a receiving and distributing point for a vast territory. Its products, or at least a large portion was until recently, hauled to Shaniko, but now all of it will be brought to Condon, hence the importance of good roads.

Unappropriate Advertising.

Much might be said regarding this subject, but a word to the wise is sufficient. When you see any form of advertising that has served its purpose it at once becomes your duty to remove it. Posters, hand-bills and such forms of advertising may be seen in conspicuous places for weeks or even months after the event for which they were used. With rare exceptions they have no decorative value but have a tendency to lessen the publicity of ones that may be placed in their stead. It is vexing in your haste to find after a diligent search for some day or date that you have been turning the leaves of last year's almanac but it often occurs. By removing these things it will give way to newer ones and do away with a nuisance. Twice-told tales are never so enjoyable.

Popular Puzzle.

Put down the year in which you were born, to which add 4, than add the age

which your next birthday will make you provided it comes before January 1, otherwise your age at your last birthday. Multiply the result by 1000 and deduct from this 694,423, substitute for the figures corresponding letters of the alphabet, A for 1, B for 2, C for 3, and so forth. The result will give the name by which you are popularly known. Try it.

Buy it Now.

Now is the time to buy Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is certain to be needed sooner or later and when that time comes you will need it badly—you will need it quickly. Buy it now. It may save life. For sale by Condon Drug Co.

W. A. Goodwin has the contract for a building 16x40 feet on Main street between the Telephone Exchange and the Safe saloon, to be a tailor shop for B. Gormley. Construction has begun.

Jas. Brown, who is employed by Jack Fagon on the Cooke ranch, fell 60 feet in a well Tuesday and was considerable bruised up. The rope with which he was descending gave way being the cause of the accident.

Editor S. A. Pattison and wife are in Portland this week visiting the Lewis and Clark Exposition, having left last Saturday morning. Mr. Pattison will probably tell the GLOBE readers all about some of the many attractions to be seen on the trail, as well as other places of interest, in the next issue.

Active construction work has been started on the new flouring mill and warehouse for the Gilliam County Milling Co. The mill will be a modern structure 40x60 feet, four stories high, and will have a capacity of from 250 to 300 barrels of flour a day. The warehouse under construction will be 80x140 feet, to be used exclusively by the milling company. W. A. White, a well-known architect and contractor of Portland has charge of the building operations.

It is believed that the notorious gang of stock rustlers and sheep shooters that have been operating in various counties of Eastern Oregon for several years to be entirely broken up. One of the worst members of this lawless band has recently been captured, while the rest, except two who broke jail, are in the clutches of the law. Thousands of dollars worth of stock from Wheeler and Crook counties has been stolen and taken out of the country by this set of desperadoes.

Prof. John B. Horner of the Oregon Agricultural College was in Condon the first of the week in the interest of that institution. Mr. Horner is one of the foremost educators of the coast and a gentleman with whom it is a pleasure to meet. The college with which he is connected is one that should be given a thorough investigation by the young man or woman who contemplates a more practical education, thus enabling them to take up life's duties with a greater degree of proficiency.

Bent Her Double.

"I knew no one, for four weeks, when I was sick with typhoid and kidney trouble," writes Mrs. Annie Hunter, of Pittsburg, Pa., "and when I got better, although I had one of the best doctors I could get, I was bent double, and had to rest my hands on my knees when I walked. From this terrible affliction I was rescued by Electric Bitters, which restored my health and strength, and now I can walk as straight as ever. They are simply wonderful." Guaranteed to cure stomach, liver and kidney disorders; at all druggists; price 50c.

A coal oil lamp that had been filled by a youngster with gasoline exploded in Robinson's amusement hall Saturday evening. By the prompt action of Mr. Robinson the fire was extinguished and no serious damage resulted.

Strayed.

From the Kargl ranch 2½ miles south of town, about April 1st, one red mulley cow three years old, Branded N I on hip. Earmarks under half crop on one ear over half crop on other. Gentle milch cow. Will pay reasonable reward for information leading to her recovery. Leave information at Globe office or send to N. BULLARD, Condon, Or. 16-19

BORN—To Mayor Dunn and wife, a 9 pound son, Monday night.
